Witchcraft & Second Sight in the Highlands & Islands of Scotland John Gregorson Campbell, 1902 **Witchcraft & second sight in the highlands & islands of Scotland: tales and traditions** John Gregorson Campbell, 1902 The Catholic Tradition, Second Edition Timothy G. McCarthy, 2012-04-16 This expanded edition of a Loyola Press best seller traces profound changes in Catholicism's institutional intellectual and devotional life in this century Organized by theme authority mission social justice sexual morality and others the book explains Church thinking prior to Vatican II Church thinking now and the how and why of Council changes It shows the Church struggling to find the best way to maintain and hand on the Catholic tradition even as it engages in intrafaith and interreligious dialogue A new chapter on women in the Church their contributions and issues completes the update The St. James's Magazine , 1864 *The North British Review* , 1864 **Apparition Fever** Tine Van Osselaer, 2025-06-13 In the early 1930s a wave of Marian apparitions cases in which visionaries reported seeing and receiving messages from the Virgin Mary swept over Belgium With over forty apparition sites and hundreds of visionaries the Belgian apparitions often attended by crowds of onlookers were unrivalled in scope and complexity and they confronted Catholics and others with a question How do you decide what you believe Apparition Fever explores the Belgian apparitions from initial reports to the eventual recognition of two episodes in the 1940s It shows how knowledge was formed at all levels among the bystanders attending the sites to the medical experts who studied the visionaries and the clerical authorities who evaluated the authenticity of the apparitions Tine Van Osselaer examines how these different perspectives converged and influenced each other whose authority was accepted or challenged and how the public character of the events affected their evaluation Apparition Fever reveals that the public setting of Marian apparitions and the religious enthusiasm they triggered are not novel challenges for the Catholic Church On the contrary they have heavily influenced the evaluation of apparitions since the early twentieth century **American Publishers' Circular and Literary Gazette** , 1859 *A Second Supplement to the Catalogue of Books in the Signet Library. 1882-1887* Signet Library (Great Britain), 1891 *Real Ghost Stories* William T. Stead, 1891 **Science in an Enchanted World** Julie Davies, 2018-06-14 Best known as the Saducismus triumphatus 1681 Joseph Glanvill's book on witchcraft is among the most frequently published from the seventeenth century and its arguments for the reality of diabolic witchcraft elicited passionate responses from critics and supporters alike Davies untangles the intricate development of this text and explores how Glanvill's roles as theologian philosopher and advocate for the Royal Society of London converge in its pages Glanvill's broader philosophical method and unique approach to the supernatural provide a case study that enables the exploration of the interaction between the rise of experimental science and changing attitudes to witchcraft **On hallucinations ; a history and explanation of apparitions, visions, dreams, ecstasy, magnetism, and somnambulism** Alexandre Jacques François Brierre de Boismont, 1860 *An Encyclopaedia of Occultism* Lewis

