winds blow They're relaxed, calm, cool, and collected because the secret code provides the foundation for making superior investments the kind that generate wealth to fund more interesting pursuits, provide for their children's education, and fund retirement. Superior investors are not outsmarters; people who try to beat the system through inside advice and superior brainpower but partakers. They know that the best way to make money is to share in the profits of successful businesses. Own a portfolio that looks like the U.S. economy ten years from now. Know the kind of investments they should be making: e.g., pharmaceuticals for profit, education, mind-numbingly boring but extraordinarily profitable companies, and those they should not: e.g., corporate bonds. Understand when to start selling the stocks they've bought almost never, only when the fundamental reasons why they bought in the first place change. Understand how to pick the companies that will make them superior investors. See that bear markets are for buying. We live in a world of increasing uncertainty, but by practicing the principles of The Secret Code of the Superior Investor day in and day out for years on end, your future will indeed be superior. Investing Trading Bundle Welcome to the volatile stock futures options commodities and forex markets Not long ago I wrote a couple short books on my personal individual investor approach to investing Investing in DRIPs and Trading Options on Tech Stocks These two books are bundled here together specifically because I think these cover the two best ways to approach trading and investing But it wasn t exactly an accident My wife recently rolled out her 401k funds from a former employer s control into her own self directed account She asked me what course of action I thought she should take and I laughed Didn t you read my books I said Yes she said intensely glaring at me in that loving way only a wife can do So after several conversations a few examples and looking at some options chains she sold puts in a couple stocks First on Target Corp TGT before the year ended which expired worthless in her favor and now she has some Apple AAPL puts at the 100 level which has been tested a couple times Another good friend we saw at a holiday party was asking me what I would do with a small windfall he had recently received Since I m not a professional financial advisor please understand I don t go

around giving advice These are just my spouse and friend asking my opinion so I feel okay showing them what I know I tell them to educate themselves because this stuff isn't too hard to understand Anyway I told my friend all about DRIPs and how it removed a lot of the fear in the market for me because you start to see the incredible benefits of up and down markets just like with options So even if this market is moving toward a minor pullback with increased volatility or a major correction these are two great investing and trading strategies to get under your belt And the time spent learning just how useful they are has been so worth it for me and my family Good luck to you and yours in the upcoming trading year and enjoy these two books included here in their original versions minus a few formatting changes to create this bundle Easy money-making secret by studying technology trends 1 Cyrus Oh, 2024-07-22 Countless people regret not buying Big tech companies stocks or Bitcoin earlier or not studying AI when they had the chance You might be one of them lamenting missed opportunities due to not recognizing the potential offered by technological advancements This book written by a wealthy author explains technology trends AI VR in an easy and engaging way It also shows how to connect these studies to investment or future income opportunities Readers will gain the insight to seize new wealth building opportunities This book is also great for discovering business ideas conversation topics and educational material You may have missed Bitcoin and Big tech companies but the future is full of endless opportunities Will you miss out again by not learning and staying uninformed This book will be your splendid companion in becoming wealthy and enjoying a happy life in the era of technological singularity
