Religion In Europe At The End Of The Second Millennium:

Religion in Europe at the End of the Second Millennium Andrew M. Greeley, 2004 *Religion in Europe at the End of the Second Millennium* Andrew M. Greeley, 2017-07-05 Most sociologists of religion describe a general decline in religious faith and practice in Europe over the last two centuries The secularizing forces of the Enlightenment science industrialization the influence of Freud and Marx and urbanization are all felt to have diminished the power of the churches and demystified the human condition In Andrew Greeley s view such overarching theories and frameworks do not begin to accommodate a wide variety of contrasting and contrary social phenomena Religion at the End of the Second Millennium engages the complexities of contemporary Europe to present a nuanced picture of religious faith rising declining or remaining stable

Sacred and Secular Pippa Norris, Ronald Inglehart, 2004-09-20 Seminal thinkers of the nineteenth century Auguste Comte Herbert Spencer Emile Durkheim Max Weber Karl Marx and Sigmund Freud all predicted that religion would gradually fade in importance and cease to be significant with the emergence of industrial society The belief that religion was dying became the conventional wisdom in the social sciences during most of the twentieth century During the last decade however the secularization thesis has experienced the most sustained challenge in its long history The traditional secularization thesis needs updating Religion has not disappeared and is unlikely to do so Nevertheless the concept of secularization captures an important part of what is going on This book develops a theory of secularization and existential security Sacred and Secular is essential reading for anyone interested in comparative religion sociology public opinion political behavior political development social psychology international relations and cultural change [Religion and Politics in the International System Today](#) Eric O. Hanson, 2006-01-16 Publisher Description **Post-Secular Society** Gustaaf Geeraerts, 2017-07-28 Post Secular Society argues for several characteristics of the secular the experience of living in a secular age and the experience of living without religion as a normal condition Religion in the West is often seen as marked by both innovation and disarray In spite of differing approaches and perspectives of secularization rational choice and de secularization many scholars agree that the West is experiencing a general resurgence of religion across most Western societies Post Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular consumer culture Also reviewed is innovative discourse as a religious belief system theories of the post secular religious and spiritual well being and healing practices in Finland and environmentalism This paperback edition includes a new preface by Peter Nynas [Democracy and the New Religious Pluralism](#) Thomas Banchoff, 2007-06-07 In this book a group of leading scholars including Peter Berger John Esposito Robert Wuthnow Martha Nussbaum Diana Eck Stanley Hauerwas and Miroslav Volf examines the new religious pluralism and the challenges it poses for democratic societies on both sides of the Atlantic **The SAGE Handbook of the Sociology of Religion** James A Beckford, Jay

Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook's 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009 *The Cambridge Companion to Atheism* Michael Martin, 2006-10-30 In this 2007 volume eighteen of the world's leading scholars present original essays on various aspects of atheism its history both ancient and modern defense and implications The topic is examined in terms of its implications for a wide range of disciplines including philosophy religion feminism postmodernism sociology and psychology In its defense both classical and contemporary theistic arguments are criticized and the argument from evil and impossibility arguments along with a non religious basis for morality are defended These essays give a broad understanding of atheism and a lucid introduction to this controversial topic **Church Growth in Britain** David Goodhew, 2017-05-15 There has been substantial church growth in Britain between 1980 and 2010 This is the controversial conclusion from the international team of scholars who have drawn on interdisciplinary studies and the latest research from across the UK Such church growth is seen to be on a large scale is multi ethnic and can be found across a wide range of social and geographical contexts It is happening inside mainline denominations but especially in specific regions such as London in newer churches and amongst ethnic minorities Church Growth in Britain provides a forceful critique of the notion of secularisation which dominates much

