C. S. Lewis Remembered Harry Lee Poe, 2009-05-26 What was it like to have C S Lewis as a teacher Most people know C S Lewis through his writings but in his lifetime he was first and foremost a teacher Now those who were influenced by what they learned from his teaching offer a unique view of one of the most influential Christian writers of all time What was it like to study under C S Lewis when he taught at Oxford and Cambridge How did his influence and teaching create a legacy that has influenced educators since C S Lewis Remembered is a collection of interviews and essays that offer personal perspectives on Lewis the teacher and Lewis the man These recollections portray him in all his humanity both the irascibility and the brilliance both the ferocity of his intellectual precision and the eagerness of his curiosity Some of this book's contributors chose to study with Lewis because of his Christian faith Others admired him as a scholar but never shared Lewis's interest in religion Still others shared his mere Christianity but differed with him over his Protestantism But all of them came into contact with Lewis when they were young adults whether they were students colleagues or those who knew him informally as a teacher Many of them followed in his footsteps and became educators as well Former students such as W Brown Patterson Peter Milward and Peter Bayley talk about what it was like to study under Lewis A recent lecture by Walter Hooper and essays by such noted scholars as Barbara Reynolds offer additional insight on Lewis and his influence Also included are pieces by Lewis's godson Lawrence Harwood a transcript of an interview with Owen Barfield a friend who knew Lewis from the time Lewis returned to Oxford after World War I and who played an important role in Lewis's shift from atheism to belief in God and a hitherto unpublished sketch of Lewis by Mary Shelley Neylan In addition an article that appeared in SF Horizons a magazine for science fiction fans offers a transcript of a taped conversation between C S Lewis Kingsley Amis and Brian Aldiss

Memory Formation in Isaiah 40-55 Megan C. Roberts, 2025-08-11 While scholars recognize that comfort and memory are dominant interconnected themes in Isaiah 40-55 the phenomenon of collective memory itself has not received specific attention to clarify why memory is connected to comfort Sociological memory studies and trauma theory fill this methodological gap by explaining the nature of memory framework formation within Second Isaiah Jacob Israel and Zion as poetic figures exemplify the broken memory frameworks of exilic Judeans that do not lead to comfort This analysis of Isa 40-55 then reveals Yahweh's poetic process by which he re-forms his people's memory frameworks so that they can receive comfort

Collective Memory and Collective Identity

Johannes Unsok Ro, Diana Edelman, 2021-03-08 Collective memory has attracted the attention and discussion of scholars internationally across academic disciplines over the past 40-50 years in particular. It and collective identity have become important issues within Hebrew Bible/Old Testament studies; the role collective memory plays in shaping collective identity links the two organically. Research to date on memory within biblical studies broadly falls under four approaches: 1) lexical studies, 2) discussions of biblical historiography in which memory is considered a contributing element, 3) topical explorations for which memory is an organizing concept, and 4) memory and transmission studies. The sixteen contributors to this volume provide detailed investigations of the contours of collective memory and collective identity that have crystallized in Martin Noth's Deuteronomistic History (Deut 2 Kgs). Together they yield diverse profiles of collective memory and collective identity that draw comparatively on biblical, ancient Near Eastern, and classical Greek material, employing one or more of the four common approaches. This is the first volume devoted to applying memory studies to the Deuteronomistic History. **The Suburban** Alexander McNeil, 1907 *Remembered Words* Alastair Fowler, 2021 A selection of essays written over Alastair Fowler's prestigious career combining celebrated works of literary criticism and previously unpublished pieces that reflect on developments in literary criticism over the last sixty years. **The Cambridge Introduction to German Poetry** Judith Ryan, 2012-11 Exploring traditional poems alongside new examples, this Introduction conveys the rich rewards that come with reading German poetry. The Nature of the Religious Right Neall W. Pogue, 2022-04-15 In *The Nature of the Religious Right* Neall W. Pogue examines how white conservative evangelical Christians became a political force known for hostility toward environmental legislation. Before the 1990s, this group used ideas of nature to help construct the religious right movement while developing theologically based, eco-friendly philosophies that can be described as Christian environmental stewardship. On the twentieth anniversary of Earth Day in 1990, members of this conservative evangelical community tried to turn their eco-friendly philosophies into action. Yet this attempt was overwhelmed by a growing number in the leadership who made anti-environmentalism the accepted position through public ridicule, conspiracy theories, and cherry-picked science. Through analysis of rhetoric, political expediency, and theological imperatives, *The Nature of the Religious Right* explains how ideas of nature played a role in constructing the conservative evangelical political movement, why Christian environmental stewardship was supported by members of the community for so long, and why they turned against it so decidedly beginning in the 1990s. *Memory and Remembering in Early Irish Literature* Sarah Künzler, 2023-12-04 Ireland possesses an early and exceptionally rich medieval vernacular tradition in which memory plays a key role. What attitudes to remembering and forgetting are expressed in secular early Irish texts? How do the texts conceptualise the past, and what does this conceptualisation tell us about the present and future? Who mediates and validates different versions of the past, and how is future remembrance guaranteed? This study approaches such questions through close readings of individual texts. It centres on three major aspects of medieval Irish memory culture: places and landscapes, the provision of information about the past,

by miraculously old eye witnesses and the personal social and cultural impact of forgetting The discussions shed light on the relationship between memory and forgetting and explore the connections between the past present and future This shows the fascinating spatio temporal identity constructions in medieval Ireland and links the Irish texts to the broader European world The monograph makes this rich literary sources available to an interdisciplinary audience and is of interest to both a general medievalist audience and those working in Cultural Memory Studies

Can Poetry Save the Earth? John Felstiner,2009-04-01 In forty brief and lucid chapters Felstiner presents those voices that have most strongly spoken to and for the natural world Poets from the Romantics through Whitman and Dickinson to Elizabeth Bishop and Gary Snyder have helped us envision such details as ocean winds eroding and rebuilding dunes in the same breath wild deer freezing in our presence and a person carving initials on a still living stranded whale

Recalling Recitation in the Americas Janet Neigh,2017-01-01 Spoken word is one of the most popular styles of poetry in North America While its prevalence is often attributed to the form s strong ties to oral culture Recalling Recitation in the Americas reveals how poetry memorization and recitation curricula shaped by British Imperial policy influenced contemporary performance practices During the early twentieth century educators frequently used the recitation of canonical poems to instill proper speech and behaviour in classrooms in Canada the Caribbean and the United States Janet Neigh critically analyses three celebrated performance poets E Pauline Johnson Tekahionwake 1861 1913 Langston Hughes 1902 1967 and Louise Bennett 1919 2006 who refashioned recitation to cultivate linguistic diversity and to resist its disciplinary force Through an examination of the dialogues among their poetic projects Neigh illuminates how their complicated legacies as national icons obscure their similar approaches to resisting Anglicization Recalling Recitation in the Americas focuses on the unexplored relationship between education history and literary form and establishes the far reaching effects of poetry memorization and recitation on the development of modern performance poetry in North America
