Remembering Conquest Feminist Womanist Perspectives On Religion Colonization And Sexual Violence:

Remembering Conquest Nantawan B Lewis, 2014-01-02 *Remembering Conquest Feminist Womanist Perspectives on Religion Colonization and Sexual Violence* addresses the issue of sexual violence against women from feminist and womanist theological perspectives. Taken from proceedings of a panel discussion at the 1998 annual meeting of the American Academy of Religion, this informative book offers sociologists, clergy, and women an examination of how negative stereotypes in society are derived from Christian perspectives and other religions. Exploring abuse against Native American, African American, Filipino, and Thai women, *Remembering Conquest* will help you recognize the combination of issues that lead to violence against women. Thorough and compelling, this valuable book will urge you to advocate for change in how religious groups interpret women so that religion can provide a moral and ethical source of equality for women instead of a social barrier. This intelligent book will help you understand the changes that need to be made as you read about numerous atrocities, including the history of violence experienced by American Indian women during colonization and realizing that prior to this time, sexual violence did not exist in American Indian societies. How the United States colonization of Thailand is directly related to sexual violence today against women, which is expressed in the form of the booming sex industry as well as the AIDS epidemic, how poverty in the Philippines has made women and children second-class citizens who must make the ultimate sacrifice and sell their bodies and their souls to survive—*Remembering Conquest* provides you with a unique religious perspective on the subject of violence against women to enlighten you as to how religion can unknowingly help or hinder a woman's healing. You will discover how to assist religious communities in rediscovering new interpretations of their faith traditions and become a moral and ethical source of liberation for women, such as holding perpetrators of abuse responsible for their actions and not insinuating that the abuse victim needs to be helped by religion in some way. Compelling and informative, *Remembering Conquest* provides you with ideas to help bring healing and power to women who are suffering injustices by reinterpreting faith traditions.

women Grounded in historical cultural and legal realities both Native and non Native these essays point to the possibility of actual and positive change in a world where Native women are systematically undervalued left unprotected and hurt Deer draws on her extensive experiences in advocacy and activism to present specific practical recommendations and plans of action for making the world safer for all

Men's Work in Preventing Violence Against Women Christie Cozad Neuger,James Newton Poling,2014-02-25 Promote effective partnerships between men and women to end

domestic violence *Men's Work in Preventing Violence Against Women* examines the experiences of 12 practicing counselors who call on their religious training to form partnerships between men and women that promote an end to domestic violence. In both religious and secular settings the bulk of the work done to end violence against women is done by women survivors who have become activists and advocates who have been touched by the witness of survivors. Motivating and educating men to share the everyday work of domestic violence shelters, rape crisis counseling and abuse prevention is essential. This book challenges traditional images of masculinity exploring effective and ineffective methods of helping men face their own sexism and change their behavior toward the goal of ending domestic violence. Each contributor to *Men's Work in Preventing Violence Against Women* approached the concept of man/woman partnerships working to end domestic violence and sexual assault with the following questions in mind: In your experience and social world have you seen creative partnerships between men and women that made a difference? Have you seen men in counseling struggle to change their views on gender in order to become reliable allies in the fight to end violence against women? How can religion become a resource for men working to become allies with women? What strategies can men use to help end violence against women? *Men's Work in Preventing Violence Against Women* includes contributions from Paul Kivel, cofounder of the Oakland Men's Project and of Gvarim Bay Area Jewish Men Against Violence; David Livingston, author of *Healing Violent Men: A Model for Christian Communities*; Al Miles, author of *Domestic Violence: What Every Pastor Should Know*; and Richard Wallace Jr., editor of the *Journal of Ministry in Addiction Recovery*. Each essay presents practical and theoretical ideas, guidelines for partnerships and insightful information on sexual and domestic violence. Topics addressed include Jewish male violence, holding Christian men accountable for domestic violence, shared experiences of batterers and the people who treat them, premarital preparation, the dynamics of power in pastoral care, engaging Scripture with male abusers, helping men become pro-feminist. *Men's Work in Preventing Violence Against Women* is an essential resource for counselors, social workers, clergy, laypersons and anyone else working to end domestic violence and sexual abuse against women. **Off the Menu** Rita
