Secrecy And Power

David Blanchard

Secrecy And Power:

Secrecy and Power Richard Gid Powers, 1987 Explores the life and turbulent times of the lawman who served as Director of the F B I from 1924 to 1972 Secrecy and Power Richard Gid Powers, 2020-02-04 A well researched biography about the public and private life of J Edgar Hoover former FBI director and America s most controversial law enforcer that draws on previously unknown personal documents a study of FBI files and the presidential papers of nine administrations Secrecy and Power is a full biography of former FBI director covering all aspects of Hoover s controversial career from the Red Scare following World War I to the 1960s and his personal vendettas against Martin Luther King and the civil rights and antiwar movements *Secrecy's Power* Clark Chilson, 2014-07-31 Shin has long been one of the most popular forms of Buddhism in Japan As a devotional tradition that emphasizes gratitude and trust in Amida Buddha it is thought to have little to do with secrecy Yet for centuries Shin Buddhists met on secluded mountains in homes and in the backrooms of stores to teach their hidden doctrines and hold clandestine rites Among their adherents was D T Suzuki s mother who took her son to covert Shin meetings when he was a boy Even among Shin experts covert followers were relatively unknown historians who studied them claimed they had disappeared more than a century ago A serendipitous encounter however led to author Clark Chilson s introduction to the leader of a covert Shin Buddhist group one of several that to this day conceal the very existence of their beliefs and practices In Secrecy s Power Chilson explains how and why they have remained hidden Drawing on historical and ethnographic sources as well as fieldwork among covert Shin Buddhists in central Japan Secrecy s Power introduces the histories doctrines and practices of different covert Shin Buddhists It shows how despite assumptions to the contrary secrecy has been a significant part of Shin s history since the thirteenth century when Shinran disowned his eldest son for claiming secret knowledge The work also demonstrates how secrecy in Shin has long been both a source of conflict and a response to it Some covert Shin Buddhists were persecuted because of their secrecy while others used it to protect themselves from persecution under rulers hostile to Shin Secrecy s Power is a groundbreaking work that makes an important contribution to our knowledge on secrecy and Shin Buddhism Organized around the various consequences concealment has had for covert Shin Buddhists it provides new insights into the power of secrecy to produce multiple effects even polar opposite ones It also sheds light on ignored corners of Shin Buddhism to reveal a much richer more diverse and more contested tradition than commonly is understood *Presidential Secrecy and the Law* Robert M. Pallitto, William G. Weaver, 2007-05-01 A look at how U S presidents from Truman to George W Bush employed secrecy and how it has affected the presidency and the American government State secrets warrantless investigations and wiretaps signing statements executive privilege the executive branch wields many tools for secrecy Since the middle of the twentieth century presidents have used myriad tactics to expand and maintain a level of executive branch power unprecedented in this nation s history Most people believe that some degree of governmental secrecy is necessary But how much is too much At what point does

withholding information from Congress the courts and citizens abuse the public trust How does the nation reclaim rights that have been controlled by one branch of government With Presidential Secrecy and the Law Robert M Pallitto and William G Weaver attempt to answer these questions by examining the history of executive branch efforts to consolidate power through information control They find the nation s democracy damaged and its Constitution corrupted by staunch information suppression a process accelerated when black sites enemy combatants and ghost detainees were added to the vernacular following the September 11 2001 terror strikes Tracing the current constitutional dilemma from the days of the imperial presidency to the unitary executive embraced by the administration of George W Bush Pallitto and Weaver reveal an alarming erosion of the balance of power Presidential Secrecy and the Law will be the standard in presidential powers studies for years to come The well organized and clearly written book illustrates the way the president s use of document classification and state secrets privilege to solidify presidential control are reinforced by legal decisions sympathetic to presidential power Chronicle of Higher Education

