Remembering Armageddon Reflections On A Century Of War:

Remembering Armageddon R. Bedford Watkins,2000 Irony and the Poetry of the First World War S. Puissant,2009-03-19 How does irony affect the evaluation and perception of the First World War both then and now Irony and the Poetry of the First World War traces one of the major features of war poetry from the author s application as a means of disguise criticism or psychological therapy to its perception and interpretation by the reader **The American Legion Magazine** ,2000 **The American Legion** ,2000 **Poetry** Harriet Monroe,2000 *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004 *In Armageddon's Shadow* Greg Marquis,2000 The United States had important ties with Canada s Maritime Provinces that were profoundly shaken by the American Civil War Drawing extensively on newspaper reports personal papers and local histories Greg Marquis captures the drama of the times effectively putting the reader into the thick of the action In Armageddon s Shadow highlights Maritime support for the beleaguered Confederacy and the grave implications this had on race relations in Canada Marquis details the involvement of maritimers in running blockades and recounts the experiences of some of the thousands of men from Nova Scotia New Brunswick and Prince Edward Island who served in America s bloodiest conflict Book jacket The Spectre of Defeat in Post-War British and US Literature David Owen,Cristina Pividori,2021-01-22 It is a commonplace belief that history is written by the victorious However less recognised but equally common is the idea that the defeated also write history even if their particular account is rather different This collection looks at these matters from a novel and distinct perspective It essentially presents the idea that victors often perceive themselves as defeated by examining the ways in which the idea of defeat comes to dominate the victors own sense of superiority and achievement thereby undermining the certainties that victory is conventionally thought to create The contributions here discuss fiction mostly UK and US published since the First World War Through the frameworks of experience memory and post memory they examine this subliminal defeat basically as seen in conflict itself in the societies that it affects and in the individual lives of those who it destroys The result is an innovative literary account of the victorious yet somehow defeated **Joining up in the Second World War** Joel Morley,2025-07-29 This book connects the First and Second World Wars It uses oral histories and Mass Observation material to explore men s attitudes to Second World War enlistment and the relationship they perceived between military service and masculinity and how these were influenced by understandings of the First World War Locating the cultural legacy of First World War in the subjectivities of men who participated in the Second World War demonstrates the breadth of sources that informed men s understandings of the First World War in interwar Britain Its cultural legacy was omnipresent and diverse and informed young men s attitudes and service preferences but it reinforced Edwardian conceptions of wartime masculinity as often as it undermined them Two decades after the First World War ended they remained resilient in the subjective understandings of men who grew up in the Great War s shadow Roots of War David G. Winter,2017-09-01 Ever since Thucydides pondered reasons for the outbreak

of the Peloponnesian War writers philosophers and social scientists have tried to identify factors that promote conflict escalation for example history tomorrow s wars are often rooted in yesterday s conflicts changing balance of power among nations or domestic political forces In the end however these causes are constructed by human beings and involve the memories emotions and motives of both the leaders and the led In July 1914 the long standing peace of Europe was shattered when the Sarajevo assassinations quickly escalated to World War I In contrast at the height of the Cold War the Cuban Missile Crisis could have easily plunged the world into a thermonuclear world war but was ultimately peacefully resolved Why the different outcomes In *Roots of War Wanting Power Seeing Threat Justifying Force* David G Winter identifies three psychological factors that contributed to the differences in these historical outcomes the desire for power exaggerated perception of the opponent s threat and justification for using military force Several lines of research establish how these factors lead to escalation and war comparative archival studies of war and peace crises laboratory experiments on threat perception and surveys of factors leading people to believe that a particular war is just The research findings in *Roots of War* also demonstrate the importance of power in preserving peace through diplomatic interventions past and present
