Religious Ethnic Minority Politics In:

Ethnic Minorities, Political Competition, and Democracy Jan Rovny, 2024-09-24 Ethnic minorities make contemporary Europe increasingly diverse The wisdom in research on ethnicity is that it is a trouble maker disrupting programmatic politics prioritizing group identity over ideology polity over policy principle over compromise In this book Jan Rovny approaches ethnic politics as normal politics and investigates the ideological potential of ethnicity He shows that ethnic minorities often search for group preservation by championing liberal rights that would protect them from the tyranny of the majority This translates into broader ideological preferences and political behavior including the formation of liberal political poles which in turn configures political cleavages shapes party systems and informs the absorption of new political issues Ultimately the presence of ethnic minorities can be a force for liberal democracy Simultaneously ethnic liberalism is circumstantial as conditional factors cross pressure ethnic minority search for rights and liberties potentially attenuating ethnic liberalism and inducing exclusionary particularism This book combines the study of ethnic politics with research on electoral behavior and party competition while comparing minorities and majorities in eastern Europe The book analyzes existing and new data using mixed experimental quantitative and qualitative methods The empirical chapters in the book are organized into two parts one focusing on large N comparative analyses while the other presents three in depth case studies on interwar Czechoslovakia contemporary Slovakia and contemporary Estonia Transformations in Governance is a major academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism and environmental and urban studies concerned with the dispersion of authority from central states to supranational institutions subnational governments and public private networks It brings together work that advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

The Politics of Religion in South and Southeast Asia

Ishtiaq Ahmed, 2011-05-04 The notion of a politics of religion refers to the increasing role that religion plays in the politics of the contemporary world This book presents comparative country case studies on the politics of religion in South and South Asia including India Pakistan and Indonesia The politics of religion calls into question the relevance of modernist notions of secularism and democracy with the emphasis instead on going back to indigenous roots in search of authentic ideologies and models of state and nation building Within the context of the individual countries chapters focus on the consequences that politics of religion has on inclusive nation building democracy and the rights of individuals minorities and women The book makes a contribution to both the theoretical and conceptual literature on the politics of religion as well as shed light on the implications and ramifications of the politics of religion on contemporary South Asian and South East Asian countries It is of

interest to students and scholars of South and South East Asian Studies as well as Comparative Politics Religion and Politics in International Relations Timothy Fitzgerald, 2011-10-27 Scholars in International Relations concerned with religion and its relations to world politics are rhetorically constructing a powerful modern myth A component of this myth is that religion is inherently violent and irrational unless controlled by the secular state which is inherently rational and only reluctantly violent Timothy Fitzgerald discusses how in this modern myth religion appears as a force of nature which either assists or threatens the sacred secular order of things and how religion is portrayed as a kind of universal essence which takes many forms its recent most dangerous manifestation being Islamic terrorism This book illustrates that the essential distinction between irrational religion and rational secular politics appears as an unquestioned preconception on the basis of which policy is conducted countries invaded and wars fought Arguing that this rhetorical construction of religion provides the foundation for faith in the rationality of modern liberal capitalism Fitzgerald demonstrates how a historically contingent discourse has been transformed into a powerful set of global assumptions *Ethnic Minorities and Politics in Post-Socialist Southeastern Europe* Sabrina P. Ramet, Marko Valenta, 2016-09-22 Southeast European politics cannot be understood without taking ethnic minorities into account This book provides a comprehensive introduction to the politics of ethnic minorities examining both their political parties and issues of social distance migration and ethnic boundaries as well as issues related to citizenship and integration Coverage includes detailed analyses of Hungarian minority parties in Romania Albanian minority parties in Macedonia Serb minority parties in Croatia Bosniak minority parties in Serbia and various minority parties in Montenegro as well as the Movement for Rights and Freedoms a largely Turkish party in Bulgaria **Religious and Ethnic Minority Politics in South Asia** Dharendra K. Vajpeyi, Yogendra K. Malik, 1989 Religious Politics in Turkey Ceren Lord, 2018-11-08 Presents an account of the rise of Erdogan s AKP showing how the politicisation of religion has roots in the period of early nation building in Turkey **Religion, politics and ethnicity in iran: investigating the case of the sunni deobandis** Hoshang Noraiee, 2022-06-30 This project evolved out of my research on several other topics concerning militant Islam among Sunnis in Iran Deobandis and female Deobandi madares Since then several more informants have sincerely come forward to help me update my information on the current research *Religion as a Political Resource* Miriam Schader, 2017-01-02 Miriam Schader shows that migrants can use religion as a resource for political involvement in their new country of residence but under certain circumstances only The author analyses the role religious networks and symbols play for the politicization and participation of Muslim and Christian migrants from sub Saharan Africa in Berlin and Paris Against the widely held belief that Islam is a political religion in itself this study demonstrates that Christian migrants draw on their religion for political action more easily than their Muslim counterparts It also highlights that it is not religion in general which helps migrants get politically active but particular forms of religious organisations and particular theological elements *The Political Representation of Immigrants and Minorities* Karen Bird, Thomas

