meaning that is portrayed in the form of a painting Basically modern art was produced during the year 1870 to 1970 There are many artists who love to do modern art In fact there are many institutes who offer modern art courses for the interested candidates The modern artists have refrained using the bygone traditions in painting and did a lot of experiments in producing stupendous paintings that are commendable They tried different forms of paintings using unique techniques different materials and developed new theories on how actually art should portray the world and what all things that an artist have to perceive in order to reflect exactly his thoughts on the painting board Moreover during 180 to 1970 there are umpteen art forms were being developed As per the history the modern art was observed by a Frenchman called Edouard Manet during the 18th century But it was believed that the modern art was started before Frenchman by Pre Raphaelite Brotherhood as the arts drew by these people lack traditional academic art form in between 18 and 19th century After Pre Raphaelites there are different amendments and movements took place in the art world And those path breaking movements include Art Nouveau Cubism Expressionism Abstract Expressionism Dada Surrealism and Pop Art Orphism Social Realism Op Art Feminist art etc In fact the modern art also gave birth to a medium called photography that is taking the art world by storm in today s era Apart from photography the other art forms that are developed in the recent times include animation collage cinematography etc However modern art has no trend to categorize it but was developed after cubism in terms of abstract art i e painting and sculpture In today s era modern art is being explored in different forms such as Constructivism Suprematism Colour Field Op Art etc Basically many of the modern artists will reject the past art as they believe that those arts do not help in the development of new art forms and do not help the new artists in any way Moreover industrial revolution gave new ideas for the artists and they are evincing interest in bringing the change in the way they paint the fine arts Moreover modern art is considered to be much closer to the modern life over art in the bygone era In fact the artists portraying their views about the world is being better represented in modern art over the art in the preceding centuries There are many different kinds of art styles that are being defined during 1860 to 1960 and it is quite cumbersome for the people to find which art has actually defined the modern art The key difference between modern artists and the traditionalists is that self belief Basically art is being valued and appreciated by the people if it portrays some important values of life

Boundaries of Modern Art Richard Pooler,2013-02-04 Conceptual art in the Western world is in crisis That is the view of many people who are disillusioned with what they regard as its attention seeking antics where artists themselves have proudly proclaimed the death of art Why has art been on this road to destruction and how did it get there How does one make sense of the bewildering complexity of Conceptual art and how does one extract meaning from its diverse and sometimes bizarre manifestations This predicament needs explanation and an exploration of the theoretical underpinnings of modern and contemporary art and a means to evaluate it This book starts with a summarised overview of the major art movements since the beginning of the twentieth century a tracing of the extraordinary journey that art has followed in modern times The next part considers contemporary art movements to explore whether they have value and how that value can be determined Are the activities that take place in the name of art actually art Or as some would have it is it a gigantic sham manipulated by clowns to make a trap for fools To some it is an outrage that modern and contemporary artists can splash paint around quickly and freely with a modicum of skill or assemble a range of found objects and regard themselves as gifted and creative artists Others see this as a new forward rolling wave with art at last released from the suffocation and restrictions of the past

The rules have been cast aside There are fresh ways of exploring and seeing the world and expressing it freely The world is constantly changing and art must change with it Modern art has followed a long journey Traditions have been largely cast aside and replaced with an unceasing search for the new Our apparent progress is now being questioned Where do we go from here Are we on the right road The second half of this book discusses how we can make sense of contemporary art and assign value to an artwork Traditional painting and sculpture have physical limits Conceptual art does not This is a new freedom but is it freedom for art or freedom from art
