Different Speeds, Same Furies Perry Anderson, 2022-11-08 An exploration of Marcel Proust and Anthony Powell s greatest literary achievements There are few writers about whom opinions diverge so widely as Anthony Powell whose *Dance to the Music of Time* sequence is one of the most ambitious literary constructions in the English language In *Different Speeds Same Furies* Perry Anderson measures Powell s achievement against Marcel Proust s celebrated *In Search of Lost Time* The literature on *Dance* is a drop in the ocean compared to that on Proust Yet in construction of plot and depiction of character Anderson ranks Powell above him How much do particular advantages of this kind matter and why is Powell an odd man out in English letters At once so similar and dissimilar the intricate retrospectives of the two novelists on bohemia and Society

upbringing and mortality relationships and personality invite interrelated judgements The closing chapters of *Different Speeds Same Furies* reach beyond their handlings of time to chart the historical novel from *Waverley* to *Underworld* and the breakthrough in epistolary fiction of Montesquieu's *Persian Letters* held together by what its author described as a secret chain which remains as it were invisible

Mysticism, Ritual and Religion in Drone Metal Owen Coggins, 2018-01-25 This is the first extensive scholarly study of drone metal music and its religious associations drawing on five years of ethnographic participant observation from more than 300 performances and 74 interviews plus surveys analyses of sound recordings artwork and extensive online discourse about music Owen Coggins shows that while many drone metal listeners identify as non religious their ways of engaging with and talking about drone metal are richly informed by mysticism ritual and religion He explores why language relating to mysticism and spiritual experience is so prevalent in drone metal culture and in discussion of musical experiences and practices of the genre The author develops the work of Michel de Certeau to provide an empirically grounded theory of mysticism in popular culture He argues that the marginality of the genre culture together with the extremely abstract sound produces a focus on the listeners engagement with sound and that this in turn creates a space for the open ended exploration of religiosity in extreme states of bodily consciousness

Taking Popular Music Seriously Simon Frith, 2017-07-05 As a sociologist Simon Frith takes the starting point that music is the result of the play of social forces whether as an idea an experience or an activity The essays in this important collection address these forces recognising that music is an effect of a continuous process of negotiation dispute and agreement between the individual actors who make up a music world The emphasis is always on discourse on the way in which people talk and write about music and the part this plays in the social construction of musical meaning and value The collection includes nineteen essays some of which have had a major impact on the field along with an autobiographical introduction
