Docufictions Gary D. Rhodes, John Parris Springer, 2014-10-01 Through most of the 20th century the distinction between the fictional narrative film and the documentary was vigorously maintained The documentary tradition developed side by side with but in the shadow of the more commercially successful feature film In the latter part of the century however the two forms merged on occasion and mockumentaries fictional works in a documentary format and docudramas reality based works in a fictional format became part of the film and television landscape The 18 essays here examine the relationships between narrative fiction films and documentary filmmaking focusing on how each influenced the other and how the two were merged in such diverse films and shows as Citizen Kane M A S H This Is Spinal Tap and Destination Moon Topics include the docudrama in early cinema the industrial film as faux documentary the fear evoked in 1950s science fiction films the selling of reality in mockumentaries and reality television and documentary forms The essays provide a foundation for significant rethinking of film history and criticism offering the first significant discussion of two emerging and increasingly important genres

Voyeur Nation Clay Calvert, 2009-04-21 From 24 hour a day girl cam sites

on the World Wide Web to trash talk television shows like Jerry Springer and reality television programs like Cops we've become a world of voyeurs. We like to watch others as their intimate moments, private facts, secrets, and dirty laundry are revealed. Voyeur Nation traces the evolution and forces driving what the author calls the voyeurism value. Calvert argues that although spectatorship and sensationalism are far from new phenomena, today a confluence of factors—legal, social, political, and technological—pushes voyeurism to the forefront of our image-based world. The First Amendment increasingly is called on to safeguard our right via new technologies and recording devices to peer into the innermost details of others' lives without fear of legal repercussion. But Calvert argues that the voyeurism value contradicts the value of discourse in democracy and First Amendment theory since voyeurism by its very nature involves merely watching without interacting or participating. It privileges watching and viewing media images over participating and interacting in democracy.

A Writer's Diary Virginia Woolf, 2003. Extracts drawn by Virginia Woolf's husband from the personal record she kept over a period of twenty-seven years offer insight into the art and mind of the twentieth-century author.

The New Diary Tristine Rainer, 1979-07-01. The New Diary is about a completely modern concept of journal writing. It has little to do with the rigid daily calendar diary you may have kept as a child or the factual travelogue you wrote to recall the Grand Canyon. Instead, it is a tool for tapping the full power of your inner resources. The New Diary is as much for those who already keep a journal as it is for those who have never kept one. It does not tell you the right way to keep a diary; rather, it offers numerous possibilities for using the diary to achieve your own purposes. It is a place for you to clarify goals, visualize the future, and focus your energies; a means of freeing your intuition and imagination; a workbook for exploring your dreams, your past, and your present life. It is for everyone seeking concrete methods for dealing with personal problems. It is for women and men interested in achieving self-reliance and inner liberation; for artists and writers seeking new techniques for overcoming blocks to creativity.

Forty Days from the Diary of a Delusional Man Jeffrey Hochstedler, 2011-04-29. This memoir takes a look into the heart and mind of one man who suffers from schizoaffective and bipolar disorders. Jeffrey Hochstedler's life has seen its share of twists and turns—a culmination of the many choices and decisions made at any one time. In this memoir, he shares revelations and meditations from events in his daily life and how these occurrences shaped the man he is today. Written in diary format, *Forty Days from the Diary of a Delusional Man* illustrates how his mind thinks, feels, and perceives. He reveals details from many parts of his life: his birth in 1957, growing up in Indiana with his parents and brother battling depression in his teen years, enlisting in the Army in 1981, dealing with his relationships and his schizoaffective and bipolar disorders, and finding solace in art. With many examples of Hochstedler's art included, *Forty Days from the Diary of a Delusional Man* shows how he was affected by confusion and despair. But it also communicates how he leaned on art and God to survive each day.

Reading the Early Modern English Diary Miriam Nandi, 2021-02-27. *Reading the Early Modern Diary* traces the historical genealogy, formal characteristics, and shifting cultural uses of the early modern English diary. It explores the possibilities and limitations

the genre held for the self expression of a writer at a time which considerably pre dated the Romantic cult of the individual self The book analyzes the connections between genre and self articulation How could the diary come to be associated with emotional self expression given the tedium and repetitiveness of its early seventeenth century ancestors How did what were once mere lists of daily events evolve into narrative representations of inner emotions What did it mean to write on a daily basis when the proper use of time was a heavily contested issue Reading the Early Modern Diary addresses these questions and develops new theoretical frameworks for discussing interiority and affect in early modern autobiographical texts
