Food Forensics James F. Carter, Lesley A. Chesson, 2017-07-28 Food forensics is a multi disciplinary science involving advanced analytical techniques plant and animal metabolism and sophisticated data interpretation tools This book explains how plants and in turn animals eating those plants assimilate stable isotopes and trace elements from their environments It provides extensive reviews of the use of stable isotope and trace element measurements for the authentication of major food groups and how these can be used to detect fraudsters The book emphasises the use of correct methods for sample preparation and measurement so that data can be compared to existing datasets with a dedicated chapter discussing interpretations

Contrarian Commentary Mel Fisher, 2024-04-29 How did bananas come to be Who is the most useless member of society What do language fads tell us about the history of human development What would space aliens say about our well kept lawns These short pieces and essays provide thought provoking and entertaining social commentary from a point of view not usually seen that is Contrarian Written for a small town Dryden Ontario newspaper and the author's blog between 2012 and 2023 Mel Fisher appeals to the common sense of the common people writing about everything from breakfast cereal to Darwin to global warming to God Contrarian Commentary pokes fun at the foibles of modern life questions mainstream media and celebrates the profound strangeness of humanity on the blue and green planet we call home

Engaging with Animals Georgette Leah Burns, Mandy Paterson, 2018-08-30 Experts in the field of human animal studies investigate the ways in which humans and other animals interact While offering different interpretations of the human non human interactions they share a common goal in attempting to find pathways leading to a mutually beneficial and shared co existence

Rafferty,2001-01-01 The Ozark Mountains reach into Missouri Arkansas Oklahoma and Kansas forming a region with great natural beauty and a distinctive cultural and historical landscape This comprehensive volume a fully updated edition of a

beloved classic reaches into history anthropology economics and geography to explore the complex relationships between the Ozarks people and land through times of profound change Drawing on more than thirty years of research field observations and interviews Rafferty examines this subject matter through a range of topics the settlement patterns and material cultures of Native Americans French Scotch Irish Germans Italians African Americans Hispanics and Asians in the region population growth the guerrilla warfare and battles of the Civil War the cultural transformations wrought by railroads roads mass media and modern communication systems the discovery development and decline of the great mining districts the various forms of agriculture and the felling of the region s vast forests and the built landscape from log cabins to Victorian mansions to strip malls This new edition also explores the new and potent forces which have reshaped the region over the last twenty years tourism and the growing service industry suburbanization rapid population growth and retirement living and agribusiness Lavishly illustrated with historic and contemporary photographs maps and charts Publisher s description

Animals and Modern Cultures Adrian Franklin, 1999-03-30 The dramatic transformation of relationships between humans and animals in the 20th century are investigated in this fascinating and accessible book At the beginning of this century these relationships were dominated by human needs and interests modernization was a project which was attached to the goal of progress and animals were merely resources to be used on the path towards human fulfilment These relationships are increasingly being subjected to criticism and a new field of interest in human animal relationships has opened up We are now urged to be more sensitive and compassionate to animal needs and interests to understand their mindedness and how their lives and ours are entangled This book focuses on social change and animals it is concerned with how humans relate to animals and how this has changed and why Moreover it highlights through chapters on companion animals hunting and fishing animal leisure such as birdwatching and wildlife parks and the meat and livestock industries how attitudes and practices towards animals vary widely according to social class ethnicity gender region and nation
