## Remedial Law:

**Fundamentals of the Law of Proof in Judicial Proceedings** Otis Harrison Fisk, 1928      **Wisconsin Session Laws** Wisconsin, 1976      **Common-law Pleading** - Alison Reppy, 1956      **The Law Magazine, Or, Quarterly Review of Jurisprudence**, 1835      *The Future of Remedies in Europe* Claire Kilpatrick, Tonia Novitz, Paul Skidmore, 2000-12-05

Remedies lie at the heart of European legal systems. They both reflect and shape the balance of power between states and individuals and between state and supranational institutions. These profound political implications can be better understood by thinking about the functional roles and institutional histories of remedies. These implications, roles and histories are considered in this volume of challenging and original essays on remedial systems in Europe. This book explores the lively and often controversial dialogues between courts national and supranational on remedies. In so doing it addresses the adequacy of these dialogues in the light of perceived systemic goals both in an overall institutional sense and as regards specific sectoral objectives or institutional actors aspirations. In particular the book looks at the way in which remedies in the EC legal order interact with those in other legal orders such as the Council of Europe and private international law. It also identifies problems of interaction between different Council of Europe mechanisms under the Convention on Human Rights and the Social Charter. The book also examines the contribution of courts to remedial systems by considering other methods of formulating and redressing claims. **Federal Administrative Law** Christopher Enright, 2001. Federal administrative law is a vast expanse of statutory provisions and case law. This text aims to map these provisions setting out the case and statute law in a structured and amenable way. Federal Administrative Law commences with discussion of the composition, powers and decision making processes of the executive government. Then it covers the major remedies available for those who are dissatisfied by a decision of the executive government: reasons for decision, access to information under FOI legislation, judicial review, appeal to the Administrative Appeals Tribunal, review by the Ombudsman, remaking a decision, collateral review and special review. Enright also engages with the perennial conceptual problems of administrative law. Difficulties with separating legislative, executive and judicial power and in distinguishing between law and fact are considered insoluble. Enright argues only because they have not been approached in the right way. Enright argues for going back to basics, emphasising the necessity of asking the right question in the first place. In a similar vein, Enright investigates problems with legitimate expectation in the law of natural justice and argues that difficulties with standing can be treated better by taking a more analytical approach to the interests involved. Federal Administrative Law will serve as a basic text and reference book for those who work in
