## **Reluctant Empire British Policy On The:**

Colonial South Africa:Origins Racial Order Tim Keegan,1997-01-01 It is a story that is strong in notable events slave emancipation the arrival of the 1820 British settlers a series of frontier wars the Great Trek of Boer emigrants as well as in striking personalities among them Dr John Philip Andries Stockenström John Fairbairn Moshoeshoe and Sir Harry Smith In Keegan's pages these familiar historical landmarks and characters emerge in entirely novel ways the subject of fresh interpretations and original insights *The Farmerfield Mission* Fiona Vernal,2012-09-27 In *The Farmerfield Mission* Fiona Vernal recounts the history of an African Christian community on South Africa's troubled Eastern Cape frontier Forged in the secular world of war violence and colonial dispossession and subjected to grand evangelical aspirations and social engineering Farmerfield's heterogeneous mix of former slaves and displaced Africans from polities beyond the borders of the Cape Colony entered the powerful ideological arena of anti slavery humanitarianism and evangelicalism As a farm an African residential site amid a white community and a Christian mission on a violent frontier Farmerfield was at once a space a place and an idea that Africans missionaries whites and colonial authorities competed to mold according to their own visions Founded in 1838 and destroyed by the apartheid government in 1962 Farmerfield's residents struggled over the meaning and content of a civilized Christianized lifestyle deploying a range of tactics from negotiation and dissimulation to deference and defiance In the process they vernacularized Christianity endured the ravages of colonialism and apartheid used their historical connections to the Methodist Church and South Africa's land reform legislation to regain land and launched the Farmerfield experiment anew amid new debates about the meaning of post apartheid land access and citizenship Farmerfield's propitious rise protracted frustrating decline and fledgling reincarnation reflect epochal chapters in South Africa's colonial apartheid and post apartheid history as Africans attempted to define the terms of their cultural autonomy and economic independence **The Commonwealth Experience** Nicholas Mansergh,1982-12-01 **Port and Harbour Engineering** Adrian Jarvis,2016-12-05 During the 19th century the engineering of ports and harbours became a large and specialised branch of the profession This development began in ports in physically difficult locations and may be particularly identified with the growth of the Port of Liverpool Stimulated by the arrival of ever larger steamships and the heavy investment in port facilities that they demanded it spread around much of the world The opening papers give examples of what could be achieved in antiquity the following ones set out the advances in design and technology from 1700 to the start of this century and note some of the failures and recurrent problems They also illustrate the critical importance of political and economic factors in determining what the engineers achieved **External Research Report** ,1952 **The China Firm** Thomas Larkin,2024-03-19 What roles did Americans play in the expanding global empires of the nineteenth century Thomas M Larkin examines the Hong Kong based Augustine Heard Company the most prominent American trading firm in treaty port China to explore the ways American elites at once made and were made by British colonial society Following the Heard

brothers throughout their firm's rise and decline *The China Firm* reveals how nineteenth century China's American elite adapted to colonial culture helped entrench social and racial hierarchies and exploited the British imperial project for their own profit as they became increasingly invested in its political affairs and commercial networks Through the central narrative of Augustine Heard & Co Larkin disentangles the ties that bound the United States to China and the British Empire in the nineteenth century Drawing on a vast range of archival material from Hong Kong China Boston and London he weaves the local and the global together to trace how Americans gained acceptance into and contributed to the making of colonial societies and world spanning empires Uncovering the transimperial lives of these American traders and the complex ways extraimperial communities interacted with British colonialism *The China Firm* makes a vital contribution to global histories of nineteenth century Asia and provides an alternative narrative of British empire      *Britain and International Law in West Africa* Inge Van Hulle, 2020 In the past few decades the understanding of the relationship between nations has undergone a radical transformation The role of the traditional nation state is diminishing along with many of the traditional vocabularies which were once used to describe what has been called ever since Jeremy Bentham coined the phrase in 1780 international law The older boundaries between states are growing evermore fluid new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states which has dominated the study of international relations since the early nineteenth century This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theory It is the editors conviction that the best way to achieve this is by bridging the traditional divide between international legal theory intellectual history and legal and political history The aim of the series therefore is to provide a forum for historical studies from classical antiquity to the twenty first century that are theoretically informed and for philosophical work that is historically conscious in the hope that a new vision of the rapidly evolving international world its past and its possible future may emerge Book jacket      *The Oxford History of the British Empire: Historiography* Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries      **Routledge Library Editions: Racism and Fascism** Various, 2021-06-23 This set gathers together a collection of out of print titles all classics in their field Reissued for the first time in some years they offer an insightful reference resource to a variety of topics From Professor Colin Holmes's groundbreaking studies of racism in British society to Professor Kitchen's analysis of the rise of fascism in pre war Austria these books shed much light on society's recent dark past      *Colonial Self-Government* John Manning Ward, 1976-06-18  
*Striking First* B. Glad, C. Dolan, 2016-04-30 How have the September 11th terrorist attacks and the subsequent U S led war on terrorism impacted American foreign policy at home and abroad The consistent theme throughout this collection of essays is that September 11th was a watershed event which sparked a redefinition and reassessment of U S foreign policy governmental institutions and the public's sense of internal and external security The Bush Administration's endeavor to

remake American foreign policy with an emphasis on a preemptive first strike doctrine and its attempt to build an internal security apparatus are not only consequential in the war on terrorism such efforts are challenging the very fundamentals of American political life and its perception throughout the world
