but problematic place in the rise of proto fascism in Germany Their own surrogate state offered a miniature model of a future German state enthusiastic followers submitting themselves without question to the figure and will of a charismatic leader believed to be in possession of mysterious even quasi divine powers When he died several months after the Nazi takeover George was one of the most famous and revered figures in Germany Today the importance of George and his circle has largely been forgotten In this the first full biography of George to appear in any language Robert E Norton traces the poet's life and rise to fame The Circle of the Mechanical Arts, Containing Practical Treatises on the Various Manual Arts, Trades, and Manufactures Thomas Martin (Civil engineer),1813
