Everywhere Joana Breidenbach, Pál Nyíri, 2011-07-01 Today s world is shaped by an obsession with cultural difference that penetrates everyday life and matters of state in unprecedented ways Culture and cultural difference are commonly used to explain everything that s in the news from wars to economic development and consumer behavior This fuels the belief that our world is shaped by clashing cultures a view that is counterproductive when it assumes falsely that culture is a timeless container that traps nations and ethnic groups Seeing Culture Everywhere challenges the misguided and dangerous global obsession with cultural difference and directly critiques the popular notion that world affairs are determined by essential civilizations with immutable and conflicting cultures The book offers an alternative view of a world in which cultural mixing not isolation is the norm but where several historical trends have come together at the beginning of the twenty first century to produce the current wave of culture think Brimming with concrete examples that move from genocide in Rwanda to schools in Berlin from the Chrysler boardroom to the war in Iraq it contemplates how ethnic identity can be mobilized in the service of all kinds of goals violent or nonviolent laudable or despicable and the unintended effects such mobilization invariably produces The authors suggest ways to remain sensitive to the cultural impacts of policies and decisions without falling into the traps of determinism essentialism and misrepresentation Seeing Culture Everywhere will be useful in the fields of anthropology law intercultural communication and international relations as well as for general readers interested in ethnicity and travel *American Book Publishing Record* ,2005 *The Classical Revolution* John Borstlap, 2017-08-15

Essays by a prominent contemporary composer explore a current trend in classical music away from atonal characteristics and toward more traditional forms Topics include cultural identity musical meaning and the aesthetics of beauty **The Writers Directory**, 2013 History on Trial Gary B. Nash, Charlotte Antoinette Crabtree, Ross E. Dunn, 2000 An incisive overview of the current debate over the teaching of history in American schools examines the setting of controversial standards for history education the integration of multiculturalism and minorities into the curriculum and ways to make history more relevant to students Reprint *As the Witnesses Fall Silent: 21st Century Holocaust Education in Curriculum, Policy and Practice* Zehavit Gross, E. Doyle Stevick, 2015-03-16 This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world It comes at a critical time as the world observes the 70th anniversary of the liberation of Auschwitz We are now at a turning point as the generations that witnessed and survived the Shoah are slowly passing on Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present These efforts take place at a time when scholarship about the Holocaust itself has made great strides In this book these issues are framed by some of the leading voices in the field including Elie Wiesel and Yehuda Bauer and then explored by many distinguished scholars who represent a wide range of expertise Holocaust education is of such significance so rich in meaning so powerful in content and so diverse in practice that the need for extensive high quality empirical research is critical This book provides exactly that Rethinking the 21st Century Doctor Amy Eckert, Laura Sjoberg, 2013-07-04 Rethinking the 21st Century brings much needed context and perspective to the security problems we face today In recent years the Bush Doctrine that the security threats we now face are entirely unprecedented has echoed around the world Global security and stability is now challenged not only by states and nuclear war but by insurgency disease environmental degradation and military privatisation Yet this creates a deep sense of disconnect in the way we perceive politics and can be dangerously stark and ahistorical The chapters here show that far from being a clean break the new problems faced today might actually have old solutions What can Locke tell us about terrorists What does Bentham have to say about sanctions What are the ethics of outsourcing war to private companies By looking back to decades and even centuries of ethical analysis and political theory this book provides fascinating insight into all these questions *The Many Faces of Clio* Q. Edward Wang, Franz L. Fillafer, Georg G. Iggers, 2007 Born in Germany Georg Iggers escaped from Nazism to the United States in his adolescence where he became one of the most distinguished scholars of European intellectual history and the history of historiography In his lectures delivered all over the world and in his numerous books translated into many languages Georg Iggers has reshaped historiography and indefatigably promoted cross cultural dialogue This volume reflects

the profound impact of his oeuvre Among the contributors are leading intellectual historians but also younger scholars who explore the various cultural contexts of modern historiography focusing on changes of European and American scholarship as well as non Western historical writing in relation to developments in the West Addressing these changes from a transnational perspective this well rounded volume offers an excellent introduction to the field which will be of interest to both established historians and graduate students

The Collapse of the Conventional Jaimey Fisher, Brad Prager, 2010 Bringing together many of the most important scholars of German film this hugely significant collection offers a fascinating and subtle account of the contours of the political in the post Wall cinematic landscape Paul Cooke professor of German cultural studies in the School of Modern Languages and Cultures University of Leeds Book Jacket

Transgressive Romanticism Larry H. Peer, 2018-04-18 Romanticism is an intuitive grasp of the self and the other in an interdependent imperative non systematic transcendent radically individuated and endlessly interconnective The set of norms Romanticism represents and broadcasts therefore lends itself particularly well to interdisciplinary and cross linguistic study essentially demanding a view coming from and constructed out of more than one discourse field These norms radically transgress not only the cultural and literary inheritance of thinkers and artists beginning in the late eighteenth century but do so in a transnational and comparative way unique in Western history This collection of essays bringing together established scholars and newer academic voices offers fresh perspectives on what Romanticism thought itself to be by suggesting spaces in Romanticism studies needing negotiation and elaboration Presenting a protocol that escapes the circular referentiality of Romanticism studies typically limited to one academic discipline or one language area this volume works through topics and ideas including Hegelian reflections lyric poetry stage drama music political implications and even vampires outlaws and zombies