Conspiracy Theories Mark Fenster, 1999 JFK Karl Marx the Pope Aristotle Onassis Queen Elizabeth II Howard Hughes Fox Mulder Bill Clinton all have been linked to vastly complicated global or even galactic intrigues In this enlightening tour of conspiracy theories Mark Fenster guides readers through this shadowy world and analyzes its complex role in American culture and politics Fenster argues that conspiracy theories are a form of popular political interpretation and contends that understanding how they circulate through mass culture helps us better understand our society as a whole To that end he discusses Richard Hofstadter s The Paranoid Style in American Politics the militia movement The X Files popular Christian apocalyptic thought and such artifacts of suspicion as The Turner Diaries the Illuminatus trilogy and the novels of Richard Condon Fenster analyzes the conspiracy community of radio shows magazine and book publishers Internet resources and role playing games that promote these theories In this world the very denial of a conspiracy s existence becomes proof that it exists and the truth is always out there He believes conspiracy theory has become a thrill for a bored subculture one characterized by its members reinterpretation of accepted history their deep cynicism about contemporary politics and their longing for a utopian future Fenster s progressive critique of conspiracy theories both recognizes the secrecy and inequities of power in contemporary politics and economics and works toward effective political engagement Probing conspiracy theory s tendencies toward scapegoating racism and fascism as well as Hofstadter s centrist acceptance of a postwar American consensus he advocates what conspiracy theory wants but cannot articulate a more inclusive engaging political culture

Secrets Sissela Bok, 2011-03-16 The author of Lying shows how the ethical issues raised by secrets and secrecy in our careers or private lives take us to the heart of the critical questions of private and public morality

Secrecy at Work Christopher Grey, Jana Costas, 2016-03-30 Secrecy is endemic within organizations woven into the fabric of our lives at work Yet until now we ve had an all too limited understanding of this powerful organizational force Secrecy is a part of work and keeping secrets is a form of work But also secrecy creates a

social order a hidden architecture within our organizations Drawing on previously overlooked texts as well as well known classics Jana Costas and Christopher Grey identify three forms of secrecy formal secrecy as we see in the case of trade and state secrets based on law and regulation informal secrecy based on networks and trust and public or open secrecy where what is known goes undiscussed Animated with evocative examples from scholarship current events and works of fiction this framework presents a bold reimagining of organizational life

The Routledge Handbook of Religion and Secrecy

Hugh B. Urban, Paul Christopher Johnson, 2022-03-29 Secrecy is a central and integral component of all religious traditions Not limited simply to religious groups that engage in clandestine activities such as hidden rites of initiation or terrorism secrecy is inherent in the very fabric of religion itself Its importance has perhaps never been more acutely relevant than in our own historical moment In the wake of 9 11 and other acts of religious violence we see the rise of invasive national security states that target religious minorities and pose profound challenges to the ideals of privacy and religious freedom accompanied by the resistance by many communities to such efforts As such questions of secrecy privacy surveillance and security are among the most central and contested issues of twenty first century religious life The Routledge Handbook of Religion and Secrecy is the definitive reference source for the key topics problems and debates in this crucial field and is the first collection of its kind Comprising twenty nine chapters by a team of international contributors the Handbook is divided into five parts Configurations of Religious Secrecy Conceptual and Comparative Frameworks Secrecy as Religious Practice Secrecy and the Politics of the Present Secrecy and Social Resistance Secrecy Terrorism and Surveillance This cutting edge volume discusses secrecy in relation to major categories of religious experience and individual religious practices while also examining the transformations of secrecy in the modern period including the rise of fraternal orders the ongoing wars on terror the rise of far right white supremacist groups increasing concerns over religious freedom and privacy the role of the internet in the spread and surveillance of such groups and the resistance to surveillance by many indigenous and diasporic communities The Routledge Handbook of Religion and Secrecy is essential reading for students and researchers in religious studies comparative religion new religious movements and religion and politics It will be equally central to debates in the related disciplines of sociology anthropology political science security studies and cultural studies

The Secret:

