Second Variety Philip K. Dick, 1999 The stories within SECOND VARIETY were written between 1952 and 1955 while America was in the grip of McCarthyism The concerns of the time are reflected in stories such as Second Variety which tells of an endless war fought by ever more cunning and sophisticated robots or Imposter where a man accused of being an alien spy finds his whole identity called into question Using his marvellously varied quirky and idiosyncratic style Dick speaks up for ordinary people against militarism paranoia and xenophobia **Second Variety** Philip K. Dick, 2002 Philip K Dick won the prestigious Hugo Award for best novel of 1963 for *The Man In the High Castle* and in the last year of his life 1982 the film *Blade Runner* was made from his novel *Do Androids Dream of Electric Sheep* Here Vol 3 of the late writer s collected work covers the years 1952 1955 and includes *Second Variety* *Foster You re Dead* and *The Father Thing* among many others

The Collected Stories of Philip K. Dick: Second variety Philip K. Dick, 1990 **The Blade Runner Experience** Will Brooker, 2006-02-21 Since its release in 1982 Ridley Scott s *Blade Runner* based on Philip K Dick s novel *Do Androids Dream of Electric Sheep* has remained a cult classic through its depiction of a futuristic Los Angeles its complex enigmatic plot and its underlying questions about the nature of human identity *The Blade Runner Experience The Legacy of a Science Fiction Classic* examines the film in a broad context examining its relationship to the original novel the PC game the series of sequels and the many films influenced by its style and themes It investigates *Blade Runner* online fandom and asks how the film s future city compares to the present day Los Angeles and it revisits the film to pose surprising new questions about its characters and their world **Future Imperfect** Jason P. Vest, 2009-03-01 Examines the first eight cinematic adaptations of Dick s fiction in light of their literary sources **The Twisted Worlds of Philip K. Dick** Umberto Rossi, 2014-01-10 Philip K Dick was one of the most popular science fiction novelists of the 20th century but the contradictory and wily writer has troubled critics who attempt encompassing explanations of his work This book examines Dick s writing through the lens of ontological uncertainty providing a comparative map of his oeuvre tracing both the interior connections between books and his allusive intertextuality Topics covered include time travel alternate worlds androids and simulacra finite subjective realities and schizophrenia Twenty novels are explored in detail including titles that have received scant critical attention Some of his most important short stories and two of his realist novels are also examined providing a general introduction to Dick s body of work *The Postmodern Humanism of Philip K. Dick* Jason P. Vest, 2009-02-17 In *The Postmodern Humanism of Philip K Dick* Jason Vest examines how Dick adapted the conventions of science fiction and postmodernism to reflect humanist concerns about the difficulties of maintaining identity agency and autonomy in the latter half of the 20th century Vest also explores Dick s literary relationship to Franz Kafka Jorge Luis Borges and Italo Calvino [Pink Beam](#) Lord Rc, 2007-07-01 A study of the novels and short stories of science fiction writer Philip K Dick 1928 1982 with presentation of a literary chronology of his career *Dreaming Suburbia* Amy Maria Kenyon, 2004 A multifaceted cultural study of

suburbanization in the United States and Detroit in particular during the postwar suburban boom *Dreaming Suburbia* is a cultural and historical interpretation of the political economy of postwar American suburbanization Questions of race class and gender are explored through novels film television and social criticism where suburbia features as a central theme Although suburbanization had important implications for cities and for the geo politics of race critical considerations of race and urban culture often receive insufficient attention in cultural studies of suburbia This book puts these questions back in the frame by focusing on Detroit Dearborn and Ford history and the local suburbs of Inkster and Garden City Covering such topics as the political and cultural economy of suburban sprawl the interdependence of city and suburb and local acts of violence and crises during the 1967 riots the text examines the making of a physical place its cultural effects and social exclusions The perspectives of cultural history American studies social science and urban studies give *Dreaming Suburbia* an interdisciplinary appeal

I Think I Am Laurence A. Rickels, 2010 Aside from its perfect fit of critic and subject Laurence A Rickels's book provides the most thorough and exhaustive reading of Philip K Dick's literary work that exists He goes through all the novels literally both the science fiction works and the so called mainstream novels Dick did not publish in his lifetime The reader of science fiction should welcome a book like this which is both knowledgeable of the SF tradition tradition and creatively analytical I could not put this book down once I began to read it George Slusser University of California Riverside

Histories of the Future Alan Sandison, 2016-04-30 This collection of interdisciplinary essays examines some of the ways in which writers artists film makers strategists and political thinkers have imagined the future over the last two centuries Although a number of contributions discuss mainstream science fiction the collection's emphasis is not on any single genre but rather on the ways in which different histories technological cultural military ideological generate and inform different modes of speculation about things to come These histories also disclose that our patterns of expectation are much influenced by our relationship to the past

