**Secret France**

Automobile Association (Great Britain),2000-03 This is the perfect companion for exploring the hidden tranquil corners that form the rural heart of France      Places of Enchantment Graham Usher,2012-10-18 There is a great and honourable tradition of finding God in landscapes Many who have given up on church appreciate the spiritual benefits they gain from climbing a mountain or walking in nature But how and why do we encounter God in land forest river mountain desert garden sea and sky That is what Graham Usher explores in this captivating volume which takes us from the giant Redwoods of the Californian Sierra Nevada to the jagged New York skyline from the wilds of the ancient Scottish Highlands to the rolling pastures of English Shropshire Drawing on material from biblical and church history traditions as well as scientific research and contemporary art he seeks to ascertain how such encounters support our Christian pilgrimage and challenge our assumptions      **The People, Place, and Space Reader** Jen Jack Gieseke,William Mangold,Cindi Katz,Setha Low,Susan Saegert,2014-04-16 The People Place and Space Reader brings together the writings of scholars designers and activists from a variety of fields to make sense of the makings and meanings of the world we inhabit They help us to understand the relationships between people and the environment at all scales and to consider the active roles individuals groups and social structures play in creating the environments in which people live work and play These readings highlight the ways in which space and place are produced through large and small scale social political and economic practices and offer new ways to think about how people engage the environment in multiple and diverse ways Providing an essential resource for students of urban studies geography sociology and many other areas this book brings together important but till now widely dispersed writings across many inter related disciplines Introductions from the editors precede each section introducing the texts demonstrating their significance and outlining the key issues surrounding the topic A companion website PeoplePlaceSpace.org extends the work even further by providing an on going series of additional reading lists that cover issues ranging from food security to foreclosure psychiatric spaces to the environments of predator animals      **Material Culture** Kenneth L. Ames,1985      **Landscape as Sacred Space** Steven Lewis,2005-07-15 Steven Lewis s Landscape as Sacred Space Metaphors for the Spiritual Journey invites new discussions about our spiritual journeys and allows seekers to rethink approaches to Christian spirituality and theology in light of postmodernity Landscape metaphors provide a common and accessible language to articulate one s spiritual journey Spiritual mountains deserts and valleys are dominant landscapes on our journey through life Most people have experienced the joy of a mountaintop spiritual experience the pain of spiritual deserts or perhaps the dreariness too often associated with spiritual valleys There is a tendency however to highlight spiritual mountaintops while avoiding spiritual deserts and ignoring spiritual valleys This leaves many Christians ill equipped either to deal with crises or to integrate God into ordinary life Each landscape offers rich lessons that when combined together lead us toward a maturing faith and into a deeper relationship with God Landscape as Sacred Space is intended to aid those who search for more meaningful ways to articulate their faith journey The book grants permission to struggle with

life's landscapes provides safe spaces to reflect on the journey and introduces language that enables exploration and discovery