Unveiling the Mysteries of the Secret Society Arnold Washington, 2025-02-20 To the tireless researchers archivists and historians who dedicate their lives to unearthing the truth even in the darkest corners of history This work is a testament to your unwavering commitment to uncovering the past however obscured it may be Your meticulous efforts to sift through layers of myth and misinformation to separate verifiable fact from enduring legend serve as an inspiration This book is a small contribution to the larger project of understanding the complex interplay between power secrecy and public perception a project which you have already advanced significantly through your own investigations and scholarship It is to your dedication your relentless pursuit of knowledge and your unwavering belief in the power of historical truth that this book is

humbly dedicated Your work provides the foundation upon which we can build a more complete and accurate understanding of the past and ultimately a better future informed by the mistakes and triumphs of those who came before May this work serve as a small token of appreciation for your tireless efforts and as a further contribution to the ongoing dialogue on the influence of secret societies and the enduring allure of the unknown To those who have sought the truth and to those who continue to seek it this book is dedicated Your pursuit of knowledge is crucial for it is only through the careful examination of the past that we can hope to navigate the complexities of the present and shape a future free from the manipulation of concealed power structures The quest for truth even in the face of obfuscation and deception is the highest calling and it is to those who embrace this calling that this work is dedicated

Quantifying Approaches to Discourse for Social Scientists
Ronny Scholz, 2018-11-27 This book provides an overview of a range of quantitative methods presenting a thorough analytical toolbox which will be of practical use to researchers across the social sciences as they face the challenges raised by new technology driven language practices The book is driven by a reflexive mind set which views quantifying methods as complementary rather than in opposition to qualitative methods and the chapters analyse a multitude of different intra and extra textual context levels essential for the understanding of how meaning is re constructed in society Uniting contributions from a range of national and disciplinary traditions the chapters in this volume bring together state of the art research from British Canadian French German and Swiss authors representing the fields of Political Science Sociology Linguistics Computer Science and Statistics It will be of particular interest to discourse analysts but also to other scholars working in the digital humanities and with big data of any kind

AI and Its Convergence With Communication Technologies
Muneer, Badar, Shaikh, Faisal Karim, Mahoto, Naeem, Talpur, Shahnawaz, Garcia, Jordi, 2023-08-25 The integration of Artificial Intelligence AI with Communication Technologies ICT is a critical aspect of research and development today but it poses numerous challenges and bottlenecks To address these issues the book AI and Its Convergence with Communication Technologies edited by a team of expert scholars provides a comprehensive overview of the state of the art research and practical challenges related to AI s convergence with ICT It is designed to benefit engineers professionals scientists and academicians providing them with insights into the ICT industry and research from an AI perspective The book covers a wide range of topics including recent advancements and applications in AI AI in signal processing AI in mobile and modern wireless networks and AI towards automation It also addresses potential applications of AI in national defense military technology hybrid warfare medical and health sciences and energy efficient systems Furthermore the book highlights the strengths and weaknesses of AI convergence with ICT along with emerging frontiers and recommendations It provides a brief history of AI in ICT and a comprehensive introduction to ICT related methods and techniques in artificial intelligence and machine learning The book emphasizes the role of AI in extracting knowledge and making predictions in decision making strategies for businesses management and governance Overall this book offers a significant contribution to the

understanding of AI and its convergence with communication technologies making it a must read for scholars and researchers who seek to understand the intersection of AI and ICT and how it impacts modern industries and research

Patents for Power Robert M. Farley, Davida H. Isaacs, 2020-10-30 In an era when knowledge can travel with astonishing speed the need for analysis of intellectual property IP law and its focus on patents trade secrets trademarks and issues of copyright has never been greater But as Robert M Farley and Davida H Isaacs stress in *Patents for Power* we have long overlooked critical ties between IP law and one area of worldwide concern military technology This deft blend of case studies theoretical analyses and policy advice reveals the fundamental role of IP law in shaping how states create and transmit defense equipment and weaponry The book probes two major issues the effect of IP law on innovation itself and the effect of IP law on the international diffusion or sharing of technology Discussing a range of inventions from the AK 47 rifle to the B 29 Superfortress bomber to the MQ 1 Predator drone the authors show how IP systems or their lack have impacted domestic and international relations across a number of countries including the United States Russia China and South Korea The study finds among other results that while the open nature of the IP system may encourage industrial espionage like cyberwarfare increased state uptake of IP law is helping to establish international standards for IP protection This clear eyed approach to law and national security is thus essential for anyone interested in history political science and legal studies Secrets

