Human-Animal Relations in the Byzantine World Przemysław Marciniak,Tristan Schmidt,2024-12-03 Animals have recently become recognized as significant agents of history as part of the animal turn in historical studies Animals in Byzantium were human companions a source of entertainment and food it is small wonder that they made their way into literature and the visual arts Moreover humans defined themselves and their activities by referring to non human animals either by anthropomorphizing animals as in the case of the Cat Mice War or by animalizing humans and their un wanted behaviours The Routledge Handbook of Human Animal Relations in the Byzantine World offers an in depth survey of the relationships between humans and non human animals in the Byzantine Empire The contributions included in the volume address both material zooarchaeology animals as food visual representations of animals and immaterial semiotics philosophy aspects of human animal coexistence in chapters written by leading experts in their field This book will appeal to students and scholars alike researching Byzantine social and cultural history as well as those interested in the history of animals This book marks an important step in the development of animal studies in Byzantium filling a gap in the wider research on the history of human animal relations in the Middle Ages *Byzantine Butrint* Richard Hodges,William Bowden,Kosta Lako,2020-02-28 The ancient walled town of Butrint sits at the crossroads of the Mediterranean In its heyday it could command sea routes up the Adriatic Sea to the north across the Mediterranean to the west and south through the Ionian islands It also controlled a land route into the mountainous Balkan interior For much of its long history it occupied a hill on a bend in the Vivari Channel which connects the Straits to the large inland lagoon of Lake Butrint Designated a UNESCO World Heritage site in 1992 Butrint covers an area of around 16 ha but geophysical survey has shown that at times it was almost twice this size The site itself is made up of two parts the acropolis and the lower city The acropolis is a long narrow hill whose sides are accentuated by a circuit of walls that separate it from the natural and artificial terraces gathered around the flanks of the hill The lower city occupies the lower lying contours down to the edge of the Vivari Channel This book brings to life this extraordinary Byzantine town with chapters on the historical sources various aspects of the archaeological excavation and survey finds of pottery and environmental remains **L'art byzantin** Charles Delvoye,1967-01-01T00:00:00+01:00 Cet ouvrage est une r dition num rique d un livre paru au XXe si cle d sormais indisponible dans son format d origine *Byzantine Epirus* Myrto Veikou,2012-05-25 This text draws on five years of archaeological and topographical fieldwork in order to attempt a re reading of Byzantine texts in accordance with recent perceptions of the historicity of space *Fountains and Water Culture in Byzantium* Brooke Shilling,Paul Stephenson,2016-10-13 This book restores the fountains of Roman Byzantium Byzantine Constantinople and Ottoman Istanbul reviving the sounds shapes smells and sights of past water cultures Constantinople the

capital of the Byzantine and Ottoman Empires is surrounded on three sides by sea and has no major river to deliver clean potable water. However, the cultures that thrived in this remarkable waterscape through millennia have developed and sustained diverse water cultures and a water delivery system that has supported countless fountains, some of which survive today. Scholars address the delivery system that conveyed and stored water and the fountains, large and small, from which it gushed. Papers consider spring water, rainwater, and seawater, water suitable for drinking, bathing, and baptism, and fountains, real, imagined, and symbolic. Experts in the history of art and culture, archaeology and theology, and poetry and prose offer reflections on water and fountains across two millennia in one location. **Mosaïques paléochrétiennes et byzantines**

Vladimir Vasil'evič forme avant 2007 Vejdle, 1954 *Early Christianity in Macedonia* Julien M. Ogereau, 2023-10-09 In this volume, Julien M. Ogereau investigates the origins and development of Christianity in the Roman province of Macedonia in the first six centuries CE. Drawing from the oldest literary sources, Ogereau reconstructs the earliest history of the first Christian communities in the region and explores the legacy of the apostle Paul in the cities of Philippi, Thessalonica, and Beroea. Turning to the epigraphic and archaeological evidence, Ogereau then examines Christianity's dissemination throughout the province and its impact on Macedonian society in late antiquity, especially on its epigraphic habits and material culture.

Entre mémoire et pouvoir Antoine Borrut, 2010-11-11 Cet ouvrage entend d' montrer qu' une solide culture de l' écriture de l' histoire existait dans la Syrie du 2^e au 8^e siècle et propose de nouvelles approches méthodologiques afin d' offrir un accès vers cette historiographie perdue tiraillée entre mémoire et oubli. En étudiant la fabrication des héros omeyyades ou des mythes d' origines abbassides, cette étude s' efforce de mettre au jour les significations successives données à l' histoire syrienne et d' identifier les différentes strates d' écritures et de réécritures de l' histoire au cours des premiers siècles de l' islam. L' ensemble de ces éléments conduit à proposer une histoire du sens de l' espace syrien articulée autour de la thématique du pouvoir qui donne une profonde cohérence à la période par-delà la césure dynastique de 132-750. This book intends to demonstrate that a robust culture of historical writing existed in 2nd-8th century Syria and to offer new methodological approaches to access this now lost history torn between memory and oblivion. By studying the making of Umayyad heroes or Abbasid origins myths, this study aims to reveal the successive meanings granted to Syrian history and to identify the various layers of historical writing and rewriting during the first centuries of Islam. Taken together, these elements make possible a history of the meaning of the very space of Syria articulated around power and its expression, which grants a clear coherence to the period extending well beyond the dynastic caesura of 132-750. Byzantine Court Culture from 829 to 1204 Henry Maguire, 2004 The imperial court in Constantinople is central to the outsider's vision of Byzantium. However, in spite of its fame in literature and scholarship, there have been few attempts to analyze the court in its entirety as a phenomenon. These studies provide a unified composition by presenting Byzantine courtly life in all its interconnected facets. *Rhetoric, Nature and Magic in Byzantine Art* Henry Maguire, 1998 This is an examination of rhetoric, nature, and magic in Byzantine art. The text explores

artistic conventions and descriptions of works of art from early Christian and Byzantine art and middle and late Byzantine art
