Paul Hedges, Alan Race

Religious Pluralism A Metaphorical Approach:

Religious Pluralism, 2000 Religious Pluralism stems from a series of Gifford Research Fellowship lectures A stipulation of these lectures is that they be public popular addressed to the intelligent lay person not just the specialist Religious Pluralism is not written from the stance of any particular faith It addresses issues that might concern anyone who thinks about religion particularly the individual in search of or interested in choosing a faith We live in a religiously plural world one in which Buddhism Christianity Hinduism Islam Judaism Sikhism Taoism etc variously picture the nature purpose of human existence Which religious account if any should we accept on what ground Is it legitimate to construct a world view using material from several faiths Using the image of a hall of mirrors to symbolize our new multi religious consciousness Religious Pluralism A Metaphorical Approach considers how the individual might answer such challenging questions Chris Arthur received a PhD from the University of Edinburgh where he took a First Class Honours degree in Religious Studies In 1984 he was awarded the Gifford Research Fellowship at the University of St Andrews At the University of Wales he teaches courses in Buddhism Religion the Media Methodology Prolegomena to Religious Pluralism P. Byrne, 1995-08-23 This book surveys the thesis that all religions are alike in referring and relating to a single common transcendent and sacred reality It treats this thesis as one in the philosophy of religion and systematically sets out its main philosophical strengths and weaknesses The key to understanding and defending pluralism is argued to lie in a realist understanding of religion which is defined by way of an account of the reference of names for sacred transcendent reality **Process and Pluralism** Zhihe Wang, 2013-05-02 This book offers a uniquely process relational oriented Chinese approach to inter religious dialogue called Chinese Harmonism The key features of Chinese harmonism are peaceful co existence mutual transformation and openness to change As developed with help from Whiteheadian process thought Chinese harmonism provides a middle way between particularism and universalism showing how diversity can exist within unity Chinese harmonism is open to similarities among religions but it also emphasizes that differences among religions can be complementary rather than contradictory Thus Chinese harmonism implies an attitude of respect for others and a willingness to learn from others without reducing the other to one's own identity that is to sameness By emphasizing the possibility of complementariness a process oriented Chinese harmonism avoids a dichotomy between universalism and particularism represented respectively by John Hick and S Mark Heim and will make room for a genuine openness and do justice to the culturally and religiously other Religion: Empirical Studies Steven J. Sutcliffe, 2017-03-02 Treating religion as a fully social cultural historical and material field of practice this book presents a series of debates and positions on the nature and purpose of the Study of Religions or Religious Studies Offering an introductory guide to this influential and politically relevant academic field the contributors illustrate the diversity and theoretical viability of qualitative empirical methodologies in the study of religions The historical and cultural circumstances attending the emergence defence and future prospects of Religious Studies are documented drawing on

Hobson,2019-07-12 Religious education in liberal pluralist societies such as the UK the USA and Australian underwent radical change in the 1980s and 1990s with a major shift towards multi faith educationally oriented programmes This has meant significant modifications to both the content and the methodology of religious education courses and to the way they are conceived of and taught in schools and universities One important implication of this change for the teaching and study of religion today is the need for a philosophical dimension that deals with issues such as the truth status of religious statements and the moral acceptability of religious claims This dimension is often insufficiently developed this lack is made more critical by the multiple competing truth claims of various religions giving rise to such contentious problems as the growth of fundamentalism increasing religious intolerance and conflict and differences of opinion on central moral problems such as birth control abortion and euthanasia This text attempts to provide the philosophical underpinning that the study and teaching of religion in modern societies requires *Connecting Christ* Paul Louis Metzger,2012-05-07 We live in a multifaith society an ever growing diverse cultural climate where no religion is viewed as having a monopoly on truth It is important when that Christ followers not only share the Word of God but also listen and learn how to interact meaningfully with those

of diverse perspectives as we engage in life's most important conversations. Connecting Christ encourages believers to be not only better communicators and witnesses but also listeners to people of other worldviews and traditions, skills that are crucial in defending against today's negative connotations and ineffective approaches associated with Christian evangelism. With extensive commentary from leaders of various walks of faith and life from Judaism to Islam and Buddhism to atheism, theologian and author Dr Paul Louis Metzger offers a spiritual compass to help navigate the intimidating yet critical dialogue of conveying our faith in Christ. Filled with practical guidance and insight into controversial topics such as hell, fascism, and homosexuality, Connecting Christ reveals that there is a way of evangelizing that is neither disengaging monologue nor silent lifestyle ministry but is instead an approach for evangelism and dialogue to go hand in hand. We must remove ourselves as the stumbling block to salvation for others and embrace a way to proclaim the uncommon, compassionate God revealed in Jesus Christ, the Savior this world is dying to know. *Christian Approaches to Other Faiths* Paul Hedges, Alan Race, 2009. A reader designed to work on courses concerned with World Religions, Interfaith Dialogue, and Interfaith Encounter.

The Perspective of Resurrection Petr Gallus, 2021-04-15. Because the Christian faith stands and falls with Jesus Christ, Christology is at the heart of its theology. Answering the question of Jesus Christ's identity is therefore urgent. Petr Gallus attempts to do so by critically reflecting on tradition and articulating it for today. Page 4 de la couverture. SCM Core Text: Christian Approaches to Other Faiths Paul Hedges, 2013-02-11. The textbook begins with a chapter on exclusivism, inclusivism, particularity, and pluralism, and one on interfaith. Each chapter explains the history, rationale, and workings of the various approaches. Moreover, each is divided into sub-sections dealing with various forms of each approach so that each may be appreciated in its individuality, i.e., the chapter on Inclusivism will include sections on fulfillment theology, anonymous Christians, etc. The second part of this textbook deals with attitudes towards different faiths, considering the problems and relations that exist with Christian approaches to each. It will deal with the world's major faiths as well as primal religions and new religious movements. The introduction and conclusion will deal with some central themes that run throughout, in particular, the questions of the Trinity and concepts of salvation. In each section, reference will be made to the key texts discussed in the Reader, which accompanies this 9780334041155; however, the work may be read as a stand-alone text.
