Clinical Diagnosis of Mental Disorders Benjamin Wolman,2012-12-06

For centuries the treatment of mentally disturbed individuals was quite simple They were accused of collusion with evil spirits hunted and persecuted The last witch was killed as late as 1782 in Switzerland Mentally disturbed people did not fare much better even when the witchhunting days were gone John Christian Reil gave the following description of mental patients at the crossroads of the fifteenth and sixteenth centuries We incarcerate these miserable creatures as if they were criminals in abandoned jails near to the lairs of owls in barren canyons beyond the city gates or in damp dungeons of prisons where never a pitying look of a humanitarian penetrates and we let them in chains rot in their own excrement Their fetters have eaten off the flesh of their bones and their emaciated pale faces look expectantly toward the graves which will end their misery and cover up our shamefulness 1803 The great reforms introduced by Philippe Pinel at Bicetre in 1793 augured the beginning of a new approach Pinel ascribed the sick role and called for compassion and help One does not need to know much about those he wants to hurt but one must know a lot in order to help Pinel s reform was followed by a rapid development in research of causes symptoms and remedies of mental disorders There are two main prerequisites for planning a treatment strategy
