No Lost Certainties To Be Recovered:

No Lost Certainties To Be Recovered Gregorio Kohon, 2018-03-26 This book looks beyond both theory and practice to the politics and cultural resonances of psychoanalysis in the torments and anxiety of artistic endeavour and in the urgent and wearying sense of the blindness of our troubled history and politics in Israel and in South America

Introducing Psychoanalysis Susan Budd, Richard Rusbridger, 2005 Introducing Psychoanalysis brings together leading analysts to explain what psychoanalysis is and how it has developed providing a fascinating overview of the wide variety of psychoanalytic ideas that are current in Britain today

Clinical Fictions Jeffrey Berman, 2025-07-14 Clinical Fictions Psychoanalytic Novelists and Short Story Writers is the first book to explore works of fiction written by prominent psychoanalysts Broken down into thematic sections the book traces the literary output of pioneering psychoanalysts such as Julia Kristeva Bruce Fink Thomas Odgen and Gregorio Kohon among others Berman looks at works of historical fiction detective fiction and the short story and shows how recurring themes typical of these genres can be understood both psychoanalytically and through a literary lens The works included investigate experiences of childhood adversity life in dystopian societies experiences of psychosis bodily autonomy personal loss and above all trauma Unpacking these themes and their depiction through fiction Berman gives the reader the tools to apply psychoanalytic literary theory to further works Interweaving his personal correspondence with authors including a heartwarming exchange with Cliff Wilkerson Berman offers unparalleled access to the inner workings of the writers minds This book will be of interest to students and researchers using psychoanalytic literary theory as well as mental health practitioners who are interested in the intersections between literature and psychoanalysis and discovering new ways of probing the unspoken and unconscious

Dilemmas in the Consulting Room Helen Alfile, Judy Cooper, 2018-05-08 Every therapist is faced with dilemmas in the consulting room While psychoanalysis has concentrated on the issues of theory and technique there has not been much material available on the actual clinical exchanges in the consulting room The papers in this volume deal with practical matters within the consultation room as well as emotional responses reflections on the therapeutic relationship and issues such as violence and suicide This volume acts as a guide which can help therapists overcome certain problems and develop their own clinical style within a holding framework

Love and Its Vicissitudes André Green, Gregorio Kohon, 2006-02 In Love and its Vicissitudes Andr Green and Gregorio Kohon draw on their extensive clinical experience to produce an insightful contribution to the psychoanalytic understanding of love In Part I To Love or Not to Love Eros and Eris Andr Green addresses some important questions What is essential to love in life What in the psychoanalytic method is related to it Should we understand love by referring to its earliest and most primitive roots Or should we take as our starting point the experience of the adult He argues that while science has made no contribution to our understanding of love art literature and especially poetry are the best introduction to it In Part II Love in the Time of Madness Gregorio Kohon provides a detailed clinical study of an individual suffering a psychotic breakdown He

describes how the exclusive as well as the intense lasting dependence to a primary carer create the conditions for a normal madness to develop This is not only at the source of later psychotic states and the perversions but also at the origin of all forms of love as demonstrated in its re appearance in the situation of transference Love and its Vicissitudes moves beyond conventional psychoanalytic discourse to provide a stimulating and revealing reflection on the place of love in psychoanalytic theory and practice

The Dead Mother Gregorio Kohon, 2005-08-16 The Dead Mother brings together original essays in honour of Andr Green Written by distinguished psychoanalysts the collection develops the theme of his most famous paper of the same title and describes the value of the dead mother to other areas of clinical interest psychic reality borderline phenomena passions and identification The concept of the dead mother describes a clinical phenomenon sometimes difficult to identify but always present in a substantial number of patients It describes a process by which the image of a living and loving mother is transformed into a distant figure a toneless practically inanimate dead parent In reality the mother remains alive but she has psychically died for the child This produces a depression in the child who carries these feelings within him into adult life as the experience of the loss of the mother's love is followed by the loss of meaning in life Nothing makes sense any more for the child but life seems to continue under the appearance of normality The Dead Mother is a valuable contribution to literature on psychoanalytic and psychotherapeutic approaches to grief loss and depression

Reflections on the Aesthetic Experience Gregorio Kohon, 2015-08-20 Interest in the relationship between psychoanalysis and art and other disciplines is growing In his new book Reflections on the Aesthetic Psychoanalysis and the uncanny Gregorio Kohon examines and reflects upon psychoanalytic understandings of estrangement the Freudian notions of the uncanny and *Nachträglichkeit* exploring how these are evoked in works of literature and art and are present in our response to such works Kohon provides close readings of and insights into the works of Franz Kafka Jorge Luis Borges Louise Bourgeois Juan Mu oz Anish Kapoor Richard Serra Edvard Munch Kurt Schwitters amongst others the book also includes a chapter on the Warsaw Ghetto Monument and the counter monument aesthetic movement in post war Germany Kohon shows how some works of art and literature represent something that otherwise eludes representation and how psychoanalysis and the aesthetic share the task of making a representation of the unrepresentable Reflections on the Aesthetic is not an exercise in applied psychoanalysis psychoanalysis and art are considered by the author in their own terms allowing a new understanding of the aesthetic to emerge Kohon's book makes compelling reading for psychoanalysts psychotherapists art therapists literary and art critics academics students and all those interested in the matter of the aesthetic

[Journeys in Psychoanalysis](#) Elizabeth Spillius, 2015-03-02 Spanning six decades this collection Journeys in Psychoanalysis The selected works of Elizabeth Spillius traces the arc of her career from anthropology and entering psychoanalysis almost by accident to becoming one of her generation's leading scholars of Melanie Klein Born in 1924 in Ontario Canada Elizabeth arrived at the London School of Economics for postgraduate studies in the 1950s and soon embarked on a groundbreaking study of family life in the East End of London that produced a PhD and her first book Family and Social Network under her maiden name Elizabeth Bott Published by the Tavistock Institute in 1957 it remains one of the most influential works published on the sociology of the family These papers are a testament to the luminous intellect and understated compassion that Elizabeth has always brought to her work They vividly map not just the evolution of Elizabeth's career but the development of Melanie Klein's thought

often drawing in compelling fashion on the writer's own experiences with her patients. Each is written with the clarity and concision that makes difficult concepts eminently comprehensible to psychoanalysts, psychoanalytic psychotherapists and laymen alike.

