## **Secretary Of Praise The Poetic Vocation Of George Herbert:**

*Secretary of Praise* Diana Benet, 1984 The purpose of this study is to elucidate Herbert's poetry by reference to grace and charity as two of the major themes of *The Temple*. These doctrines lay the foundation for an understanding of Herbert's poetic vocation, his typical didactic strategies, the dramatic and emotional situation on which his book builds, and his spiritual autobiography, a poetic sequence that is a comprehensive exposition of the empirical reality as Herbert saw it of grace and charity. George Herbert's Christian Narrative Harold Toliver, 2010-11-01 **George Herbert's Pastoral** Christopher Hodgkins, 2010 As poet and as country parson George Herbert engaged the pastoral in all of its varied senses. In October of 2007 many of the world's leading Herbert scholars met at Sarum College in Salisbury, England, to locate Herbert's pastoral life and writings more particularly in early Stuart Wiltshire. They explored the relations between the pastoral locale of Herbert's last years, 1630-1633, in nearby Bemerton and the themes, images, and tenor of his writing. How did the specific country place, time, and people shape the life and work of this especially lyrical country priest? The fourteen essays in this collection address Herbert's pastoral poetry and practice, cast new light on his actual relations with specific local personalities and places, make fresh connections to the inward biblical and liturgical spaces of his work, consider his outward links to garden and pasture, and discover fictional and theological reverberations beyond Herbert's local pastoral world. Christopher Hodgkins is Professor of English at the University of North Carolina, Greensboro. George Herbert and the Business of Practical Piety Ceri Sullivan, 2024-07-20 Contemporary nudge theory points out that people make good choices over issues where they have had past experience of similar circumstances, where there is reliable, substantial, and relevant information about the situation, and where they will get prompt feedback about the effect of their decision. Yet none of these conditions apply to the most vital choice of action facing early modern Protestants: how can they be saved? In *George Herbert and the Business of Practical Piety*, Ceri Sullivan uses nudge theory to show how practical divinity disregards the doleful conclusions of predestination that salvation cannot be earned, to supply readers with suggestions on how to prepare to act regardless of their final destiny. Such texts create cognitive niches to support cheerful, godly thought and action in a way which is far from being despairing or compulsive. Their nudges were repeatedly put into practice by Herbert's friends, the Ferrars, who tried to form an ideal religious community at Little Gidding. These prescriptions and examples illustrate how George Herbert's *The Temple* (1633) is a compendium of the techniques of choice architecture. Herbert's poems are full of the humour emerging from a life of faith which is willing to guard high ideals by low cunning, stooping to use the least little things to change a self. *George Herbert and the Business of Practical Piety* initially calls on theories of the extended mind to ask what sort of minor physical and social structures scaffold decisions, then examines a selection of nudges used by Herbert, contracts with the self, building a mind, cleaning a heart, conversing with God, making to-do lists, and working on working well. A George Herbert Companion (Routledge Revivals) Robert H. Ray, 2014-05-01 First published in 1995, this title provides

the reader with a compendium of useful information for any reader of George Herbert to have at hand It includes key biographical information situates the poetry in its historical and cultural context and where appropriate explains theological concepts and traditions which have a direct bearing on the verse The aim throughout is to enhance understanding and appreciation without being exhaustive A George Herbert Companion will be of most use to general readers and undergraduate students coming to this poetry for the first time and will interest students of Anglican Caroline theology and hymnology *George Herbert* Thomas Stearns Eliot,1994 Peter Porter's new introduction gives a fresh perspective on the poetry of George Herbert and on T S Eliot's study of the poet itself

**Co-Creative Communication in George Herbert and John Donne** Sara Rogalski,2025-03-17 This study examines the co creative relationship between speakers hearers and God in poetry and prose by George Herbert and John Donne Through analyses of communicative situations communicative interactions and reflections on communication models of communication are established that underlie the texts selected In particular the activity of hearing is shown to be considered essential to the constitution of a meaningful utterance In this way a key function of communication becomes apparent it can yield a range of creative products from the conversation itself to a literary artefact and its extratextual effects This study thus offers a new reading of the texts of George Herbert and John Donne and provides a clear perspective on how early modern religious texts regarded communication and co creativity as connected concepts *The Complete English Poems* George Herbert,2004-10-07 George Herbert combined the intellectual and the spiritual the humble and the divine to create some of the most moving devotional poetry in the English language His deceptively simple verse uses the ingenious arguments typical of seventeenth century metaphysical poets and unusual imagery drawn from musical structures the natural world and domestic activity to explore a mosaic of Biblical themes From the wit and wordplay of *The Pulley* and the formal experimentation of *Easter Wings* and *Paradise* to the intense highly personal relationship between man and God portrayed in *The Collar* and *Redemption* the works collected here show the transcendental power of divine love

