KIND Graham Allcott, 2024-10-10 What if someone told you the key to success was kindness While it doesn't always make headlines there is a growing recognition that kindness is vital to strong performance at work In the broad range of leadership skills kindness is inherently quieter more personal and harder to see and yes less interesting or cinematic than controversial tweets and bullying boss behaviour But kindness builds empathy and trust which ultimately creates a sense of psychological safety and that safety leads to more creativity a better quality of decision making safer critical thinking higher levels of staff loyalty flexibility and retention a heightened sense of engagement and ultimately higher productivity and profitability In **KIND** Graham Allcott explores how we can create work cultures that encourage kindness He argues that far from being a fluffy or nebulous idea kindness and empathy are 21st century superpowers which can transform any organization into a dynamic environment where people want to work The author aims to convince the doubters as well as helping already kindful people to articulate the power of kindness and make a stronger case for its greater profile in their working environments Drawing on psychology and neuroscience as well as management theory and business research he shows how kindness helps encourage productive and positive work cultures From busting three important myths that need to be addressed to engage the more cynical reader or the reader's more cynical colleagues to covering The Eight Principles of Kindfulness at Work Graham Allcott offers practical advice on how to make kindness part of the fabric of your working life so both you and your team can thrive

Secrets for a Good Life Dr. Jack Elliott,2011-09-12 The purpose of this book is to give you ideas that can help make your life better They are thoughts that can bring clarity and even add some fun to life The secrets are meant to empower you to build a good life even to find a little more peace and happiness along the way They can help get you through some of the storms and dark valleys we all experience Each secret is in a bold print one sentence statement that can easily be remembered To better grasp the secret there is a story or two brief explanation and a few questions to get you going Pick up a secret and use it in whatever way you want They are tools for your own life to use the way you think feel live and act Apply

these secrets using your own values morals faith and relationships They are not formulas to follow but tools to help you find and live your own good life This started out as a humorous book to entertain and enlighten Perhaps a few secrets might stick a needle in that one could not quite get out that is might just get through the epidermis of prejudice absoluteness or blindness of many kinds of which we all have a little What happened along the way is that serious secrets showed up that could not be dressed in humor but seemed important to include There are different kinds of secrets in this book and I won't define secrets any more than stating that a secret is something that provides some insight for the journey of life Some are so obvious that we wonder how we ever missed them or realize that we have heard them but went right on by and didn't stop to take them to heart or to mind Still others are counter intuitive and so we have to stop and read them again and perhaps turn our thinking to a new direction After you read awhile you will notice some redundancy Similar secrets are found in different sections Slice of Life Madhusmita Jena, Life The biggest roller coaster ride one goes through Everything everyone that comes across during this ride must contribute something to it May it be your daily routine may it be your daily habit may it be your passion may it be your habits may it be your pet may it be a person your bae your sibling or your someone special They are as much precious as oxygen is Someone might have hurt you but in return someone would have loved you too If something has let you down then there must be something that has lightened you Just a morning walk can change your mood for the entire day a cute fight with your sibling can even make you smile Just a ping at the end of the day from your special one can bring a smile to your face just a touch from your parents can heal your entire pain just a call from your bae can resolve all your issues just a fairytale dream is enough to make you motivated The only thing the author has tried to convey to her valuable and lovely readers is that Accept life as it is then only you can get the best out of it Just keep on loving it