The Anatomy of the Clitoris Anne Zachary, 2018-04-19 In the long and passionate debate within psychoanalysis over the theory of female sexuality which has spanned more than a century and reached no definitive conclusion, a pattern of non-acceptance of ideas, their disappearance and then re-emergence later, is a continually repeating one. *The Anatomy of the Clitoris* shows how this happens using a comprehensive guide to the literature. The time is right culturally to explore this further using clinical material as illustration. The central aim of this book is to introduce recent innovative redrawing of female anatomy appearing in the scientific literature to psychoanalysis.

Suffering and Sacrifice in the Clinical Encounter Charles Ashbach, Karen Fraley, Paul Koehler, James L. Poulton, 2020-06-01 In *Suffering and Sacrifice in the Clinical Encounter* the authors identify the ways in which some patients seek to create what Freud termed a private religion and unconsciously substitute sacrificial enactments of scapegoat surrogates to protect them against the pain of separation, mourning and loss of primary figures of attachment. They investigate the function of sacrifice and its relationship to the breakdown of psychic structure and the development of manic defenses and pathological narcissism. Such treatments are complex; the reversed roles of victim and perpetrator central to the sacrificial process when enacted in therapy can trigger feelings of shame, guilt and inadequacy in the therapist. Perverse, vengeful and sadistic transference distortions are explored to enable the therapist to appreciate the true nature of the patient's hidden traumatic experience with the necessity for the working through of genuine separation and grieving highlighted. Useful methods are detailed to counter the tendency to become overly active and inappropriately involved when working with patients who have deadened their desire to improve. This book is unique in utilising the dynamic concepts of the effects of trauma and sacrifice, the role of the scapegoat and the distinctions between the experience of pain and the accomplishment of suffering in order to develop a foundational understanding of such patients. It is a must-read for all practising and trainee therapists.

Time and Memory Rosine Jozef Perelberg, 2018-04-19 The concern with time permeates Freud's work from *Studies on Hysteria* to *Analysis Terminable and Interminable*, which point out to a network of concepts that indicate Freud's complex theories on temporality. Indeed, no other psychoanalytic thinker has put forward such a revolutionary vision on the dimensions of time in human existence. This volume brings together some of the most important papers written on the topic by members of the British Psychoanalytical Society. In the richness of the detailed clinical discussions, the ways in which patients deal with time and memory are viewed as crucial indications about their internal world and ways of relating to their objects. Disorientation regarding time tends to reflect levels of disruption to internal object relationships, inability to mourn or to experience guilt. Examples from literature and history are considered in order to examine the power of the repetition compulsion, *Nachträglichkeit* as well as how the impossibility of bearing the mental pain can lead to the creation of a timeless world.

Century of Insight Derry Macdiarmid, 2018-03-08 Century of Insight is the story of the discovery of the unconscious mind based on the author's teaching of psychotherapy throughout his career. Beginning with the ideas of Freud and Jung it is a journey that describes through case histories, explanation and humour how successive ideas have created a body of knowledge that the author calls the Psychodynamic Enlightenment of the 20th century. Whilst essentially it is a story of the 20th century it includes a backdrop from tribal societies and also ideas from 19th century Europe including existentialism. In Part I the ideas of Freud, Jung and Adler are explained, their points of difference and then how they disagreed so violently that they had to break with each other. Their individual theories and their personal conflict are understood from the story of their personalities and background. Why could Freud not tolerate the expansive Jung and why did Jung clash so badly with his father?

Dreaming and Thinking Rosine Jozef Perelberg, 2018-05-30 This book contains some modern contributions to the understanding and interpretation of dreams developed by contemporary psychoanalysts in the British Society, exploring the connections between dreaming and thinking.

Independent Psychoanalysis Today Paul Williams, John Keane, Sira Dermen, 2018-03-26 Independent Psychoanalysis Today is a book that shows how contemporary Independent psychoanalysts think and work. There are three themes to the book: Independent thinking including the theory of technique, exploration of clinical concepts and demonstrations of ways of working by some of the most prominent Independent clinicians practicing today; finally the evolution and enduring impact of Independent ideas and the influence of past Independents on present ways of working.

Encounters with Melanie Klein Elizabeth Spillius, 2007-08-07 In this book Elizabeth Spillius explains how her background in anthropology led her on to a profound involvement in psychoanalysis and her establishment as a leading figure amongst Kleinian analysts.

Landscapes of the Dark Jonathan Sklar, 2018-03-21 In this important new collection of essays Jonathan Sklar argues that the founding tension between Freud's commitment to interpretation and Ferenczi's extra parameter of being in the experience has a central place, key role to play in contemporary psychoanalytic debate and that this tension can best be understood by returning to the place of trauma in psychoanalysis. Taking this debate into the heart of the clinical setting, a set of extensive, penetrating and often disturbing case studies examine the evocation of the real as early trauma for many patients and its subsequent mental development: a case of schizophrenia, a man with a severe Tic spasmoidic Torticollis and a neurotic with a somatic resistance to ending a long analysis.
