Menopausia sin medicina Linda Ojeda,2006-03-20 Linda Ojeda has long maintained that menopause is a natural stage

in a woman's life not a pathology that must be medicalized. In **MENOPAUSE WITHOUT MEDICINE** she takes a sympathetic science based approach to this still poorly understood and often maltreated natural phenomenon. Now in its fifth English language edition this definitive resource includes a detailed response to recent findings from the National Institutes of Health about the dangers of conventional HRT hormone replacement therapy clarifying why synthetic HRT has been found harmful and offering a wide range of alternatives. The author covers all current nonmedical approaches to menopausal symptoms and explains what women can do if supplements, herbs and soy products do not work for them. Complete with tables and photographs this updated bestseller fits the bill at last for Spanish speaking women seeking guidance on how to handle their premenopausal and menopausal years without resorting to HRT.

España en el nuevo milenio, realidad territorial y retos pendientes José María Serrano Martínez, 2003
La curación vibracional Richard Gerber, 2001 Una obra extraordinaria que renueva el hito del libro La curación energética y da un paso más en la revolución de las terapias alternativas y la salud. Si ya leyó La curación energética este nuevo libro del doctor Richard Gerber le descubrirá todo lo que ofreciera en el siglo XXI la curación a través de la energía. Desde que Richard Gerber planteara su revolucionaria visión de la curación vibracional científicos e intelectuales de primera fila han ido adhirriendo a la consideración de las personas como algo más que meras máquinas biológicas compuestas por piezas que envejecen, se oxidan y se desgastan y cuyos problemas solo pueden tratarse con medicamentos y con la cirugía. Guiados por R. Gerber un grupo de investigadores pioneros han adoptado una nueva visión de la curación denominada medicina vibracional la cual combina lo mejor de las medicinas tradicionales con una concepción moderna del cuerpo como máquina energética que responde a diferentes terapias alternativas. Richard Gerber médico formado en la medicina tradicional y hoy

posiblemente la primera autoridad mundial en el campo de la medicina energética nos ofrece ahora la culminación de más de veinte años de investigación en un libro dirigido tanto a lectores no expertos como a los ya versados una guía que nos

adentra en los nuevos límites de la medicina.

Medicina, ideología e historia en España (siglos XVI-XXI) Ricardo Campos Marín, 2007 En el terreno que nos ocupa el de la medicina parece evidente que los aspectos ideológicos se han ido disolviendo en una creciente tecnificación de la práctica de la misma donde la relación entre el médico y el paciente está mediatisada por un entramado científico abrumador. A su vez las campañas sanitarias centradas en los conceptos de riesgo y en los estilos de vida saludables se han vaciado aparentemente pero son lo aparentemente de cualquier atisbo ideológico utilizando la estadística como instrumento objetivo que avala científicamente las actuaciones propuestas. A esto hay que añadir la internalización por parte de los ciudadanos de la salud como un valor que estructura nuestras vidas. Precisamente esa asunción de la salud como un valor aceptado por la población contribuye de manera importante a sustraer a la medicina

de sus implicaciones ideológicas El conjunto de trabajos que forman este volumen indaga en las relaciones entre medicina ideología e historia mostrando cómo se han ido configurando en el tiempo los conceptos de salud y enfermedad y cómo ambos no han sido nunca elementos neutrales También se explora el papel de la medicina en la construcción de identidades y en la catalogación de los individuos cuestiones estrechamente ligadas a la ideología Por último los diferentes proyectos y concepciones de la medicina y salud están presentes en varios ensayos de este volumen El origen del mismo está en el XIII Congreso de la Sociedad Española de Historia de la Medicina celebrado en Madrid entre los días 15 y 17 de septiembre de 2005 en la Facultad de Medicina de la Universidad Complutense de Madrid y en el Consejo Superior de Investigaciones Científicas bajo el lema La condición histórica de la medicina El libro pues es representativo del amplio panorama por el que se mueve la historiografía de la medicina en nuestro país en este comienzo de siglo

Ius-Ática, el derecho del nuevo Milenio Juan José Bocanegra Espinoza,2010-08-14 La presente es una obra de Derecho Nuevo por consiguiente sus enfoques conceptos y criterios pueden ser incoincidentes con los conceptos y puntos de vista del Derecho tradicional Cuando las premisas de un sistema son dos el Principio técnico y el Principio Jurídico es lógico que las inferencias y las conclusiones no sean las mismas como ocurre en el ámbito del Derecho tradicional Si en un sistema bifactorial como lo es la Ius-Ática una de las premisas el Principio técnico prevalece debido a su dignidad axiológica sobre la otra premisa el Principio Jurídico está jerarquizada y es determinante A ella obedece que los conceptos y criterios se manifiesten acentuadamente técnicos sin dejar por otra parte de ser jurídicos y es allí en ese punto crucial donde radica la incoincidencia con el Derecho tradicional no obstante lo cual la Ius-Ática es Derecho si lo que por las razones expresadas un Derecho realmente Nuevo y novedoso
