assessment and judgement of Ancient Egyptian portraiture Condensed in the syntagm different from ours this impasse arises from the polarisation and dichotomy of idealism and realism which characterise the three main Egyptological definitions of portraiture In offering a transcendental definition of art and portraiture that is anthropologically valid the overarching aim of this book is to challenge assessments of Egyptian art and portraiture based on historically particularistic concepts that are foreign to its cultural premises and development

Mistress of the House, Mistress of Heaven Anne K. Capel, Glenn Markoe, 1996 The first of its kind exhibit cataloged here focuses on the women of Egypt from all levels of society in works compiled strictly from American collections by American curators Because the quantity of written records is limited though enormous in comparison to most early societies there is still much guesswork involved in determining the place women held in Egyptian society It is clear that unlike most ancient and not so ancient societies Egypt conferred on women the legal right to own property and to barter their own goods which means a larger record for current study The essays here are both erudite and fascinating to read the illustrations are clear and well presented in conjunction with the text 117 colour 112 b w illustrations

Women in Ancient Egypt Mariam F. Ayad, 2022-11-15 Cutting edge research by twenty four international scholars on female power agency health and literacy in ancient Egypt There has been considerable scholarship in the last fifty years on the role of ancient Egyptian women in society With their ability to work outside the home inherit and dispense of property initiate divorce testify in court and serve in local government Egyptian women exercised more legal rights and economic independence than their counterparts throughout antiquity Yet their agency and autonomy are often downplayed undermined or outright ignored In *Women in Ancient Egypt* twenty four international scholars offer a corrective to this view by presenting the latest cutting edge research on women and gender in ancient Egypt Covering the entirety of Egyptian history from earliest times to Late Antiquity this volume commences with a thorough study of the earliest written evidence of Egyptian women both royal and non royal before moving on to chapters that deal with various aspects of Egyptian queens followed by studies on the legal status and economic roles of non royal women and finally on women s health and body adornment Within this sweeping chronological range each study is intensely focused on the evidence recovered from a particular site or a specific time period Rather than following a strictly chronological arrangement the thematic organization of chapters enables readers to discern diachronic patterns of

team of leading scholars Book jacket *The People of the Cobra Province in Egypt* Wolfram Grajetzki, 2020-04-19 The book delivers a history from below for the first half of Egyptian history covering the earliest settlements state formation and the pyramid age The focus is on the Wadjet province about 350 km south of modern Cairo in Upper Egypt Here archaeological records provide an especially rich dataset for the material culture of farmers Histories of Ancient Egypt have focussed heavily on the kings monuments and inscriptions while the working population is hardly mentioned The book investigates the life of people far from the centres of power One main aim of the book is the interaction between farmers and the ruling classes at the centres of power and locally How did decisions at the royal centre affect the life of ordinary people The Introduction offers a critical survey of Egyptologists and their attitudes towards the working class The social and cultural background of these researchers is analysed to assess how heavily they are influenced by time and their political and cultural background The First chapter then describes the location and gives a history of previous research and excavations The archaeological sites and the recorded ancient place names of the province are presented to provide a geographical framework for the book The following chapters are arranged in chronological order mainly according to the archaeological phases visible in the province It appears that in phases of a weak central government people in the provinces were much better off while in phases of a strong central government burials of poorer people are almost absent The reasons for this are discussed A substantial part of the book comprises descriptions of single burials and the material culture in the province The archaeology of the poorer people is the main focus Burial customs and questions of production are discussed For a fuller picture evidence from other parts of Egypt is also taken into account Thus settlement sites in other regions are presented to provide contemporary evidence for living conditions in particular periods As the book will focus on the lower classes the Tributary Mode of Production will be used as the main theoretical framework The Tributary Mode of Production previously known as the Asiatic Mode of Production is a term that goes back to Karl Marx but was mainly used in the 20th century to describe ancient societies whose economies were not based on slaves A constant question will be the status of the working population Were they slaves serfs or free citizens It will be argued that they were most often in a dependent position comparable to that of serfs while there is little evidence for slavery The numerous burials presented in the volume are important for highlighting the diversity of burials in the different periods Many will be placed in special subchapters Readers can skip these chapters when they prefer to concentrate on the main text

