A History of Architectural Modelmaking in Britain David Lund, 2022-12-16 Architectural modelmakers have long carried out their work hidden behind the scenes of architectural design and in presenting a history of architectural modelmaking in Britain for the first time this book casts a new light on their remarkable skills and achievements By telling the story of the modelmakers who make architectural models rather than architects who commission and use them this book seeks to celebrate their often overlooked contribution to the success and endurance of the architectural model in Britain over the past one hundred and forty years Drawing from extensive archival research and interviews with practicing and retired modelmakers this book traces the complete history of architectural modelmaking in Britain from its initial emergence as a specialist occupation at the end of the nineteenth century through to the present day It reveals the legacy of John Thorp the first professional architectural modelmaker in Britain who opened his business in London in 1883 and charts the lives and careers of the innovative and creative modelmakers who followed him It examines the continually evolving materials tools and processes of architectural modelmaking and outlines the profound ideological economic and technological influences that have shaped the profession's development Illustrated with over one hundred photographs of architectural models from previously undocumented archives this book will be of great interest to architectural modelmakers academics and historians as well as anyone with an interest in architectural history and

modelmaking *The Core Model* Ibis Sanchez Serrano,2019-06-04 The Core Model A Collaborative Paradigm for the Pharmaceutical Industry and Global Health Care develops the innovative core model an organizational research and design paradigm and economic theory that proposes a collaborative approach to resolving global health issues and improving the productivity of drug development The model proposes that scientific collaboration does not occur in an unstructured manner but actually takes place within a highly structured order where knowledge is transferred integrated and finally translated into commercial products An understanding of this model will help solve the global pharmaceutical industry s productivity problems and address important global health care and economic issues This book is useful to researchers advanced students regulators and management in pharmaceutical industries as well as healthcare professionals those working in health economics and those interested in scientific innovation processes Explores the current state of the art in the pharmaceutical industry and the global healthcare sector Includes insights from world leading figures in the pharmaceutical industry healthcare sector federal funding agencies regulatory bodies investment sector entrepreneurship intellectual property law philanthropic organizations and advocacy groups Develops in depth original concepts which have important implications in the understanding of and search for potential solutions to the world s health care crisis **The Living Goddesses** Marija Gimbutas,2001-01-12 Presents evidence to support the author s woman centered interpretation of prehistoric civilizations considering the prehistoric goddesses gods and religion and discussing the living goddesses deities which have continued to be venerated through the modern era *World History Encyclopedia [21 volumes]* Alfred J.
