The Romance of Reason Montague Brown, 1993 A study of reason as an invitation to explore and discover a new life of meaning The Romance of Reason is an attempt to put the philosophical basis of Aquinas thinking into nontechnical language and make it accessible to the general reader De Malo Saint Thomas (Aquinas), Richard J. Regan, 2001 The De Malo represents some of St Thomas Aquinas most mature thinking on goodness badness and human agency Together with the second part of the Summa Theologiae it is one of his most sustained contributions to moral philosophy and theology Aquinas examines the full range of questions associated with evil its origin its nature its variety its relation to good and its compatibility with the existence of an omnipotent benevolent God This edition offers the Leonine Commission s authoritative edition of the Latin text with a new clear and readable English translation by Richard Regan with an extensive introduction and notes by Brian Davies **On Evil** Saint Thomas (Aquinas), 2003 The De Malo represents some of Aquinas most mature thinking on goodness badness and human agency This text offers Richard Regan s English translation based on the Leonine Commission s authoritative edition of the Latin text Brian Davies has provided an extensive introduction and notes The Philosophical Significance of Immortality in Thomas Aquinas Obi J. Oguejiofor, 2001-02-14 The Philosophical Significance of Immortality in Thomas Aquinas is a comprehensive study of the theme of immortality in Thomas Aquinas Immortality was a major component of his philosophy and was also employed in defense of the doctrine Despite the numerous problems in the project of defending immortality of the rational soul the theme of immortality is still vitally important for any philosophical scheme that intends to be relevant to the human being **Athens and Wittenberg** James A. Kellerman, R. Alden Smith, Carl P.E. Springer, 2022-12-05 Scholarship has tended to assume that Luther was uninterested in the Greek and Latin classics given his promotion of the German vernacular and his polemic against the reliance upon Aristotle in theology But as Athens and Wittenberg demonstrates Luther was shaped by the classical education he had received and integrated it into his writings He could quote Epicurean poetry to non Epicurean ends he could employ Aristotelian logic to prove the limits of philosophy s role in theology This volume explores how Luther and early Protestantism especially Lutheranism continued to draw from the classics in their quest to reform the church In particular it examines how early Protestantism made use of the philosophy and poetry from classical antiquity Contributors to this volume Joseph Herl Jane Schatkin Hettrick E J Hutchinson Jack D Kilcrease E Christian Kopf John G Nordling Piergiacomo Petrioli Eric G Phillips Richard J Serina Jr R Alden Smith Carl P E Springer Manfred Svensson William P Weaver and Daniel Zager **Christian Anthropology and Sexual Ethics** Benedict Guevin, 2002-11-27 Benedict Guevin in Christian Anthropology and Sexual Ethics presents a Catholic Christian understanding of the person Based specifically on the area of sexuality Guevin suggests that one cannot understand human sexuality apart from a Christian theological anthropology He examines the role of Natural Law and Liturgy in forming the virtue of chastity He presents the positive orientation of the Church s sexual ethics positive because it is based on an

anthropology which is itself positive both with respect to its origin in the Blessed Trinity and with respect to its end which is the eternal vision of God *International Philosophical Quarterly*, 2003 **Contemporary Authors** Terri M.

mankind argued over the sources or the messengers of the Holy Books he has not looked at the contents of the message In fact it is what is written in the Holy Books that make them divine The way to prove that one is a believer does not come by destroying the non believer but through making a believer of him This means that the true believer is at the same time able to influence By presenting information about places man s thoughts have not tread before I have written this book as an invitation to believe to those who have not yet believed and to those who believe and would like to move into the phase of influence I am ever prepared to exchange my views with those more advanced than the information and experiences that I have opened to your insight My only claim is my sincerity When you re ready we will begin Aydın TURKGUCU Knowledge

God of Love and God of Reason David R. Mason, 2016-02-18 These homilies lectures and essays vigorously champion the author s conviction that it is reasonable to believe in a God of pure unbounded love and also that the best religion is a reasonable religion That is the God of Love is the God of Reason and as a seventeenth century Cambridge preacher put it If you would be religious be rational in your religion Thus these essays challenge both the New Atheists and Fundamentalists who are twins like Tweedledum and Tweedledee And they aim positively to unpack the meaning and implications of Jesus dictum You shall love

the Lord your God with all your heart and with all your soul and with all your mind This is the greatest and first commandment And the second is like it You shall love your neighbor as yourself On these two commandments hang all the law and the prophets

Aspects of Love David R. Devotional Intelligence and Jewish Religious Thinking Phillip Stambovsky, 2019-07-05 This groundbreaking neo Maimonidean work establishes on independently philosophical grounds the intellectual warrant of Jewish religious thinking as devotional intelligence It demonstrates the purchase and intellectual authority of such thinking by appeal to two dialectically interrelated principles on the one hand the metaphysical principle that knowing is of being and on the other sacral attunement a normative principle Part I distinguishes this study from leading work in contemporary philosophy of Judaism It introduces the game changing bid to privilege intelligence in the onto epistemological Aristotelian sense over epistemologically orchestrated post Enlightenment reason when it comes to assessing the intellectual soundness of religious thinking Part II distills contemporary elements of Aristotle's onto epistemological psychology of intelligence that Maimonides incorporated in his philosophy of Jewish religious thinking Further it finds in Hegel a bridge between Maimonides account of devotional intelligence and a modern Maimonidean science of knowing dedicated to religious thinking Part III turns to sacral attunement foregrounding the normative devotional aspect of devotional intelligence It probes the intentionality of both onto epistemological attunement and the sacred relative to the factor of the transcendent In the process it identifies and applies elements of an existential phenomenology of fundamental attunement that thematize defining realities of the sacral attunement unique to normative Jewish covenantal praxis A related analysis of the sacred in religious thinking follows which segues to a chapter on the factor of the transcendent as a seminal constituent of meaning in both the sciences and religion Part IV applies and amplifies key findings in light of a signature Jewish devotional theme the divine names approached from a signally Maimonidean apophatic position indexed to the factor

of the transcendent as the unconditioned condition Kant of intelligible meaning as such Distinguishing what the divine names indicate from what they refer to the essay concludes by substantiating the intellectual warrant of Jewish religious thinking as a devotional intelligence of the relation of identity in difference between the attributive names and the Tetragrammaton
