Religion As Story:

Religion as Poetry Andrew M. Greeley, 2017-07-05 Religion as Poetry continues in the grand tradition of the sociology of religion pioneered by Emile Durkheim Max Weber and Talcott Parsons among other giants in intellectual history Too many present day sociologists either ignore or disparage religious currents In this provocative book Andrew M Greeley argues that various religions have endured for thousands of years as poetic rituals and stories Religion as Poetry proposes a theoretical framework for understanding religion that emphasizes insights derived from religious stories By virtue of his own rare abilities as a novelist as well as sociologist Greeley is uniquely qualified for this task Greeley first considers classical theories of the sociology of religion and then drawing upon them he explicates his own interpretation He critically examines the viewpoint that society is becoming more secular and that religion is declining He observes that this theory stands in the way of persuading sociologists that religion is still worth studying In contrast Greeley is interested in why religions persist despite secular trends and alongside them He argues that it is poetic elements that touch the human soul Greeley then sets out to test this viewpoint Greeley maintains that his theory is not the only or necessarily even the best approach to study religion Rather it is his contention that it uniquely provides sociologists with perspectives on religion that other theories too often overlook or disregard Religion as Poetry an original and intriguing study by a distinguished social scientist and major novelist will be enjoyed and evaluated by sociologists theologians and philosophers alike *The Montgomerys and Their Friends. [A Religious Story.]* Montgomerys, 1865

Love Is a Story Robert J. Sternberg, 1999-06-03 In this groundbreaking

work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely Love is a Story shows you how to find out
