*Historical Dictionary of the Philippines* Artemio R. Guillermo, 2011-12-16 Asia is one of the most rapidly developing regions in the world and knowledge of the individual countries is crucial for our understanding of the area The Republic of the Philippines composed of a chain of islands in Southeast Asia became a Spanish colony during the 16th century and was then ceded to the United States following the Spanish American War After independence in the 20th century the Filipino people suffered under the 20 year rule of the dictator Ferdinand Marcos which ended as a result of a people power movement in 1986 Since then the history of the Philippines has been marked by several more political coups but a growing economy and democratic elections are increasing stability in the country Artemio R Guillermo covers more than four centuries of Filipino history in this newly expanded and updated third edition of the *Historical Dictionary of the Philippines* which contains more than four hundred entries on important persons places events and institutions An updated introduction with a detailed chronology precedes the dictionary and lays out the current situation in the region while a comprehensive bibliography at the end of the dictionary leads the reader to additional sources This book is an excellent access point for students researchers and anyone wanting to know more about the Philippines

*Urban Ecclesiology* Pascal D. Bazzell, 2015-05-21 Pascal D Bazzell brings the marginal ecclesiology of a Filipino ecclesial community facing homelessness FECH into contemporary ecclesiological conversation in order to deepen the ecumenical understanding of today s ecclesial reality He contributes relevant data to support a theory of an ecclesial oriented paradigm that fosters ecclesial communities within homeless populations There is an extensive dialogue occurring between ecclesiologies church planting theories or urban missions and the urban poor Yet the situation with the homeless population is almost entirely overlooked The majority of urban mission textbooks do not acknowledge an ecclesial oriented state of being and suggest that the street level environment is a place where no discipleship can occur and no church should exist By presenting the FECH s case study Bazzell emphasizes that it is possible to live on the streets and to grow in the faith of God as an ecclesial community To be able to describe the FECH s ecclesial narrative Bazzell develops a local ecclesiological methodology that aims to bridge the gap between more traditional systematic and theoretical ideal ecclesiology and practical oriented ecclesiology e g congregational studies in order to hold together theological and social understandings of the church in its local reality He

articulates a theological framework for the FECH to reflect on who they are the essence of identity studies who they are in relationship to God the essence of theological studies and what that means for believers in that community as they relate to God and to each other in ways that are true to who they are and to who God intends them to be the essence of ecclesial studies The research provides a seldom heard empirical tour into the FECH s social world and communal identity The theological findings from the FECH s hermeneutical work on the Gospel of Mark reveal an understanding of church being developed as gathering around Jesus that creates a space for God s presence to be embodied in their ordinary relationships and activities and to invite others to participate in that gathering Moreover it addresses ecclesial issues of the supernatural world honor shame values and further develop the neglected image of the familia Dei in classical ecclesiology that encapsulates well the FECH s nature mission and place *Philippine Quarterly of Culture and Society* ,1991

The Way of the Cross Julius Bautista, 2019-09-30 Every year during Holy Week in the Philippine province of Pampanga hundreds of men and women undergo acts of excruciating self inflicted pain in ways that evoke the Way of the Cross the torment and crucifixion that Christ endured in the last days of his earthly existence Because these Passion rituals are officially disavowed by the Filipino Roman Catholic Church most observers view them as irrational and extremist mimicry of Christ's painful ordeal Even scholars conventionally depict them as theatrical spectacle or macabre examples of Filipino folk religion But what conditions enable ritual actors to submit to such extreme pain What justifications do they give for going against official prohibitions What outcomes do they seek in channeling Christian piety in this way This book addresses these questions through its in depth analyses of three interconnected ritual acts the pabasa a days long communal chanting of Christ's Passion story the pagdarama the public self flagellation of hundreds of devotees and the pamamaku king krus in which steel nails are driven through the palms and feet of ritual practitioners as part of a street play performed in front of tens of thousands of spectators Author Julius Bautista suggests that such ritual acts manifest the embodied physicality of a suffering selfhood that facilitates the expression of heartfelt sentiments of pity empathy trust and bereavement By emphasizing these outwardly focused human sensibilities as the wellsprings of ritual agency he demonstrates that Passion rituals are reinterpretations of the very idea and experience of pain

hardship and suffering and premised on an appeal for a certain kind of divine intimacy The author draws on a decade of in depth and often exclusive interviews with a host of local stakeholders including ritual practitioners clerics scholars and government officials and his own participation in a Passion play Ethnographic insight is considered alongside primary and secondary archival sources including unpublished locally produced oral historical accounts and a survey of relevant media coverage The Way of the Cross makes a welcome contribution to the anthropology of religion by examining the unique ontological contexts in which ritual agents experience God s involvement in their lives

**Investing in Miracles** Katharine L. Wiegele, 2004-09-30 Since the early 1980s approximately ten million people have turned to charismatic businessman turned preacher Brother Mike and his Catholic prosperity movement El Shaddai DWXI Prayer Partners Foundation International Inc Investing in Miracles offers an in depth look at this unique indigenous movement characterized by its effective use of mass media and its huge emotion filled outdoor rallies The book investigates the sociocultural political and economic contexts of El Shaddai s popularity among the Filipino urban poor and aspiring middle classes and explores its significance for its followers which reaches well beyond promises of appliances salary raises jobs abroad and healing Katharine Wiegele argues that Shaddai s theology directly engages and affirms desires for the material signs of modernity in ways that the mainstream Philippine Roman Catholic Church and Filipino leftist movements do not At stake for its many adherents are their place and identity within the broader society the meaning of their experiences of poverty suffering and oppression and the relevance of their very notions of God Christian community and Christian life Wiegele evocatively captures the religious and everyday experiences of her informants lives in poor squatter neighborhoods of Manila She is particularly sensitive to El Shaddai s delicate and often contorted relationship with the Catholic Church which accepts the movement reluctantly fearful of losing the loyalty of millions of faithful Catholics While anchored in the local realities of the Philippines Investing in Miracles will be of great interest to readers elsewhere for its exploration of religious seduction and interpretation the interface between religion and politics and the relevance of religion for the urban disenfranchised

anthropologist currently living in Santa Cruz California      **A Generation Later** James F. Eder,1999-09-01 A Generation Later moves beyond analytical models of rural change that focus on the peasant agricultural aspect of rural communities and makes a convincing case for an approach that integrates farm and nonfarm occupations and does justice to the conditions of occupational multiplicity that characterize to an increasing extent many of the rural communities in Asia In this context it challenges conventional and simplistic peasant to proletarian views of change Rather than finding a dreary and dispirited landscape of sameness and hardship it offers some empirical support for amore optimistic view of the region s future one of growing household prosperity and widespread individual opportunity      People's Response to Disasters in the Philippines J. Gaillard,2015-02-18 This book provides a critical perspective on people s response to disasters in the Philippines It draws upon an array of case studies to discuss people s vulnerability capacities and resilience in facing a wide range of different hazards      Holiness Abroad Floyd Timothy Cunningham,2003 This resource provides a detailed case study of an American denomination s work in Asia during the first three quarters of the twentieth century      Health, Illness, and Culture in a Philippine Community Dominic Togni Gaioni,1994
