Race, Place, and Memory Margaret M. Mulrooney, 2022-03-15 A revealing work of public history that shows how communities remember their pasts in different ways to fit specific narratives Race Place and Memory charts the ebb and flow of racial violence in Wilmington North Carolina from the 1730s to the present day Margaret Mulrooney argues that white elites have employed public spaces memorials and celebrations to maintain the status quo The port city has long celebrated its white colonial revolutionary origins memorialized Decoration Day and hosted Klan parades Other events such as the Azalea Festival have attempted to present a false picture of racial harmony to attract tourists And yet the revolutionary acts of Wilmington s African American citizens who also demanded freedom first from slavery and later from

Jim Crow discrimination have gone unrecognized As a result beneath the surface of daily life collective memories of violence and alienation linger among the city's black population Mulrooney describes her own experiences as a public historian involved in the centennial commemoration of the so called Wilmington Race Riot of 1898 which perpetuated racial conflicts in the city throughout the twentieth century She shows how despite organizers best efforts a white authored narrative of the riot's contested origins remains Mulrooney makes a case for public history projects that recognize the history making authority of all community members and prompts us to reconsider the memories we inherit A volume in the series Cultural Heritage Studies edited by Paul A Shackel Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities *What is African American History?* Pero Gaglo Dagbovie, 2015-06-04 Scholarship on African American history has changed dramatically since the publication of George Washington Williams pioneering *A History of the Negro Race in America* in 1882 Organized chronologically and thematically *What is African American History* offers a concise and compelling introduction to the field of African American history as well as the black historical enterprise past present and future Pero Gaglo Dagbovie discusses many of the discipline's important turning points subspecialties defining characteristics debates texts and scholars The author explores the growth and maturation of scholarship on African American history from late nineteenth and early twentieth centuries until the field achieved significant recognition from the mainstream U S historical profession in the 1970s Subsequent decades witnessed the emergence and development of key theoretical approaches controversies and dynamic areas of concentration in black history the vibrant field of black women's history the intriguing relationship between African American history and Black Studies and the imaginable future directions of African American history in the twenty first century *What is African American History* will be a practical introduction for all students of African American history and Black Studies

Reading Contemporary African American Drama Trudier Harris, 2007 Textbook **African American Life in South Carolina's Upper Piedmont, 1780-1900** W. J. Megginson, 2006 Drawing on little used state and county denominational records privately held research materials and sources available only in local repositories W J Megginson brings to life African American society before during and after the Civil War He portrays relationships variously cordial patronizing and harsh between African Americans and whites the lives of free people of color the primal place of sharecropping in the post Civil War world and the push for education and ownership of property as the only means of overcoming economic dependency

BOOK JACKET *Unexpected Places* Eric Gardner, 2010-06-17 In January of 1861 on the eve of both the Civil War and the rebirth of the African Methodist Episcopal Church's Christian Recorder John Mifflin Brown wrote to the paper praising its editor Elisha Weaver It takes our Western boys to lead off I am proud of your paper Weaver's story though like many of the contributions of early black literature outside of the urban Northeast has almost vanished *Unexpected Places* Relocating Nineteenth Century African American Literature recovers the work of early African American

authors and editors such as Weaver who have been left off maps drawn by historians and literary critics Individual chapters restore to consideration black literary locations in antebellum St Louis antebellum Indiana Reconstruction era San Francisco and several sites tied to the Philadelphia based Recorder during and after the Civil War In conversation with both archival sources and contemporary scholarship Unexpected Places calls for a large scale rethinking of the nineteenth century African American literary landscape In addition to revisiting such better known writers as William Wells Brown Maria Stewart and Hannah Crafts Unexpected Places offers the first critical considerations of important figures including William Jay Greenly Jennie Carter Polly Wash and Lizzie Hart The book s discussion of physical locations leads naturally to careful study of how region is tied to genre authorship publication circumstances the black press domestic and nascent black nationalist ideologies and black mobility in the nineteenth century
