**Theorizing Scriptures** Vincent Wimbush, 2008-01-04 Historically religious scriptures are defined as holy texts that are considered to be beyond the abilities of the layperson to interpret Their content is most frequently analyzed by clerics who do not question the underlying political or social implications of the text but use the writing to convey messages to their congregations about how to live a holy existence In Western society moreover what counts as scripture is generally confined to the Judeo Christian Bible leaving the voices of minorities as well as the holy texts of faiths from Africa and Asia for example unheard In this innovative collection of essays that aims to turn the traditional bible study definition of scriptures on its head Vincent L Wimbush leads an in depth look at the social cultural and racial meanings invested in these texts Contributors hail from a wide array of academic fields and geographic locations and include such noted academics as Susan Harding Elisabeth Sh ssler Fiorenza and William L Andrews Purposefully transgressing disciplinary boundaries this ambitious book opens the door to different interpretations and critical orientations and in doing so allows an ultimately humanist definition of scriptures to emerge

**Layout Markers in Biblical Manuscripts and Ugaritic Tablets** M.C.A. Korpel, Joseph Oesch, 2021-12-28 Series Pericope 5 Scripture as written and read in antiquity A lucid delimitation of textual units appears to have been a serious concern of ancient scribes In this fifth volume of the Pericope series this is demonstrated in the papers read at the Fourth Pericope Meeting held in connection with the SBL International Meeting at Cambridge 2003 For the first time articles on text division in New Testament manuscripts are included one on the pericope markers in some relatively early manuscripts especially papyri as well as in the four major codices and another article on Codex Boernerianus and papyrus 46 of the letters of Paul Other topics discussed are the setumot and petuchot in Numbers and Amos and the special phrases preceding or following them Is it possible to get more insight in the way the ancient scribes put in the spaces and blank lines in their manuscripts Furthermore the divisions made by Jerome in his commentary on the Book of Isaiah are investigated and the question about the frame story of the Book of Job is it prose or poetry The structural unity of Micah 6 is discussed resulting in some challenging proposals to resolve old exegetical problems The structure of Zechariah 4 is illuminated by data from ancient manuscripts and compared to modern divisions of

the chapter Finally a study on physical division markers in ritual texts from Ugarit Babylonia and Israel reveals a long standing tradition of fixed liturgical sequences in the cult The Pericope series aims at making available data on unit delimitation found in biblical and related manuscripts to the scholarly world and provides a platform for evaluating this hitherto largely neglected evidence for the benefit of biblical interpretation Layout Markers in Biblical Manuscripts and Ugaritic Tablets M C A Korpel J M Oesch Preface D J Clark Delimitation Markers in the Book of Numbers W M de Bruin Traces of a Hebrew Text Division in the Bible Commentaries of Jerome R de Hoop The Frame Story of the Book of Job Prose or Verse Job 1 1 5 as a Test Case J C de Moor The Structure of Micah 6 in the Light of Ancient Delimitations M Dijkstra Unit Delimitation and Interpretation in the Book of Amos M C A Korpel Unit Delimitation in Ugaritic Cultic Texts and Some Babylonian and Hebrew Parallels S E Porter Pericope Markers in Some Early Greek New Testament Manuscripts D Trobisch Structural Markers in New Testament Manuscripts with Special Attention to Observations in Codex Boernerianus G 012 and Papyrus 46 of the Letters of Paul M van Amerongen The Structure of Zechariah 4 A Comparison Between the Divisions in the Masoretic Text Ancient Translations and Modern Commentaries Abbreviations Index of Authors Index of Texts Textiles and Gender in Antiquity Mary Harlow, Cecile Michel, Louise Quillien, 2020-11-12 This volume looks at how the issues of textiles and gender intertwine across three millennia in antiquity and examines continuities and differences across time and space with surprising resonances for the modern world The interplay of gender identity textile production and use is notable on many levels from the question of who was involved in the transformation of raw materials into fabric at one end to the wearing of garments and the construction of identity at the other Textile production has often been considered to follow a linear trajectory from a domestic female activity to a more commercial or industrial male centred mode of production In reality many modes of production co existed and the making of textiles is not so easily grafted onto the labour of one sex or the other Similarly textiles once transformed into garments are often of unisex shape but worn to express the gender of the wearer As shown by the detailed textual source material and the rich illustrations in this volume dress and gender are intimately linked in the visual and written records of antiquity The contributors show how it is common practice in both art and literature not only to use particular garments to characterize one sex or the other but also to undermine characterizations by suggesting that they display features usually associated with the opposite gender **The Spirit of the Lord Came Upon Me'** Lester L. Grabbe, 2024-01-11 Lester Grabbe here distills his wide body of work on the subject of prophecy The volume considers prophecy in different cultural contexts across ancient Israel and surrounding areas Beginning with a consideration of prophecy in the Hebrew Bible Grabbe then looks at it as phenomenon in the ancient near east including Mesopotamia Egypt and the Levant From this background in the immediate context of ancient Israel Grabbe then widens the cultural lens to consider prophecy in more global environments including Africa and the Americas and recent examples of pseudo biblical prophets such as Joseph Smith In the final part of the book Grabbe then analyses these different

prophetic types and forms looking at the continuing traditions of prophecy alongside their ancient roots
