This fascinating new study shows how the CIA and the British secret service in collaboration with the military alliance NATO and European military secret services set up a network of clandestine anti-communist armies in Western Europe after World War II. These secret soldiers were trained on remote islands in the Mediterranean and in unorthodox warfare centres in England and in the United States by the Green Berets and SAS Special Forces. The network was armed with explosives, machine guns and high tech communication equipment hidden in underground bunkers and secret arms caches in forests and mountain meadows. In some countries the secret army linked up with right wing terrorist who in a secret war engaged in political manipulation, harassment of left wing parties, massacres, coup d'états and torture. Codenamed Gladio, the sword, the Italian secret army was exposed in 1990 by Italian Prime Minister Giulio Andreotti to the Italian Senate whereupon the press spoke of 'The best kept and most damaging political military secret since World War II'. Observer 18 November 1990 and observed that 'The story seems straight from the pages of a political thriller'. The Times November 19 1990. Ever since so-called stay behind armies of NATO have also been discovered in France, Spain, Portugal, Germany, Belgium, the Netherlands, Luxemburg, Denmark, Norway, Sweden, Finland, Switzerland, Austria, Greece and Turkey. They were internationally coordinated by the Pentagon and NATO and had their last known meeting in the NATO linked Allied Clandestine Committee ACC in Brussels in October 1990.
