ENTHRALLING HISTORY

Second World War Military History

Center of Military History

Second World War Military History:

World War Two Jeremy Black, 2004-11-23 Cutting through over half a century of historical build up this new and convincing account of World War II uses a global perspective to explain the complicated course in military terms Black a distinguished military historian bucks the current trend to demilitarise and gives due weight to the campaigns and battles that made up the war In doing so he challenges common interpretations and includes new insights to make this one of the most exciting new histories of the Second World War Covering all the main areas of conflict the chronological approach includes analysis of attacks at land air and sea and a comparison of military resources The focus is always operational but social cultural and political aspects are also included Providing a crucial counterweight to previous histories Jeremy Black's World War Two offers fresh insights into operations at the Eastern Front and during the war against Japan

The Military History of World War II Barrie Pitt, 1989

A War To Be Won Williamson Murray, Allan Reed Millett, 2009-06-30 In the course of the twentieth century no war looms as profoundly transformative or as destructive as World War II Its global scope and human toll reveal the true face of modern industrialized warfare Now for the first time we have a comprehensive single volume account of how and why this global conflict evolved as it did A War To Be Won is a unique and powerful operational history of the Second World War that tells the full story of battle on land on sea and in the air Williamson Murray and Allan R Millett analyze the operations and tactics that defined the conduct of the war in both the European and Pacific Theaters Moving between the war room and the battlefield we see how strategies were crafted and revised and how the multitudes of combat troops struggled to discharge their orders The authors present incisive portraits of the military leaders on both sides of the struggle demonstrating the ambiguities they faced the opportunities they took and those they missed Throughout we see the relationship between the actual operations of the war and their political and moral implications A War To Be Won is the culmination of decades of research by two of America's premier military historians It avoids a celebratory view of the war but preserves a profound respect for the problems the Allies faced and overcame as well as a realistic assessment of the Axis accomplishments and failures It is the essential military history of World War II from the Sino Japanese War in 1937 to the surrender of Japan in 1945 for students scholars and general readers alike

The Military History of World War II Barrie Pitt, 1986-01-01

A Brief History of the U.S. Army in World War II United States Army, Center of Military History, 2013-12 World War II was the largest and most violent armed conflict in the history of mankind However the half century that now separates us from that conflict has exacted its toll on our collective knowledge While World War II continues to absorb the interest of military scholars and historians as well as its veterans a generation of Americans has grown to maturity largely unaware of the political social and military implications of a war that more than any other united us as a people with a common purpose Highly relevant today World War II has much to teach us not only about the profession of arms but also about military preparedness global strategy and combined operations in the coalition war against fascism

During the next several years the U S Army will participate in the nation s 50th anniversary commemoration of World War II The commemoration will include the publication of various materials to help educate Americans about that war The works produced will provide great opportunities to learn about and renew pride in an Army that fought so magnificently in what has been called the mighty endeavor A Brief History of the U S Army in World War II highlights the major ground force campaigns during the six years of the war offers suggestions for further reading and provides Americans an opportunity to learn about the Army s role in World War II **The Second World War** Gordon Corrigan,2012 This is a landmark reassessment of the Second World War of its origins and prosecution It looks set to become the definitive single volume military history American Military History Center of Military History,1989 *American Military History, Volume II* ,2010 From the Publisher This latest edition of an official U S Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army This scholarly yet readable book is designed to inculcate an awareness of our nation s military past and to demonstrate that the study of military history is an essential ingredient in leadership development It is also an essential addition to any personal military history library

American Military History Maurice Matloff,1973 **Almanac of American Military History** Spencer C. Tucker,2012-11-21 This almanac provides a comprehensive chronological overview of all American military history serving as the standard reference work of its type Almanac of American Military History is yet another reference work from acclaimed historian Dr Spencer C Tucker and ABC CLIO offering an unprecedented resource for a wide range of students and researchers A comprehensive four volume title this almanac traces all of American military history from the European voyages of discovery through 2011 chronicling the pivotal moments that have shaped the United States into the country it is today In addition to documenting key events this title presents biographies of more than 250 key individuals and provides information on more than 250 historically significant technologies and weapons systems A detailed glossary is included as are discussions of ranks and military awards and decorations Divided into conflict periods each chapter includes a detailed chronology reference entry sidebars statistical information primary source documents and a bibliography *American Military History, 1607-1958* ,1959 *American Military History, Vol. 2, The United States Army in a Global Era, 1917--2003*, 2005 ,2006 *American Military History* ,2009 From the Publisher This latest edition of an official U S Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army This scholarly yet readable book is designed to inculcate an awareness of our nation s military past and to demonstrate that the study of military history is an essential ingredient in leadership development It is also an essential addition to any personal military history library **World War II in Europe** David T. Zabecki,2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its

unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps

Introduction to Global Military History Jeremy Black, 2006-09-27 Completely unique in its global scope this major text does what no other book in the field does provides students with an excellent account of modern military history with analysis of strategy as well as tactical and operational developments in the field of war Carefully written by a highly renowned author this book has been widely praised by American and UK reviewers for its astonishing grasp of detail and its encyclopedic knowledge Arranged chronologically it spans the American War of Independence through the French Revolution right up to the latest conflicts in the 2000s Specially designed to be user friendly Introduction to Global Military History offers chapter introductions and conclusions to assist study and revision voices of war sourced extracts from the field of war case studies in each chapter to support the narrative and provoke discussion vivid engravings plans paintings and photos to bring the conflicts alive a twelve page colour map section plus twenty one other integrated maps annotated references from the latest publications in the field Jeremy Black covers all aspects of military conflict masterfully combining the study of tactics and war strategy with the social cultural and political consequences of war

World War II Alan Warren, 2016-08-12 In the First World War many battles on the Western Front had lasted weeks or months All too often they degenerated into glacial and indecisive campaigns of attrition By the 1930s however military science had recreated the possibility of a decisive battle An unprecedented rate of technological change meant that a stream of new inventions were readily at hand for military innovators to exploit Aircraft armoured vehicles and new forms of motorised transport became available to make possible a fresh style of offensive warfare when the next European war began in 1939 A belief in the importance of effective war fighting was vital to the Nazi vision of Germany's future Nazi Germany's political and military leaders aimed for rapid and decisive victory in battle From 1939-45 new ideologies and new machines of war carried destruction across the globe Alan Warren chronicles the sixteen most decisive battles of the Second World War from the Blitzkrieg of Poland to the fall of Berlin

American Military History, 1607-1958
