Remaking Chinese America Xiaojian Zhao,2002 In *Remaking Chinese America* Xiaojian Zhao explores the myriad forces that changed and unified Chinese Americans during a key period in American history Prior to 1940 this immigrant community was predominantly male but between 1940 and 1965 it was transformed into a family centered American ethnic community Zhao pays special attention to forces both inside and outside of the country in order to explain these changing demographics She scrutinizes the repealed exclusion laws and the immigration laws enacted after 1940 Careful attention is also paid to evolving gender roles since women constituted the majority of newcomers significantly changing the sex ratio of the Chinese American population As members of a minority sharing a common cultural heritage as well as pressures from the larger society Chinese Americans networked and struggled to gain equal rights during the cold war period In defining the political circumstances that brought the Chinese together as a cohesive political body Zhao also delves into the complexities they faced when questioning their personal national allegiances *Remaking Chinese America* uses a wealth of primary sources including oral histories newspapers genealogical documents and immigration files to illuminate what it was like to be Chinese living in the United States during a period that until now has been little studied

Race and America's Immigrant Press Robert M. Zecker,2011-06-30 *Race* was all over the immigrant newspaper week after week As early as the 1890s the papers of the largest Slovak fraternal societies covered lynchings in the South While somewhat sympathetic these articles nevertheless enabled immigrants to distance themselves from the blackness of victims and became part of a strategy of asserting newcomers tentative claims to whiteness Southern and eastern European immigrants began to think of themselves as white people They asserted their place in the U S and demanded the right to be regarded as Caucasians with all the privileges that accompanied this designation Circa 1900 eastern Europeans were slightly dismissed as Asiatic or African but there has been insufficient attention paid to the ways immigrants themselves began the process of race tutoring through their own institutions Immigrant newspapers offered a stunning array of lynching accounts

Chinese Student Migration and Selective Citizenship Lisong Liu, 2015-08-20 Since China began its open door and reform policies in 1978 more than three million Chinese students have migrated to study abroad and the United States has been their top destination The recent surge of students following this pattern along with the rising tide of Chinese middle and upper classes emigration out of China have aroused wide public and scholarly attention in both China and the US This book examines the four waves of Chinese student migration to the US since the late 1970s showing how they were shaped by the profound changes in both nations and by US China relations It discusses how student migrants with high socioeconomic status transformed Chinese American communities and challenged American immigration laws and race relations The book suggests that the rise of China has not negated the deeply rooted American dream that has been constantly reinvented in contemporary China It also addresses the theme of selective citizenship a way in which migrants seek to claim their autonomy proposing that this notion captures the selective nature on both ends of the negotiations between nation states and migrants It cautions against a universal or idealized dual citizenship model which has often been celebrated as a reflection of eroding national boundaries under globalization This book draws on a wide variety of sources in Chinese and English as well as extensive fieldwork in both China and the US and its historical perspective sheds new light on contemporary Chinese student migration and post 1965 Chinese American community Bridging the gap between Asian and Asian American studies the book also integrates the studies of migration education and international relations Therefore it will be of interest to students of these fields as well as Chinese history and Asian American history more generally