of academia and the media and which conditions the thinking of many churches and church leaders This book demonstrates that whilst decline is happening in some parts of the church this needs to be balanced by recognition of the vitality of large swathes of the Christian church in Britain Rebalancing the debate in this way requires wholesale change in our understanding of contemporary British Christianity The European Culture Area Alexander B. Murphy, Terry G. Jordan-Bychkov, Bella Bychkova Jordan, 2008-08-28 A sixth edition of this book is now available Now in a fully updated fifth edition this premier text has been thoroughly revised to reflect the sweeping changes the past decade has brought to Europe Long hailed for its creativity and intellectual depth the book is now further enriched by the expertise of a new lead author noted geographer Alexander B Murphy In this edition he has focused on Europe's role in the wider world and incorporated new research and teaching approaches in regional geography The topical organization including environment ethnicity religion language demography politics industry and urban and rural life offers students a holistic understanding of the diverse European culture area Conflict and Consensus Bernadette Hayes, Richard Sinnott, 2005-12-01 This study presents a detailed comparison of cultural values and attitudes in the Republic of Ireland and Northern Ireland It is based on survey data covering the period from the 1970s to 2003 but focusing especially on the European Values Study EVS as fielded in the two parts of Ireland in 1999 2000 The study confirms the deep divisions in identity and political allegiance that separate the Catholic and Protestant communities in Northern Ireland But it also shows that on many issues Protestants and Catholics on the island of Ireland are culturally more similar to each other than to any other national population in Europe including Britain **The European Reception of John D. Caputo's Thought** Martin Koci, Joeri Schrijvers, 2022-10-27 This book gathers the European reception of John D Caputo's proposal for a radical theology of our time Philosophers and theologians from within Europe respond to Caputo's attempt to configure a less rigid less dogmatic form of religion These scholars in turn receive responses by Caputo This volume so aims to strengthen the development of radical theology in Europe and abroad **God's Continent** Philip Jenkins, 2007-05-11 Is the Christian church in Europe doomed to collapse under the weight of globalization Western secularism and a flood of Muslim immigrants Is Europe on the brink of becoming Eurabia Though many pundits are predicting just such a scenario God's Continent reveals the flaws in these arguments and offers a much more measured assessment of Europe's religious future While frankly acknowledging current tensions Philip Jenkins shows for instance that the overheated rhetoric about a Muslim dominated Europe is based on politically convenient myths that Europe is being imperiled by floods of Muslim immigrants exploding Muslim birth rates and the demise of European Christianity He points out that by no means are Muslims the only new immigrants in Europe Christians from Africa Asia and Eastern Europe are also pouring into the Western countries and bringing with them a vibrant and enthusiastic faith that is helping to transform the face of European Christianity Jenkins agrees that both Christianity and Islam face real difficulties in surviving within Europe's secular culture But instead of fading away both have adapted and are adapting Yes the churches

are in decline but there are also clear indications that Christian loyalty and devotion survive even as institutions crumble The third book in an acclaimed trilogy that includes *The Next Christendom* and *The New Faces of Christianity* God's Continent offers a realistic and historically grounded appraisal of the future of Christianity in a rapidly changing Europe **The New Blackwell Companion to the Sociology of Religion** Bryan S. Turner, 2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world Sociology of Religion A Quarterly Review The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry **Faith as an Option** Hans Joas, 2014-09-03 Many people these days regard religion as outdated and are unable to understand how believers can intellectually justify their faith Nonbelievers have long assumed that progress in technology and the sciences renders religion irrelevant Believers in contrast see religion as vital to society's spiritual and moral well being But does modernization lead to secularization Does secularization lead to moral decay Sociologist Hans Joas argues that these two supposed certainties have kept scholars from serious contemporary debate and that people must put these old arguments aside in order for debate to move forward The emergence of a secular option does not mean that religion must decline but that even believers must now define their faith as one option among many In this book Joas spells out some of the consequences of the abandonment of conventional assumptions for contemporary religion and develops an alternative to the cliché of an inevitable conflict between Christianity and modernity Arguing that secularization comes in waves and stressing the increasing contingency of our worlds he calls upon faith to articulate contemporary experiences Churches and religious communities must take into account religious diversity but the modern

world is not a threat to Christianity or to faith in general On the contrary Joas says modernity and faith can be mutually enriching

The Catholic Church in Ireland Today John C. Waldmeir, David Carroll Cochran, 2015-01-22 From a Church that once enjoyed devotional loyalty political influence and institutional power unrivaled in Europe the Catholic Church in Ireland now faces collapse Devastated by a series of reports on clerical sexual abuse challenged publicly during several political battles and painfully aware of plunging Mass attendance the Irish Church today is confronted with the loss of its institutional legitimacy This study is the first international and interdisciplinary attempt to consider the scope of the problem analyze issues that are crucial to the Irish context and identify signs of both resilience and renewal In addition to an overview of the current status and future directions of Irish Catholicism *The Catholic Church in Ireland Today* examines specific issues such as growing secularism the changing image of Irish bishops generational divides Catholic migrants to Ireland the abuse crisis and responses in Ireland and the United States Irish missionaries the political role of Irish priests the 2012 Dublin Eucharistic Congress and contemplative strands in Irish identity This book identifies the key issues that students of Irish society and others interested in Catholic culture must examine in order to understand the changing roles of religion in the contemporary world