Saalfeld, Andreas M. Wüst, 2010-10-06 In 2005 almost 700 000 immigrants acquired the citizenship of a member state of the European Union over 600 000 became US citizens nearly 100 000 became Australians and approximately 200 000 Canadians 2005 was not an exceptional year During the past decades many advanced liberal democracies have become more ethnically diverse societies This book breaks new ground in the analysis of the political representation of immigrants and visible minorities both theoretically and empirically It examines the upward trend in migrant and minority representation and demonstrates that there remain crucial differences across liberal democracies in the timing of these developments in channels of access for minority representatives in the policy focus and outcomes of minority representation in the nature of the connections between minority representatives and minority communities and in the nature of their relationships with constituents at large Part I analyses immigrants and visible minorities as voters who must be the starting point of any analysis of political representation Part II deals with the stage of candidate selection within political parties a crucial and under researched stage in the process of political representation Part III deals with immigrants and members of visible minorities once elected to parliament and includes analyses of the Canadian Parliament the German Bundestag MPs in the United Kingdom and Members of the United States Congress The book will of interest to students and scholars of migration and ethnicity studies and political science especially those with an interest in political representation democratic institutions voting behaviour party organisation legislative behaviour and comparative politics *Language, Religion and Politics in North India* Paul R. Violence, Elections, and Party Politics Mary Beth Altier, Susanne Martin, Leonard B. Weinberg, 2016-03-16 As the United States and the countries of Western Europe have sought to promote democratic rule in those parts of the world that have not enjoyed the blessings of liberty they have failed to consider an important factor Competitive elections the sine qua non of democratic government often gives rise to serious bouts of political violence mob riots inter party fighting and internal wars The essays collected in this volume evaluate the relationship between terrorist activity and electoral politics Do democratic elections themselves undermine the development and stability of the democratic institutions the United States and its allies seek to promote Under what conditions are democratic elections effective at bringing terrorist organizations

into the political process thereby quelling violence When and how might terrorist organizations use democratic elections to foment violence This book was published as a special issue of *Terrorism and Political Violence* *Library of Congress Subject Headings* Library of Congress,1998 *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office,2009 *Ethnicity, Religion and Class in Israeli Society* Eliezer Ben-Rafael,Stephen Sharot,1991-02-21 This book is the first major sociological analysis of the characteristics and interrelationships of ethnicity religion and socio economic class in Israeli society Although much has been written about the various distinctions between Sephardi and Ashkenazi Jews this volume argues for a more sophisticated approach than the rather crude divisions that have formed the basis of most works on the subject The authors include categories largely overlooked in sociological studies on Israel such as middle class Israelis from Asia and Africa and working class Israelis from Europe The data acquired from this rich ethnic mix leads to the analysis of a wide range of theoretical issues that casts fresh light on social cleavages within Israel in particular and society in general Minorities in European Cities S. Body-Gendrot,M. Martiniello,2016-04-30 *Minorities in European Cities* examines the issues pertaining to the dynamics of social integration and social exclusion of immigrant minorities at the neighbourhood level The book looks at the question of the participation and exclusion of migrants in the field of economics The study focuses on social relations at the neighbourhood level and their impact on the exclusion inclusion process as well as forms of political exclusion of migrant origin population in the local politics and policy making processes Finally *Minorities in European Cities* examines the ways in which conceptions of law and order and security as well as the local institutional praxis they engender effect exclusion inclusion opportunities *Religion and Human Security in Africa* Ezra Chitando,Joram Tarusarira,2019-01-23 Across diverse countries and contexts in Africa religion has direct implications for human security While some individuals and groups seek to manipulate and control through the deployment of religion religious belief is also a common facet of those working towards peace and reconciliation Despite the strategic importance of religion to human security in Africa there are few contemporary publications that explore this issue on an international scale This volume redresses that imbalance by examining religion s impact on human security across Africa Written by an international team of contributors this book looks in detail at the intersection of religion and security in a variety of African contexts Case studies from a diverse set of countries including Nigeria Ghana South Africa Burkina Faso and more are used to illustrate wider trends across the continent Acknowledging that religion can be used to incite violence as well as encourage peace the chapters employ an interdisciplinary exploration of the ethics sociology and politics around these issues This is much needed volume on religion s capacity to effect human security It will therefore be of significant interest to any scholar of religious studies African studies political science the sociology of religion and anthropology as well as peace conflict and reconciliation studies
