Griffin, 1998-07-27 Despite the outpouring of works on constitutional theory in the past several decades no general introduction to the field has been available Stephen Griffin provides here an original contribution to American constitutional theory in the form of a short lucid introduction to the subject for scholars and an informed lay audience He surveys in an unpolemical way the theoretical issues raised by judicial practice in the United States over the past three centuries particularly since the Warren Court and locates both theory and practices that have inspired dispute among jurists and scholars in historical context At the same time he advances an argument about the distinctive nature of our American constitutionalism regarding it as an instance of the interpenetration of law and politics American Constitutionalism is unique in considering the perspectives of both law and political science in relation to constitutional theory Constitutional theories produced by legal scholars do not usually discuss state centered theories of American politics the importance of institutions behaviorist research on judicial decision making or questions of constitutional reform but this book takes into account the political science literature on these and other topics The work also devotes substantial attention to judicial review and its relationship to American democracy and theories of constitutional interpretation The Lyric Theory Reader Virginia Walker Jackson, Yopie Prins, 2014-02 Reading lyric poetry over the past century The Lyric Theory Reader collects major essays on the modern idea of lyric made available here for the first time in one place Representing a wide range of perspectives in Anglo American literary criticism from the twentieth and twenty first centuries the collection as a whole documents the diversity and energy of ongoing critical conversations about lyric poetry Virginia Jackson and Yopie Prins frame these conversations with a general introduction bibliographies for further reading and introductions to each of the anthology's ten sections genre theory historical models of lyric New Criticism structuralist and post structuralist reading Frankfurt School approaches phenomenologies of lyric reading avant garde anti lyricism lyric and sexual difference and comparative lyric Designed for students teachers scholars poets and readers with a general interest in poetics this book presents an intellectual history of the theory of lyric reading that has circulated both within and beyond the classroom wherever poetry is taught read discussed and debated today *A Theory of Textuality* Jorge J. E. Gracia, 1995-07-01 This is the first comprehensive and systematic theory of textuality that takes into account the relevant views of both analytic and Continental thinkers and also of major historical figures The author shows that most of the confusion surrounding textuality is the result of three factors a too narrow understanding of the category a lack of a proper distinction among logical epistemological and metaphysical issues and a lack of proper grounding of epistemological and metaphysical questions on logic analyses The author begins with a logical analysis of the notion of text resulting in a definition that serves as the basis for the distinctions he subsequently draws between texts on the one hand and language

artifacts and art objects on the other and for the classification of texts according to their modality and function The second part of the book uses the conclusions of the first part to solve the various epistemological issues which have been raised about texts by philosophers of language semioticians hermeneuticists literary critics semanticists aestheticians and historiographers
