Security Interests under the Cape Town Convention on International Interests in Mobile Equipment Sanam Saidova, 2018-06-28 This book provides an extensive analytical examination of the Cape Town Convention and its Protocols. The Convention aims to facilitate asset based financing and leasing of aircraft, railway and space objects by establishing a uniform legal regime for the creation and protection of security and related interests in these types of equipment. Security interests in aircraft, railway and space objects are among the most frequently invoked mechanisms used to ensure repayment of the debt. It is their significance, effectiveness and frequency of use that explains this work's focus and scope.
