Cultural Policy Toby Miller, George Yudice, 2002-12-17 Offering the first comprehensive and international work on cultural policy Toby Miller and George Yudice have produced a landmark work in the emerging field of cultural policy Rigorous in its field of survey and astute in its critical commentary it enables students to gain a global grounding in cultural policy **Federalizing the Muse** Donna M. Binkiewicz, 2005-12-15 The National Endowment for the Arts is often accused of embodying a liberal agenda within the American government In *Federalizing the Muse* Donna Binkiewicz assesses the leadership and goals of Presidents Kennedy through Carter as well as Congress and the National Council on the Arts drawing a picture of the major players who created national arts policy Using presidential papers NEA and National Archives materials and numerous interviews with policy makers Binkiewicz refutes persisting beliefs in arts funding as part of a liberal agenda by arguing that the NEA's origins in the Cold War era colored arts policy with a distinctly moderate undertone Binkiewicz's study of visual arts grants reveals that NEA officials promoted a modernist abstract aesthetic specifically because they believed such a style would best showcase American achievement and freedom This initially led them to neglect many contemporary art forms they feared could be perceived as politically problematic such as pop feminist and ethnic arts

The agency was not able to balance its funding across a variety of art forms before facing serious budget cutbacks Binkiewicz's analysis brings important historical perspective to the perennial debates about American art policy and sheds light on provocative political and cultural issues in postwar America *Ask the Experts* Michael Sy Uy, 2020-08-31 From the end of the Second World War through the U S Bicentennial the National Endowment for the Arts the Rockefeller Foundation and the Ford Foundation granted close to 300 million approximately 2.3 billion in 2017 dollars in the field of music alone In deciding what to fund these three grantmaking institutions decided to ask the experts adopting seemingly objective scientific models of peer review and specialist evaluation They recruited music composers at elite institutions professors from prestigious universities and leaders of performing arts organizations Among the most influential expert consultants were Leonard Bernstein Aaron Copland Lukas Foss and Milton Babbitt The significance was two fold not only were male Western art composers put in charge of directing large and unprecedented channels of public and private funds but in doing so they also determined and defined what was meant by artistic excellence They decided the fate of their peers and shaped the direction of music making in this country By asking the experts the grantmaking institutions produced a concentrated and interconnected field of artists and musicians Officers and directors utilized ostensibly objective financial tools like matching grants and endowments in an attempt to diversify and stabilize applicants sources of funding as well as the number of applicants they funded Such economics based strategies however relied more on personal connections among the wealthy and elite rather than local community citizens Ultimately this history demonstrates how expertise served as an exclusionary form of cultural and social capital that prevented racial minorities and non dominant groups from fully participating Don't Act, Just Dance Catherine Gunther Kodat, 2014-12-26 At some point in their career nearly all the dancers who worked with George Balanchine were told don't act dear just dance The dancers understood this as a warning against melodramatic over interpretation and an assurance that they had all the tools they needed to do justice to the steps but its implication that to dance is already to act in a manner both complete and sufficient resonates beyond stage and studio Drawing on fresh archival material Don't Act Just Dance places dance at the center of the story of the relationship between Cold War art and politics Catherine Gunther Kodat takes Balanchine's catch phrase as an invitation to explore the politics of Cold War culture in particular to examine the assumptions underlying the role of apolitical modernism in U S cultural diplomacy Through close theoretically informed readings of selected important works Marianne Moore's *Combat* Cultural dances by George Balanchine Merce Cunningham and Yuri Grigorovich Stanley Kubrick's *Spartacus* and John Adams's *Nixon in China* Kodat questions several commonly held beliefs about the purpose and meaning of modernist cultural productions during the Cold War Rather than read the dance through a received understanding of Cold War culture Don't Act Just Dance reads Cold War culture through the dance and in doing so establishes a new understanding of the politics of modernism in the arts of the period **Arts in Crisis** Joseph Wesley Zeigler, 1994 For everyone interested in the survival of free expression and the arts

in America **Kitchen Sink Realisms** Dorothy Chansky, 2015-11-05 From 1918's *Tickless Time* through *Waiting for Lefty*, *Death of a Salesman*, *A Streetcar Named Desire*, *A Raisin in the Sun*, and *The Prisoner of Second Avenue* to 2005's *The Clean House*, domestic labor has figured largely on American stages. No dramatic genre has done more than the one often dismissively dubbed kitchen sink realism to both support and contest the idea that the home is naturally women's sphere. But there is more to the genre than even its supporters suggest. In analyzing kitchen sink realisms, Dorothy Chansky reveals the ways that food preparation, domestic labor, dining, serving, entertaining, and cleanup saturate the lives of dramatic characters and situations even when they do not take center stage. Offering resistant readings that rely on close attention to the particular cultural and semiotic environments in which plays and their audiences operated, she sheds compelling light on the changing debates about women's roles and the importance of their household labor across lines of class and race in the twentieth century. The story begins just after World War I as more households were electrified and fewer middle class housewives could afford to hire maids. In the 1920s, popular mainstream plays staged the plight of women seeking escape from the daily grind. African American playwrights meanwhile argued that housework was the least of women's worries. Plays of the 1930s recognized housework as work to a greater degree than ever before, while during the war years domestic labor was predictably recruited to the war effort, sometimes with gender bending results. In the famously quiescent and anxious 1950s, critiques of domestic normalcy became common, and African American maids gained a complexity previously reserved for white leading ladies. These critiques proliferated with the re-emergence of feminism as a political movement from the 1960s on. After the turn of the century, the problems and comforts of domestic labor in black and white took center stage. In highlighting these shifts, Chansky brings the real home.