Future War Gardner Dozois, Jack Dann, 2013-06-15 Joe Haldeman Lucius Shepard Allen Steele and others storm the battlefields of tomorrow *Second Variety* by Philip K Dick *Salvador* by Lucius Shepard *Floating Dogs* by Ian McDonald *The Private War of Private Jacob* by Joe Haldeman *Spirey and the Queen* by Alastair Reynolds *A Dry Quiet War* by Tony Daniel *Rorvik's War* by Geoffrey A Landis *Second Skin* by Paul J McAuley *The War Memorial* by Allen Steele *A Special Kind of Morning* by Gardner Dozois At the publisher's request this title is sold without DRM Digital Rights Management

Philip K Dick Christopher Palmer, 2003-03-01 Once the sole possession of fans and buffs the SF author Philip K Dick is now finding a much wider audience as the success of the films *Blade Runner* and *Minority Report* shows The kind of world he predicted in his funny and frightening novels and stories is coming closer to most of us shifting realities unstable relations uncertain moralities Philip K Dick *Exhilaration and Terror of the Postmodern* examines a wide range of Dick's work including his short stories and posthumously published realist novels Christopher Palmer analyses the puzzling and dazzling effects of Dick's fiction and argues that at its heart is a clash between exhilarating

possibilities of transformation and a frightening lack of ethical certainties Dick's work is seen as the inscription of his own historical predicament the clash between humanism and postmodernism being played out in the complex forms of the fiction The problem is never resolved but Dick's ways of imagining it become steadily more ingenious and challenging *Skiffy and Mimesis* Damien Broderick, 2010-05-01 This second anthology of the best of Australian SF Review includes pieces by Gregory Benford Janeen Webb Lucius Shepard Jenny Blackford George Turner Yvonne Rousseau Douglas Barbour and others writing about Watchmen cyberpunk steampunk Philip K Dick Ursula K Le Guin Kim Stanley Robinson and Lucius Shepard Complete with introduction bibliography and index **US American Expressions of Utopian and Dystopian Visions** Saskia

Fürst, Yvonne Kaisinger, Ralph Poole, 2017 This collection takes stock of current discourses in American studies on the political valence of American utopias be they as religious diasporas or as socialist experiments fantastic or realist successful or failed The included essays take into account the spatiality of utopias especially in their visionary scope analyze currents in literary utopias and look at dystopian visions in literature This volume strives to keep alive the long tradition of writers artists and scholars who warned against imminent disasters and envisioned ways to counter such ruinous bearings Series American Studies in Austria Vol 17 Subject Sociology Literary Studies **Science Fiction** Roger Luckhurst, 2005-05-06 In this new and timely cultural history of science fiction Roger Luckhurst examines the genre from its origins in the late nineteenth century to its latest manifestations The book introduces and explicates major works of science fiction literature by placing them in a series of contexts using the history of science and technology political and economic history and cultural theory to develop the means for understanding the unique qualities of the genre Luckhurst reads science fiction as a literature of modernity His astute analysis examines how the genre provides a constantly modulating record of how human embodiment is transformed by scientific and technological change and how the very sense of self is imaginatively recomposed in popular fictions that range from utopian possibility to Gothic terror This highly readable study charts the overlapping yet distinct histories of British and American science fiction with commentary on the central authors magazines movements and texts from 1880 to the present day It will be an invaluable guide and resource for all students taking courses on science fiction technoculture and popular literature but will equally be fascinating for anyone who has ever enjoyed a science fiction book

Science Fiction Studies, 1998 **Liminality in Fantastic Fiction** Sandor Klapcsik, 2012-01-09 This critical work diversifies Victor Turner's concept of liminality a basic category of postmodernism in which distinct categories and hierarchies are questioned and limits erode Liminality involves an oscillation between cultural institutions genre conventions narrative perspectives and thematic binary oppositions Grounded on this notion the text investigates the liminality in Agatha Christie's detective fiction Neil Gaiman's fantasy stories and Stanislaw Lem's and Philip K Dick's science fiction Through an examination of destabilized norms this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts Speculative Orientalism: Asian Religions in New Wave Science Fiction Sang-Keun Yoo, 2025-08-21

Examining the works of prominent New Wave science fiction authors from the 1950 1960s Sang Keun Yoo highlights the underexplored connection between American science fiction and Asian religions such as Taoism Buddhism and Hinduism The book considers how the major world wars of the 20th century Second World War the Cold War and the Vietnam War repositioned Asian culture in relation to the science fiction genre in the period Underpinning this study Sang Keun Yoo argues that Speculative Orientalism emerged in American science fiction during the 1950s and 60s This concept adopted various aspects of Asian religions to envision alternative worlds unburdened by the constraints of colonialism totalitarianism racism and sexism present in contemporary American society Bringing fresh perspectives to the works of William S Burroughs Philip K Dick Ursula K Le Guin and Samuel R Delany this book offers an insightful examination of the role of Asian religions in American science fiction and their impact on the genre s history Science Reporter ,1992
