Modern Commercial Aircraft:

Modern Commercial Aircraft William Green, Gordon Swanborough, John Mowinski, 1988-09-12 Magnificently illustrated directory of all the world's civil airliners currently in service and under development Special chapters examine the state of the art in aircraft technology flight decks cabins airframes and engines *Modern Commercial Aircraft* Günter G.

Endres, 1998 The world of aviation design and technology and air travel in general is a rapidly changing one and Gunter Endres has made this a book to last into the next century **The Concise Illustrated Book of Modern Commercial**

Aircraft D. Avery, 1989 **Commercial Aircraft Projects** Hans-Henrich Altfeld, 2016-09-19 When it comes to very highly complex commercially funded product development projects it is not sufficient to apply standard project management techniques to manage and keep them under control Instead they need a project management approach which is perfectly adapted to their complex nature This however may generate additional cost and a dilemma arises because in commercially driven product developments there is the natural tendency to limit the management related costs The development of a new commercial aircraft is no exception In fact it can be regarded as an extreme example of this kind of project This is why it is especially useful to analyse the project management capabilities and practices needed to manage them Cost reductions can still be achieved by concentrating on the essential elements of some project management disciplines to maintain their principal strengths and combining them in a pragmatic way on the basis of an integrated architecture This book goes beyond descriptions of management disciplines found elsewhere in its treatment of the architecture integration necessary to interlink product process and resources data Only with this connectedness can the interoperation of the management essentials yield maximum efficiency and effectiveness **Commercial Aircraft Projects Managing the Development of Highly Complex Products** proposes an integrated architecture and details step by step how it can be used for the management of commercial aircraft development projects The findings can also be applied to other industrial sectors that produce complex hardware based on design inputs **The Illustrated Directory of Modern Commercial Aircraft** Gunter Endres, 2001 Spectacularly illustrated details of all the world's major airliners commuter planes and cargo carriers in service today

The Global Commercial Aviation Industry Sören Eriksson, Harm-Jan Steenhuis, 2015-07-16 This book provides a state of the art overview of the changes and development of the civil international aircraft aviation industry It offers a fully up to date account of the international developments and structure in the aircraft and aviation industries from a number of perspectives which include economic geographical political and technological points of view The aircraft industry is characterized by very complex high technology products produced in relatively small quantities The high technology requirements necessitate a high level of R D In no other industry is it more of inter dependence and cross fertilisation of advanced technology Consequently most of the world's large aircraft companies and technology leaders have been located in Europe and North America During the last few decades many developing countries have tried to build up an internationally

competitive aircraft industry The authors study a number of important issues including the political economy of the aircraft industry globalization in this industry innovation newly industrializing economies and the aircraft industry This book also explores regional and large aircraft transformation of the aviation industry in Central and Eastern Europe including engines airlines airports and airline safety It will be of great value to students and to researchers seeking information on the aircraft industry and its development in different regions **The Illustrated Directory of Modern Commercial Aircraft** Günter G. Endres, 2001