Angus MacKenzie, 1999-04-22 This eye opening expose the result of fifteen years of investigative work uncovers the CIA s systematic efforts over several decades to suppress and censor information Angus Mackenzie an award winning journalist filed and won a lawsuit against the CIA under the Freedom of Information Act and in the process became an expert on government censorship and domestic spying Mackenzie lays bare a complex narrative of intrigue among federal agencies and their senior staff including the Department of Defense the executive branch and the CIA From cover ups and secrecy oaths to scandals over leaks and exposure to the government s often insidious attempts to monitor and control public access to information Mackenzie tracks the evolution of a policy of suppression repression spying and harassment **Information**

and Power in History Ida Nijenhuis, Marijke van Faassen, Ronald Sluijter, Joris Gijsenbergh, Wim de Jong, 2020-01-29 The relationship between information and power is a relevant subject for all times Today s perceived information revolution has caused information to become a separate object of study during the last two decades for several disciplines As the contemporary perspective is dominant information history as a discipline of its own has not yet crystallized In bringing together studies around a new research agenda on the relationship between information and power across time and space presenting various governance regimes media materials and modes of communication this book forces us to rethink the prospects and challenges for such a new discipline Let's Talk

David Blanchard, 2024-03-11 This is a book for people who take their faith seriously for those who are willing to wrestle with difficult questions for any who believe the church can and should do better Whether a church leader or a church dropout this book invites the reader to join a conversation surrounding

some important and overlooked issues that demand attention Read alone or with a group of friends This book is designed to stimulate meaningful dialogue among people who seek Jesus and care about the future of his church The author does not expect every reader to agree with him or like everything in these pages The point is to consider an idea or two and discuss with others To God be the glory

Government Secrecy Jan Goldman Ph.D., Susan Maret, 2008-12-30 Government Secrecy presents the best that has been thought and written on the subject including history and philosophy theory and practice justification and critique Through readings which range from Georg Simmel on secrecy and Max Weber on bureaucracy and secret keeping to post 9 11 concerns regarding freedom of information and presidential secrecy it enables readers to explore the issues and questions that surround the government's right to keep necessary secrets or not This collection and the diverse perspectives it represents will engage students and other interested parties in a discussion of the benefits and dangers of government secrecy The collection is designed to generate questions regarding historical accuracy of government information information ethics professional neutrality ownership of information public right to information national security and transparency The essays explore the criteria and conditions for government secret keeping as well as contributing to public and academic discussion of the role of secrets in democracies

Transparency and Secrecy in European Democracies Dorota Mokrosinska, 2020-11-11 This edited volume offers a critical discussion of the trade offs between transparency and secrecy in the actual political practice of democratic states in Europe As such it answers to a growing need to systematically analyse the problem of secrecy in governance in this political and geographical context Focusing on topical cases and controversies in particular areas the contributors reflect on the justification and limits of the use of secrecy in democratic governance register the social cultural and historical factors that inform this process and explore the criteria used by European legislators and policy makers both at the national and supranational level when balancing interests on the sides of transparency and secrecy respectively This book will be of key interest to scholars and students of security studies political science European politics studies law history political philosophy public administration intelligence studies media and communication studies and information technology sciences

The Impact of 9/11 and the New Legal Landscape M. Morgan, 2009-08-31 The Impact of 9 11 and the New Legal Landscape is the third volume of the six volume series The Day that Changed Everything edited by Matthew J Morgan The series brings together from a broad spectrum of disciplines the leading thinkers of our time to reflect on one of the most significant events of our time

Projections of Power in the Americas Niels Bjerre-Poulsen, Helene Balslev Clausen, Jan Gustafsson, 2012 This book is a fascinating contribution to the study of politics and social relations in the Americas as well as to the study of power The nine essays describe different ways in which power is being exerted and projected in the Americas by governments by special interests and by transnational criminal organizations However they also tell stories of collective and individual empowerment of citizens in the Americas

The Treaty Power Under the Constitution of the United States Robert Thomas Devlin, 1908 Commentaries on the treaty

clauses of the Constitution construction of treaties extent of treaty making power conflict between treaties and acts of Congress state constitutions and statutes international extradition acquisition of territory ambassadors consuls and foreign judgments naturalization and expatriation responsibility of government for mob violence and claims against governments With appendices containing regulations of Department of State relative to extradition of fugitives from justice a list of the treaties in force with the international conventions and acts to which the United States is a party and a chronological list of treaties