Sesostris - Scheschonq - Sesonchosis, 2024-07-29 Why Sesostris Why does the classical antiquity tell stories about this Egyptian hero king of the second millennium BC On which basis The contributions of this conference volume try to systematically answer the question how these narratives come into being and grow It is not a single historical king Sesostris Rather the literary tradition of two millennia augments the story with the later Sheshonq kings makes Sesostris the international hero of demotic narratives and finally leads to the Greek Sesonchosis Romance which itself is widely received All this takes place in an international cultural context Warum gerade Sesostris

Warum werden ausgerechnet bei diesen ägyptischen Königen des frühen zweiten Jahrtausends v. Chr. in der Klassischen Antike Heldengeschichten erzählt? Auf welcher Grundlage? Die Beiträge dieses Tagungsbandes gehen systematisch der Frage nach, wie diese Erzählungen entstehen und wachsen. Es ist nicht ein einziger literarischer König, Sesostrius. Vielmehr reichert die literarische Tradition bei zwei Jahrtausenden den Stoff um die späteren Scheschonq Könige an. Macht Sesostrius zu einem internationalen Helden, demotischer Erzählungen und führt zum griechischen Sesonchosis Roman. All dies geschieht in einem internationalen kulturellen Rahmen.

The Political Situation in Egypt During the Second Intermediate Period, C. 1800-1550 B.C. K. S. B. Ryholt, Adam Bülow-Jacobsen, 1997. The Second Intermediate Period designates the 250-year period 1800-1550 BC which separates the two glorious periods of the Middle Kingdom and the New Kingdom. During the 19th century BC an invasion by Canaanite tribes into the Delta took place. Around 1800 BC these people proclaimed their own king and the Delta thus became independent from the rest of Egypt. Egypt remained split between the Canaanitic rulers in the North and the native Egyptian Kings in the South for the rest of the Second Intermediate Period. The division of Egypt brought about an economic decline and the entire period is characterized by a lack of royal monuments. This circumstance has greatly hampered any attempts to establish a chronology of the period and as a consequence it has been very difficult to date many sources which are relevant for the social and political situation of the period. The Second Intermediate Period has therefore remained one of the most obscure periods of Egypt's ancient history. The dissertation is a new attempt to establish a chronology for the Second Intermediate Period and define the different kingdoms, their territories and political relations. The study consists of four main chapters, three appendixes, a catalogue of sources, bibliography and indices. Included is a catalogue of all the historical sources about 1500 known to certify the names of the Egyptian kings of the Second Intermediate Period. Each source is described in terms of type, origin and present location, followed by bibliographical references.

The Archaeology of Egypt in the Third Intermediate Period James Edward Bennett, 2019-09-26. This book is aimed at students, teachers and academics who have an interest in the study of urbanism in Egypt and the ancient world. This book provides for the first time an up-to-date comprehensive analysis of Egyptian urbanism during the Third Intermediate Period 1076-664 BCE.

The Middle Kingdom of Ancient Egypt Wolfram Grajetzki, 2024-05-16. For the ancient Egyptians the Middle Kingdom c. 2000-1700 BC was a classical period of art, history and literature. The Twelfth Dynasty was one of the strongest ever to rule on the banks of the Nile; some of its kings were later worshipped as local gods and were made famous by classical Greek authors. Yet Egyptologists tend not to look beyond the extraordinary royal sculpture and literary masterpieces of the time. Although the picture is fragmentary, as with any archaeological record, the last two hundred years of exploration and excavation have revealed much of the splendour of the period. This book examines the evidence for the culture, history and society of both central and provincial Egypt at the time, revealing the wealth of the entire country. In this second edition, Wolfram Grajetzki incorporates recent discoveries, discussions and publications which have emerged over the intervening

fifteen years including new excavation reports for the mastabas at Lisht and excavations at Abydos Too often overshadowed by the better preserved architecture of other periods Middle Kingdom Egypt emerges for the reader as a fascinating age in its own right The Art of Ancient Egypt Gay Robins,2008 An illustrated history of over 3 000 years of Egyptian artwork arranged chronologically from the early dynastic period to the Ptolemaic period **The Art and Architecture of Ancient Egypt** William Stevenson Smith,William Kelly Simpson,1998-01-01 A survey of Egyptian art and architecture is enhanced by revised text an updated bibliography and over four hundred illustrations *Hatshepsut, from Queen to Pharaoh* Metropolitan Museum of Art (New York, N.Y.),2005 A fascinating look at the artistically productive reign of Hatshepsut a female pharaoh in ancient Egypt
