Violence in Medieval Europe Warren C. Brown, 2014-06-11 The European Middle Ages have long attracted popular interest as an era characterised by violence whether a reflection of societal brutality and lawlessness or part of a romantic vision of chivalry Violence in Medieval Europe engages with current scholarly debate about the degree to which medieval European society was in fact shaped by such forces Drawing on a wide variety of primary sources Warren Brown examines the norms governing violence within medieval societies from the sixth to the fourteenth century over an area covering the Romance and the Germanic speaking regions of the continent as well as England Scholars have often told the story of violence and power in the Middle Ages as one in which private violence threatened and sometimes destroyed public order Yet

academics are now asking to what degree violence that we might call private in contrast to the violence wielded by a central authority might have been an effective social tool Here Brown looks at how private individuals exercised violence in defence of their rights or in vengeance for wrongs within a set of clearly understood social rules and how over the course of this period kings began to claim the exclusive right to regulate the violence of their subjects as part of their duty to uphold God's order on earth Violence in Medieval Europe provides both an original take on the subject and an illuminating synthesis of recent and classic scholarship It will be invaluable to students and scholars of history medieval studies and related areas for the light it casts not just on violence but on the evolution of the medieval political order **Defending Christian Faith**

Abjar Bahkou, 2014-01-01 The book by Abjar Bahkou presents Medieval Christian author Gerasimus and his discussion with Islam His aim was to show that Christian teachings are not irrational but rather subtle and complex As a Christian philosopher and theologian Gerasimus used the experiences of those of the past to facilitate his own response to critics However two important differences separated him from earlier apologists which demand his own insight and innovation First the new language of intellectual discourse was Arabic which was not accommodating for expressing traditional Christian doctrine and required the development of a vocabulary out of terms already heavily influenced by the Qur'anic worldview Second the new religion challenging Christianity was one of absolute monotheism which shared neither a common scriptural nor cultural heritage and rejected the very possibility of a Trinity and Incarnation Although a common theme in early Christian apologetics was the refutation of Judaism the debate generally centered on the interpretation of the Old Testament showing that Jesus was indeed the Messiah The Qur'an while acknowledging Jesus as the Messiah explicitly rejects the Christian doctrines of the Incarnation and the Trinity and presents itself as the revelation which supersedes all previous revelation Thus although Christians and Muslims share certain themes and figures such as Creation and the Last Judgement Abraham Moses Mary and Jesus Muslims refuse evidence contrary to the Qur'an leaving Christians without recourse to traditional scripture based arguments Gerasimus as a Christian apologist and mutakallim accepted these challenges and began the process of explaining and translating his faith in the new milieu to make it coherent and rational In his treatise Gerasimus reveals himself to be a full participant in this important period of intellectual history he sets down the basic points of controversy and outlines a response to them in a form that would be an excellent introduction to Christian theology written for the Muslim environment Gerasimus was also a mutakallim in his own right the Christian counterpart to those Islamic scholars who sought to defend their faith through rational arguments In an effort to argue the legitimacy of Christianity Gerasimus attempts to create a common language that influences the meaning of terminology and concepts of intellectual development in Muslim Christian debates Such language would set the stage for centuries to come This is certainly his greatest contribution Judge Not Charles Armstrong, 2017-09-06 Judge Not is based on history but it is so realistic that readers will feel they are one of the characters Compellingly told in adventure filled stages it transports the reader from the

first footprints of the San tribesmen out of Ethiopia through the original Bantu people migrating down the face of Africa It goes through each step in the journey and their evolution in stages such as the early civilization of the Great Zimbabwe It tells the story of European colonization and its effects and consequences on the indigene The eventual journey of the Great Trek of the Dutch from the Cape is eventful and spellbinding It is virtually a history in itself All these various people make up the cast in this engrossing book Their adventures beliefs passions lives wars and politics over the millenia and last three centuries are related in a gripping drama that has brought them into the twenty first century **The Molière**

Brondarbit,2020 Examination of the role played by key figures around the monarchy in the Wars of the Roses **Historians on Housewives** Kacey Calahane,Jessica Millward,Max Speare,2025-03-17 According to popular stereotype Bravo reality television portrays vapid one dimensional characters tearing each other down for viewers enjoyment Whether The Real Housewives taps into our voyeuristic urges our fascination with wealth and class or the allure of the sheer spectacle of grown women yelling at one another the show is truly a cultural phenomenon and a global one with more than twenty international spin offs Historians on Housewives looks past the show s reputation as lowbrow unscripted reality television and unveils deeper historical meanings behind some of Bravo s best known programs and franchises This collection of ten essays is both a celebration of the bizarre behavior of the Real Housewives and a critical theorizing of the importance of the shows and the Housewives themselves Historians on

Housewives explores relationships between historical topics and themes and some of Bravo's most iconic moments to demonstrate the usefulness of Bravo television as a tool for making history accessible. With contributions from scholars representing an impressive historical breadth from the Roman Empire to the civil rights movement and beyond, the volume carves out a space for serious treatment of the franchise, fusing scholarship with pop culture to suggest interdisciplinary approaches for doing history that appeal to popular and academic audiences alike. Contributors are Nicole L. Anslover, Martina Baldwin, Emilie M. Brinkman, Marcia Chatelain, Jennifer C. Edwards, Jennifer M. Fogel, Tanisha C. Ford, Noah D. Guynn, Rosemarie Jones, Haley Schroer, Kristalyn M. Shefveland, and Serenity Sutherland.

Esoteric Buddhism in Mediaeval Maritime Asia Andrea Acri, 2016-09-05. This volume advocates a trans-regional and maritime-focused approach to studying the genesis, development, and circulation of Esoteric or Tantric Buddhism across Maritime Asia from the seventh to the thirteenth centuries CE. The book lays emphasis on the mobile networks of human agents. Masters' textual sources: Texts and images. Icons through which Esoteric Buddhist traditions spread. Capitalising on recent research and making use of both disciplinary and area-focused perspectives, this book highlights the role played by Esoteric Buddhist maritime networks in shaping intra-Asian connectivity. In doing so, it reveals the limits of a historiography that is premised on land-based transmission of Buddhism from a South Asian homeland and advances an alternative historical narrative that overturns the popular perception regarding Southeast Asia as a periphery that passively received overseas influences. Thus, a strong point is made for the appreciation of the region as both a crossroads and rightful terminus of Buddhist cults and for the re-evaluation of the creative and transformative force of Southeast Asian agents in the transmission of Esoteric Buddhism across mediaeval Asia.

Bio-pics Ellen Cheshire, 2014-12-16. Bio-pics: A Life in Pictures offers a series of case studies which throw light on this most unique of genres. Is the bio-pic a genre in its own right? Or are such films merely footnotes in other, more traditional genres such as the western or costume drama, depending on the historical figure under scrutiny? Unlike other genre forms, bio-pics seemingly share no familiar iconography, codes, or conventions. They can be set anywhere and at any time. What links them is quite simply that the films depict the life of an important person. Through a carefully selected range of thematically linked English language bio-pics released since 1990, this book explores key issues surrounding their resurgence: narrative structure, production, subject representation or misrepresentation, and critical response. The films under discussion are grouped around a profession: writers, singers, politicians, sportsmen, criminals, artists, allowing for comparisons to be drawn in approaches to similar subject matter.
