Modern China An Interpretive Anthology:

Modern China Joseph Richmond Levenson, 1979 *Modern China* Joseph Richmond Levenson, 1970 **The Mozartian Historian** Joseph Levenson, 2021-01-08 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 **The George Hicks Collection** Eunice Low, 2016-07-18 The George Hicks Collection at the National Library Singapore comprises about 6 900 books and materials donated between 200 and 2015 by Mr George Lyndon Hicks The Collection focuses on four main subject areas Southeast Asia China Japan and overseas Chinese spanning the disciplines of history sociology economics political science and anthropology The body of works in the Collection reveals Mr Hicks profound interest in Asia and his scholarly pursuits over the decades This volume written and compiled by Eunice Low presents an annotated bibliography of selected works from the Collection and highlights significant titles Also included are an overview of the life and career of Mr Hicks a list of his authored and edited works as well as essays introducing the chapters *Occidentalism* Xiaomei Chen, 1995-09-07 Xiaomei Chen offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post Mao China from 1978 1988 Chen examines the cultural and political interrelations between the East and West from a vantage point more complex than that accommodated by most current theories of Western imperialism and colonialism Going beyond Edward Said's construction in *Orientalism* of cross cultural appropriations as a defining facet of Western imperialism Chen argues that the appropriation of Western discourse what she calls Occidentalism can have a politically and ideologically liberating effect on contemporary non Western culture Using China as a focus of her analysis Chen examines a variety of cultural media from Shakesperian drama to Western modernist poetry to contemporary Chinese television She thus places sinology in the general context of Western theoretical discourses such as Eurocentrism postcolonialism nationalism modernism feminism and literary hermeneutics showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship Occidentalism presents a new model of comparative literary and cultural studies that reenvisions cross cultural appropriation **Japan, China, and the Modern World Economy** Frances V. Moulder, 1976 **Heritage Politics in China** Yujie Zhu, Christina Maags, 2020-01-02 *Heritage Politics in China The Power of the Past* studies the impact of heritage policies and discourses on the Chinese state and Chinese society It sheds light on the way Chinese heritage policies have transformed the narratives and cultural practices of the past to serve the interests of the present As well as reinforcing a collective social identity heritage in China has served as an instrument of governance and regulation at home and a tool to generate soft power abroad Drawing on a critical analysis of heritage policies and laws empirical case studies and interviews with policymakers practitioners and local communities the

authors offer a comprehensive perspective on the role that cultural heritage plays in Chinese politics and policy. They argue that heritage making appropriates international, national and local values, thereby transforming it into a public good suitable for commercial exploitation. By framing heritage as a site of cooperation, contestation and negotiation, this book contributes to our understanding of the complex nature of heritage in the rapidly shifting landscape of contemporary China.

Heritage Politics in China: The Power of the Past is essential reading for academics, researchers and students in the fields of heritage studies, cultural studies, Asian studies, anthropology, tourism and politics. — *China Unbound* Paul A. Cohen, 2003

This is a collection by one of the leading experts on modern Chinese history and historiography, Paul Cohen. In this absorbing volume, he consistently argues for fresh ways of approaching the Chinese past, training his critical spotlight alternately on Western historians, Chinese historians and the history itself. The selection provides a persuasive critique of older approaches to nineteenth and twentieth century history and offers powerful reinterpretations of such diverse topics as the Boxer uprising, American China, historiography, nationalism, popular religion and reform. While maintaining the view that culture is important, the author also suggests that the claims of Western and Chinese cultural difference have largely been exaggerated and have unnecessarily encouraged cultural stereotyping and caricaturing. Paul Cohen suggests, by repeatedly foregrounding common elements in the thinking and behaviour of Chinese and non-Chinese, that historians can render China's history intelligible, meaningful and even relevant to people in the West. With the application of the China-centred approach to recent areas of scholarly interest and the expansion and rewriting of essays on more traditional topics, Paul Cohen has written a significant contribution to the literature on Chinese history and historiography.

China Deconstructs David S.G. Goodman, Gerald Segal, 2002-03-11

China has experienced the world's fastest economic growth for over a decade. It is likely that within a generation, China will have the world's largest economy. Yet at the moment when China looks set to regain its former power, serious questions have to be asked about the continuing integrity of China. The challenges posed by economic reform, succession politics and new forces of political liberalism are compounded by boundary uncertainties as China adopts a strategy of greater interdependence with the regional and global economy. The writers of this book analyse the factors that might lead to, and that might prevent, the break up of China. They provide key data about economic activity and external connections of the major regional forces. Their analysis provides essential reading for those concerned with the prospects for China and the future stability of East Asia.

Rising China and Its Postmodern Fate Charles Horner, 2010-01-25

China's sense of today and its view of tomorrow are both rooted in the past, and we need to understand that connection, says China scholar Charles Horner. In *Rising China and Its Postmodern Fate*, Horner offers a new interpretation of how China's changed view of its modern historical experience has also changed China's understanding of its long intellectual and cultural tradition. Spirited reevaluations of history, strategy, commerce and literature are cooperating and competing to define the future. The capstone of modern China was the founding of the People's Republic in 1949 and its rejection of Confucianism, capitalism and

modernity Yet today's rising China retains few vestiges of what Mao wrought What then Horner asks is post Mao postmodern China Where did it come from How did it get here Where is it going Contemporary views of the great periods in Chinese history are having a significant influence on the development of rising China's national strategy says Horner He looks at the revival of interest in and changing interpretations of three dynasties the Yuan 1272 1368 the Ming 1368 1644 and the Qing 1644 1912 that together with the People's Republic of China provide examples of great power success The future of every major country is now connected to China's and this book explains how China now seeing itself as the complex and thriving result of the old and the new is poised to change the world
