A Parents' and Teachers' Guide to Bilingualism Colin Baker, 2007-09-26 Written in a very reader friendly style the book is a practical introduction for parents and teachers to bilingualism Straightforward and realistic answers are given to a comprehensive set of frequently asked questions about bilingualism and bilingual education Areas covered include family language culture identity reading writing schooling and issues In the third edition there is new or more detailed consideration of Moving between countries cultural adaptation Identity issues One parent one language OPOL families Pre schools kindergartens nursery schools Helping with homework Dyslexia Language scaffolding Multilingualism and trilingualism trilingual families Adoption WWW links articles and books for further reading

Bilingualism in International Schools Maurice Carder, 2007-01-10 International Schools have developed since their inception from a largely native English speaking student body to schools such as the author's the Vienna International School VIS where there are students of 90 nationalities with 65 mother tongues Maurice Carder proposes a three programme model for addressing the language and curricula needs of these students a content based second language programme a programme of cultural and linguistic training for all staff and a mother tongue programme for minority students The model is based on research findings and practice at the VIS every year approximately 13 of the graduating students gain an IB Diploma International Baccalaureate because they are able to take their mother

tongue other than English or German as Language A1 The book contains insightful chapters not only for school leaders programme designers and teachers but also for parents Inserted boxes of student responses give an authentic voice to the needs of second language learners and many useful resources and websites are given **Welcoming Linguistic Diversity in Early Childhood Classrooms** Edna Murphy, 2011 In schools where young English language learners speak a variety of home languages welcoming them into the classroom can be very challenging for the teacher and her English speaking pupils This long awaited book written by teachers well experienced in addressing the needs of this young and vulnerable group will come as a boon to new teachers presented with a multilingual classroom for the first time **Language and Education in Japan** Y. Kanno, 2015-12-26 The first critical ethnography of bilingual education in Japan Based on fieldwork at five different schools this examines the role of schools in the unequal distribution of bilingualism as cultural capital It argues that schooling gives children unequal access to bilingualism thus socializing them into different futures **Guía para padres y maestros de niños bilingües** Alma Flor Ada, Colin Baker, 2001-09-01 This is a practical introduction to bilingualism answering the questions most frequently asked by parents and teachers on raising and educating bilingual children Both authors draw on their academic expertise and ample field experience to provide straightforward answers which contemplate multiple types of bilingual families and diverse societal conditions Resources in Education , 1998 **How to Teach Reading to the Net Generation Children: How to Teach Reading for Those who Do Not Want to Read** Viktors Vrublevskis, 2014-03-19 The present research consists of 45 pages 4 chapters 5 subchapters 6 tables 6 figures and 6 appendices The author of the paper has analysed different kinds of literature such as scientific research and publications scientific and course books referred to the teaching reading methods and the best approaches In his practical part of this research the author has tried to implement the most effective methods and approaches into practise All the author's successes and failures are described analysed and taken into consideration in this research The author of the paper has chosen teaching reading topic because he discovered evident contradiction between a comparatively great number of English lessons qualitative course books on one hand and apparently poor reading skills on the other hand in elementary school The main positive conclusion of the research is that variations of teaching methods considerably improve reading skills but this regularity does not always apply to the children that are having different psychological problems like shyness diffidence fear At the same time a poor ability to make conclusion and poor vocabulary is the main cause of weak language comprehension and lacking reading skills Taking the IPC Forward Mary Hayden, Jeff Thompson, 2012 Since its introduction in 2000 well over 1000 schools in more than 65 different countries have adopted the IPC In this book educators raise and discuss implications for the future implementation of this innovative curriculum within the context of a changing world **Power, Prestige, and Bilingualism** Anne-Marie De Mejía, 2002-01-01 This book describes a particular type of educational provision referred to as elite or prestigious bilingual education which caters mainly for upwardly mobile highly educated higher socio

economic status learners of two or more internationally useful languages The development of different types of elite bilingual or multilingual educational provision is discussed and an argument is made for the need to study bilingual education in majority as well as in minority contexts Equal Rights to the Curriculum Eithne Gallagher, 2008-05-21 The parents of second language children are often seen but not heard in schools This book is unique in addressing the many issues facing parents of children whose first language is different from that of the school classroom Drawing on teaching theory the book provides these parents with a wealth of practical information guidelines and checklists enabling them to ask schools intelligent and challenging questions to test whether their children's linguistic diversity is really being properly catered for The theory review and best practice guidelines should be of value also to teacher trainers teachers administrators and policy makers They provide an accurate analysis of important issues together with pragmatic pointers towards improving educational practice so that all children growing up in a school's multicultural society will be guaranteed what they deserve Equal Rights to the Curriculum