Spence, 2006-09-01 This compendium of information on the occult sciences occult personalities psychic science demonology spiritism and mysticism was one of a kind when it was first published in 1920 and is still considered the best in its field today Spence organizes a world's worth of magic from Ab a magical month in the ancient Semitic calendar to Zulu witch finders into 2 500 dictionary style entries that explore concepts and personalities both familiar Freemasonry Morgan le Fay and obscure palingenesis a process by which plants or vegetables are destroyed and then resurrected Leonora Galigai a 17th century Italian aristocrat who was burned as a witch A delight for devotees of the weird and the strange and a valuable resource for students of mythology and the evolution of scientific thought this important volume is at home in the libraries of all book lovers Scottish journalist and folklorist LEWIS SPENCE 1874 1955 was a Fellow of the Royal Anthropological Institute of Great Britain and Ireland and Vice President of the Scottish Anthropological and Folklore Society He published more than 40 works on mythology and the occult including History of Atlantis An Introduction to Mythology and Myth and Ritual in Dance Game and Rhyme **An Encyclopædia of Occultism** Lewis Spence, 1920 An Alphabetical Catalogue of an Extensive Collection of the Writings of Daniel Defoe and of Different Publications for and Against that Very Extraordinary Writer Daniel Defoe, Machell Stace, 1829 Signs Before Death, and Authenticated Apparitions John Timbs, 1825 **Marian Apparitions, the Bible, and the Modern World** Donal Anthony Foley, 2002 This groundbreaking book looks at the major approved Marian apparitions of the last five centuries and relates them to important historical moments the Reformation the French and Russian Revolutions the rise of Nazism These Marian apparitions and particularly Fatima are not historically unimportant events but rather follow a preordained plan they have a crucial role in helping us to see how the modern world with all its problems has developed Donal Foley makes clear the fascinating and intriguing connections between Marian apparitions and the Scriptural types of Mary found in the Bible a crucial element in the theology and exegesis of the early Church Fathers By understanding these biblical types and their symbolism we see that each of the apparitions has a much greater significance for both the Church and the modern world than has generally been recognised Here is a convincing demonstration that the future of the Church and the papacy is intimately bound up with a proper understanding of the role of Mary there will only be true peace in the world when her message is accepted and lived If you thought you really understood how the modern world developed and the role and meaning of Marian apparitions then this book will make you think again Donal Foley has written a book with an extraordinary message Aidan Nichols O P **Apparitions** Bouchier Wrey Savile, 1880 Air's Appearance Jayne Elizabeth Lewis, 2024-05-31 In Air's Appearance Jayne Elizabeth Lewis enlists her readers in pursuit of the elusive concept of atmosphere in literary works She shows how diverse conceptions of air in the eighteenth century converged in British fiction producing the modern literary sense of atmosphere and moving novelists to explore the threshold between material and immaterial worlds Air's Appearance links the emergence of literary atmosphere to changing ideas about air and the earth's atmosphere in natural philosophy as well as to the era's theories of the

supernatural and fascination with social manners or as they are now known airs Lewis thus offers a striking new interpretation of several standard features of the Enlightenment the scientific revolution the decline of magic character based sociability and the rise of the novel that considers them in terms of the romance of air that permeates and connects them As it explores key episodes in the history of natural philosophy and in major literary works like Paradise Lost The Rape of the Lock Robinson Crusoe and The Mysteries of Udolpho this book promises to change the atmosphere of eighteenth century studies and the history of the novel Encountering Mary Sandra L. Zimdars-Swartz, 2014-07-14 In the past two centuries hundreds of apparitions of the Virgin Mary have been reported drawing crowds to the seers and the sites and constituting events of great religious significance for millions of people worldwide Here Sandra Zimdars Swartz provides a detective like investigation of the experiences and interpretations of six major apparitions including those at La Salette and Lourdes in France during the mid nineteenth century at Fatima Portugal in 1917 and the more recent ones at San Damiano Italy Garabandal Spain and Medjugorje Yugoslavia where the apparitions continue Adopting a phenomenological approach to these encounters with Mary one that is neither apologetic nor antagonistic the author explores the tension between the personal meaning of the events for their subjects and the public appropriation of this meaning by a larger religious community Along the way she examines the backgrounds of the seers their willingness or reluctance to talk about the apparitions and their messages the amount of emotional support they received from family and community as news of the apparitions spread the reports of miracles at apparition sites the reactions of local authorities and the steps taken by the Roman Catholic Church in officially recognizing or rejecting the apparitions as worthy of belief The author concludes with a survey of religious worldviews based on Marian apparitions focusing especially on the now popular transcultural apocalyptic nature of these messages to the modern world Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Oxford Handbook of Mary Chris Maunder, 2019-08-07 The Oxford Handbook of Mary offers an interdisciplinary guide to Marian Studies including chapters on textual literary and media analysis theology Church history art history studies on devotion in a variety of forms cultural history folk tradition gender analysis apparitions and apocalypticism Featuring contributions from a distinguished group of international scholars the Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West The volume also considers Mary in Islam and pilgrimages shared by Christian Muslim and Jewish adherents While Mary can be a source of theological disagreement this authoritative collection shows Mary s rich potential for inter faith and inter denominational dialogue and

shared experience It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion Newly commissioned essays describe some of the central ideas of Christian Marian thought while also challenging popularly held notions This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world
