Gutek,1994-12-14 This comprehensive volume examines the impact on education of such momentous world events as the ascendancy of neo Conservatism the collapse of the Soviet system the end of the Cold War the reunification of Germany and the resurgence of ethnonationalism It creates an historical perspective by identifying and analyzing the significant formative ideas and institutions that have shaped the Western educational heritage **World Yearbook of Education 1984** Sandra Acker,Jacquetta Megarry,Stanley Nisbet,Eric Hoyle,2013-03-07 Published in the year 2005 World Yearbook of Education 1984 is a valuable contribution to the field of Major Works The Anthropology of Learning in Childhood David F. Lancy,John Bock,Suzanne Gaskins,2010-01-15 The Anthropology of Learning in Childhood offers a large mural like portrait of childhood across time culture species and environment Even a casual reading of the literature on childhood will persuade one that learning is a very important topic that commands the attention of tens of thousands of scholars and practitioners Yet anthropological research on children has exerted relatively little influence on this community This book will change that The book demonstrates that anthropologists studying childhood can offer a description and theoretically sophisticated account of children s learning and its role in their development socialization and enculturation Further it demonstrates the particular contribution that children s learning makes to the construction of society and culture as well as the role that culture acquiring children play in human evolution Chapters have been contributed in archaeology primatology biological and cultural anthropology and cross cultural psychology A History of the Western Educational Experience Gerald Lee Gutek,1987 While retaining the first edition s essential features this second edition continues to create an historical perspective for students of education by identifying analyzing the significant formative ideas institutions that have shaped the western educational heritage **The Education Feminism Reader** Lynda Stone,Gail Masuchika Boldt,1994 This anthology includes some of the most important and influential essays in feminist education theory since the late 70s Contributors are drawn from traditional liberal feminists radical postmodern theorists and those with psychological philosophical and political agendas Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1971 **Critical Issues in Peace and Education** Peter Pericles Trifonas,Bryan Wright,2014-04-04 This collection asks theorists and educational practitioners from around the world influenced by the schools of feminist pedagogy critical pedagogy anti racist or postcolonial pedagogy and gay and lesbian pedagogy to reflect upon the possibilities of articulating a curriculum of difference that critically examines the cross cultural issues of peace and education that are at the forefront of global education issues today Contributors examine the conceptualizations of peace and education within between and across cultures through the conceptualization of pedagogical possibilities that create an openness toward the horizons of the other within communal formations of difference permeating the public sphere They take

up new ways of questions related to globalization difference community identity peace democracy sexuality ethics conflict politics feminism technology language rights cultural politics Marxism and deconstruction that have a vast literary history in and outside the area of education This volume makes a significant contribution to the question of difference and its quintessential role in peace education for the new millennium **Enhancing Humanity** N. Aloni, 2007-10-01 In Jean Paul Sartre's Nausea Roquentin feels bound to listen to the sentimental ramblings about humanism and humanity by the Self Taught Man Is it my fault muses Roquentin in all he tells me I recognize the lack of the genuine article Is it my fault if as he speaks I see all the humanists I have known rise up I have known so many of them And then he lists the radical humanist the so called left humanist and Communist Humanist the Catholic humanist all claiming a passion for their fellow men But there are others a swarm of others the humanist philosopher who bends over his brothers like a wise older brother with a sense of his responsibility the humanist who loves men as they are the humanist who loves men as they ought to be the one who wants to save them with their consent and the one who will save them in spite of themselves Quite naturally the skeptical Roquentin ends by saying how they all hate each other as individuals not as men Fully aware of the misuse and false comfort in the use of the term Professor Aloni proceeds to restore meaning to the word as well as appropriate its educational significance There is a freshness in this book a restoration of a lost clarity a regaining of authentic commitment