**Poetry of Contemplation** Arthur L. Clements,1990-01-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists

**The Poem in Time** Janis Lull,1990 In tracing George Herbert's revisionary goals as they developed through the two manuscripts of the *Church* this book offers a new

approach to the interpretation of his poems in showing that Herbert intended to encourage his readers to connect the separate lyrics into larger structures of meaning and also to look beyond his poetry to the Bible     *Literature and Architecture in Early Modern England* Anne M. Myers, 2013-01-01 Our built environment inspires writers to reflect on the human experience discover its history or make it up Buildings tell stories Castles country homes churches and monasteries are documents of the people who built them owned them lived and died in them inherited and saved or destroyed them and recorded their histories Literature and Architecture in Early Modern England examines the relationship between sixteenth and seventeenth century architectural and literary works By becoming more sensitive to the narrative functions of architecture Anne M Myers argues we begin to understand how a range of writers viewed and made use of the material built environment that surrounded the production of early modern texts in England Scholars have long found themselves in the position of excusing or explaining England's failure to achieve the equivalent of the Italian Renaissance in the visual arts Myers proposes that architecture inspired an unusual amount of historiographic and literary production including poetry drama architectural treatises and diaries Works by William Camden Henry Wotton Ben Jonson Andrew Marvell George Herbert Anne Clifford and John Evelyn when considered as a group are texts that overturn the engrained critical notion that a Protestant fear of idolatry sentenced the visual arts and architecture in England to a state of suspicion and neglect     The Concept of Nature in Early Modern English Literature Peter Remien, 2019-02-14 The Concept of Nature in Early Modern English Literature traces a genealogy of ecology in seventeenth century literature and natural philosophy through the development of the protoecological concept of the oeconomy of nature Founded in 1644 by Kenelm Digby this concept was subsequently employed by a number of theologians physicians and natural philosophers to conceptualize nature as an interdependent system Focusing on the middle decades of the seventeenth century Peter Remien examines how Samuel Gott Walter Charleton Robert Boyle Samuel Collins and Thomas Burnet formed the oeconomy of nature Remien also shows how literary authors Ben Jonson George Herbert Andrew Marvell Margaret Cavendish and John Milton use the discourse of oeconomy to explore the contours of humankind's relationship with the natural world This book participates in an intellectual history of the science of ecology while prompting a re evaluation of how we understand the relationship between literature and ecology in the early modern period     *Doctrine and Devotion in Seventeenth-century Poetry* R. V. Young, 2000 English devotional poets of 17c set in a wider European and Catholic context     *The Cambridge Companion to English Poetry, Donne to Marvell* Thomas N. Corns, 1993-11-18 English poetry in the first half of the seventeenth century is an outstandingly rich and varied body of verse which can be understood and appreciated more fully when set in its cultural and ideological context This student Companion consisting of fourteen new introductory essays by scholars of international standing informs and illuminates the poetry by providing close reading of texts and an exploration of their background There are individual studies of Donne Jonson Herrick Herbert Carew Suckling Lovelace Milton Crashaw Vaughan and Marvell More general

essays describe the political and religious context of the poetry explore its gender politics explain the material circumstances of its production and circulation trace its larger role in the development of genre and tradition and relate it to contemporary rhetorical expectation Overall the Companion provides an indispensable guide to the texts and contexts of early seventeenth century English poetry      *Existential Hermeneutics* Andrzej Wiercinski, 2020-03-10 Existential hermeneutics is phronetic existence with the aim of cultivating practical wisdom in human life It comes from life influences life and transforms life Understanding what is happening in life requires reaching the hermeneutic truth which is the truth of understanding The experience of hermeneutic truth calls for personal commitment and existential response and thus expresses the hermeneutic moral imperative Referring to Heidegger's phenomenological analytics of Dasein Gadamer emphasizes that understanding is not only one of the human capabilities but a way of Dasein's being in the world      **The Ludic Self in**

**Seventeenth-Century English Literature** Anna K. Nardo, 1991-09-03 This book argues that play offered Hamlet John Donne George Herbert Andrew Marvell Robert Burton and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self the author demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation      *The Wit of Seventeenth-century Poetry* Claude J. Summers, Ted-Larry Pebworth, 1995 As the twelve original essays collected in this volume demonstrate to study the wit of seventeenth century poetry is necessarily to address concerns at the very heart of the period's shifting literary culture It is a topic that raises persistent questions of thematics and authorial intent even as it interrogates a wide spectrum of cultural practices These essays by some of the most renowned scholars in seventeenth century studies illuminate important authors and engage issues of politics and religion of secular and sacred love of literary theory and poetic technique of gender relations and historical consciousness of literary history and social change as well as larger concerns of literary production and smaller ones of local effects Collectively they illustrate the vitality of the topic both in its own right and as a means of understanding the complexity and range of seventeenth century English poetry      English Renaissance Rhetoric and Poetics Heinrich F. Plett, 2023-08-14 This volume is the first comprehensive reference work on English Renaissance rhetoric and poetics It is arranged in four sections A bibliographies B primary sources C secondary sources D indices Section B lists more than 500 books on rhetoric and poetics published in the British Isles and abroad between 1479 and 1660 Detailed information is provided on each of them transcription of the title page of the editio princeps call number of the library copy consulted further historical and modern editions together with the relevant secondary literature Section C covers the whole range of applied rhetoric and poetics totalling some 2 000 titles between 1900 and 1994 It deals systematically with such topics a General Studies Rhetorical Genres and Rhetoric Poetics and Individual Authors An introductory essay outlines the principles of the bibliography      Poetry and Music in Seventeenth-Century

England Diane Kelsey McColley, 1997-12-11 This study explores the relationship between the poetic language of Donne Herbert Milton and other British poets and the choral music and part songs of composers including Tallis Byrd Gibbons Weelkes and Tomkins The seventeenth century was the time in English literary history when music was most consciously linked to words and when the mingling of Renaissance and new philosophy opened new discovery routes for the interpretation of art McColley offers close readings of poems and the musical settings of analogous texts and discusses the philosophy performance and disputed political and ecclesiastical implications of polyphony She also enters into the discourse about the nature of language relating poets use of language and composers use of music to larger questions concerning the arts politics and theology      **Renaissance Et Réforme** ,2005
