**The Secret of Loving and Being Loved** ekakoro etoori, 2013-08-15 *The secret of loving and being loved* is an interesting book that explicitly explores the factors leading to breakage of intimate relationships, the factors leading to attraction, barriers to intimate relationships, and how to maintain intimate relationships. This book is meant to help individuals identify their weaknesses and strengths and the areas that one needs to correct as far as intimate relationships are concerned, not only during marriage but also while dating or intending to date. Be it the stage of initiation of the date to the level of saying I do, if it applies to all those who have fallen out. It is also designed for all ages and hence seeks to bring out why most relationships break and how to maintain relationships irrespective of the other difference that shall be seen in the book as you read on. Not forgetting why and what makes us fall in love or get so passionate about other people. *The secret of loving and being loved* is not necessarily meant for those who are still searching or not yet willing to begin engaging, but for all, irrespective of the marital eminence, and is a must-read book by all folks, whether in love or not, whether in an intimate relationship or ever fallen out or never got married at all, and perhaps looking forward to do so. In this book, therefore, individuals in relationships should be able to reflect back to their lives and analyse their lifestyles, ways so as to identify their strengths and weaknesses and should be able to correct themselves in as far as the continuity of their relationship to prevent any hiccups that may arise as a couple's own making is concerned. It hence introduces one to real-life happenings as far as real intimacy is concerned; the data contained in here is derived from combination of observations, findings, analyses, inferences, and sharing of experiences with friends, married men and women, courting partners, widows, widowers, and Bachelors alike. It deeply seeks to help and bring to the knowledge of all looking forward to getting engaged, the socio-economic, cultural, religious, age, and the misconceptions that many have held in their minds about one being younger than him/her in a relationship, as far as the social ladder is concerned, among other factors that can and have done or undone most intimate relationships. It hence seeks to bring to the limelight how and in which way to tackle such circumstances, especially now, with

the transition from the traditional means of handling matters to the contemporary era of Civilisation and Modernity The book aims at revealing what ways partners use for cheating the common excuses and or ways of diverting one s mind when he or she feels that they are getting to the trap Not only that but also for those who are not yet engaged it helps to bring to their disclosure the barriers and factors hindering one from getting affectionate of certain people and also how we can get there and sustain the relationship
