**Technology and the Public Interest** Haochen Sun,2022-04-21 In this groundbreaking work Haochen Sun analyzes the ethical crisis unfolding at the intersection of technology and the public interest He examines technology companies growing power and their increasing disregard for the public good To tackle this asymmetry of power and responsibility he argues that we must reexamine the nature and scope of the right to technology and dynamically protect it as a human right under international law a collective right under domestic civil rights law and potentially a fundamental right under domestic constitutional law He also develops

the concept of fundamental corporate responsibility requiring technology companies to compensate users for their contributions assume an active role responsibility in upholding the public interest and counter injustices caused by technological developments      **The Status of Religion and the Public Benefit in Charity Law** Barry W.

Bussey,2020-02-29 The Status of Religion and the Public Benefit in Charity Law is an apologetic for maintaining the presumption of public benefit for the charitable category advancement of religion in democratic countries within the English common law tradition In response to growing academic and political pressure to reform charity law including recurring calls to remove tax exemptions granted to religious charities the scholars in this volume analyse the implications of legislative and legal developments in Canada the UK Australia New Zealand and South Africa In the process they also confront more fundamental sociological or philosophical questions on the very nature and role of religion in a secular society that would deny any space for religious communities outside their houses of worship In other words this book is concerned with the place of religion and religious institutions in contemporary society It represents a series of concerns about the proper role of the state in relation to the differing beliefs of citizens some of which will quite rightly manifest in actions to benefit the wider society This debate then naturally engages with broader issues related to secularism civic engagement and liberal democratic freedoms

Emily R. Gill, 2019-08-21 This book addresses the challenge of providing for the free exercise of religion without allowing religious exercise by some individuals and groups to impinge upon the conscientious convictions of others State neutrality toward religion is impossible because neutrality means inattention to religion for some but leveling the playing field through accommodations or exemptions for others Both formal and substantive neutrality have a place in addressing particular conflicts One such example is public funding for religiously affiliated social service programs for which neither type of neutrality is satisfactory and thus some restrictions are justifiable conversely private voluntary organizations that do not receive direct public funding should be allowed wide latitude regarding their practices This title also examines the expansive free exercise claims that are now made by those who argue that following the law impinges upon their beliefs as exemplified by the ministerial exception and the Hobby Lobby and Masterpiece Cakeshop Supreme Court cases It concludes by analyzing the relationship between neutrality and marriage as a civil status which impacts a variety of commitment types and plural marriage

**Grades 9-12** James C. Schott, 1991-12-01      **Freedom of Religion and Religious Diversity** Md Jahid Hossain

Bhuiyan, Ann Black, 2024-08-23 Today pluralism is increasingly the norm and can be seen as a permanent characteristic of modernity. As seen in world events, religion has not become irrelevant but more diverse, giving rise to a complex web of religion and belief minorities together with intra plural majorities. Nations seek ways to implement the ideal of freedom of religion but as this book shows, whether East or West in the global North or the South, there is no simple formalism for accommodating religious diversity. Different faith communities have competing needs and demands for the same social space with tensions inevitably arising. This book highlights responses from liberal democracies which enshrine secularism into their constitutions to other constitutions where religion and ethnic identity are enshrined to prioritise their ethno religious majority. Western and Asian countries encounter different obstacles and challenges. With analysis from 19 international scholars, the book explores different obstacles and responses to accommodation of religious minorities in a range of jurisdictions. In a globalised world, it will be invaluable for comparative legal scholars, law and religion scholars, researchers and students, and decision makers e.g. governments, non-governmental organisations, and for those who seek to better understand the challenges of our time.

Extreme Speech and Democracy Ivan Hare, James Weinstein, 2009 This book considers the constitutionality of hate speech regulation and examines how liberal democracies have adopted fundamental differences in the way they respond to racist or extreme expressions.

Law and Religion in the Commonwealth Renae Barker, Paul Babie, Neil Foster, 2022-06-30 This book examines law and religion from the perspective of its case law. Each chapter focuses on a specific case from a Commonwealth jurisdiction, examining the history and impact of the case both within the originating jurisdiction and its wider global context. The book contains chapters from leading and emerging scholars from across the Commonwealth, including from the United Kingdom, Canada, Australia, Pakistan, Malaysia, India, and Nigeria. The cases are divided into four sections: Foundational Questions in Law and Religion; Freedom of Religion around the Commonwealth; Religion and state relations around the Commonwealth; Rights Relationships and Religion around the Commonwealth. Like religion itself, the case law covers a wide spectrum of life. This diversity is reflected in the cases covered in this book, which include *Titular Roman Catholic Archbishop of Kuala Lumpur v Home Minister on the use of the Muslim name for God by non Muslims in Malaysia*, *The Church of the New Faith v Commissioner of Pay roll Tax Vic* which determined the meaning of religion in Australia, *Eweida v UK* which clarified the application of Article 9 of the European Convention on Human Rights, *R v Big M Drug Mart* on the individual protections of religious freedom under the Canadian Charter of Rights. The book examines how legal disputes involving religion are among the most contested in the courts and shows that in these cases passions run high and the outcomes can have significant consequences for all involved.
