Realistic Imagination:

The Realistic Imagination George Levine, 1981 In *The Realistic Imagination* George Levine argues that the Victorian realists and the later modernists were in fact doing similar things in their fiction they were trying to use language to get beyond language Levine sees the history of the nineteenth and early twentieth century novel as a continuing process in which each generation of writers struggled to escape the grip of convention and attempted to create new language to express their particular sense of reality As these attempts hardened into new conventions they generated new attempts to break free

We Believe in the Holy Spirit Henco van der Westhuizen, 2023-07-07 *We Believe in the Holy Spirit* is a collection of articles reflecting some of the most important ideas in pneumatology in recent

years Although the articles were not written to fit the articles of the Nicene Creed 381 linking these articles to the articles of the creed sheds imaginative light on the development of ideas in theologies of the Spirit Make-Believe David Dickinson,2020-01-30 I will tell you a story that will make you believe in God No story can guarantee being able to do this Yet novelists can tell stories that make us think about what we believe about God and why Despite repeated predictions of the death of the novel thousands of works of fiction are published and read in Britain each year Although Western society is less religiously observant than it was many 21st century novelists persist in pursuing theological religious and spiritual themes Make Believe seeks to explain why With chapters offering analyses of novels from several genres so called literary fiction historical fiction science fiction fantasy and dystopia David Dickinson discusses a wide spectrum of novelists Authors who are avowedly atheistic and authors who have a vested interest in perpetuating biblical stories are both featured Well known writers such as Rushdie McEwan McCarthy and Martell rub shoulders with some you may be meeting for the first time Appealing to literature students and people who simply enjoy reading whether Christian or not this study of God in novels invites us to open our minds and allow aspects of our culture to shape our understanding of God and to change our ways of talking about the divine Building the Human City Dr. John F. Kane,2016-03-30 Building the Human City is a first overview of the award winning yet quite diverse works of Jesuit philosopher William F Lynch Writing from the 1950s to the mid 1980s Lynch was among the first to warn against the fierce polarizations prevalent in our culture wars and political life He called for a transformation of artistic and intellectual sensibilities and imaginations through the healing discernments and critical ironies of an Ignatian and Socratic spirituality Yet the breadth of his concerns from cinema and literature to mental health and hope to secularization and faith as well as the depth of his thought philosophical as much as theological led to little initial awareness of the overall vision uniting his writings This book while exploring that vision also argues that the spirituality Lynch proposes is more needed today than when he first wrote *Hope in Pastoral Care and Counseling* Andrew D. Lester,1995-04-01 In this ground breaking book pastoral counselor Andrew Lester demonstrates that pastoral theology as well as social and behavioral sciences has neglected to address effectively the predominant cause of human suffering a lack of hope a sense of futurelessness Lester not only looks at the reasons why addressing the ideas of hope and despair has been overlooked by pastoral theology and other social and behavioral sciences He also offers a starting point for the development of addressing these important dimensions of human life He provides clinical theories and methods for pastoral assessment of and intervention with those who despair He also puts forth strategies for assessing the future stories of those who despair and offers a corrective to these stories through deconstruction reframing and reconstruction **Underdogs** Heather Love,2021-09-17 A pathbreaking genealogy of queer theory that traces its roots to an unexpected source sociological research on marginal communities in the era before Stonewall The sociology of social deviants flourished in the United States at midcentury studying the lives of outsiders such as homosexuals Jews disabled people drug addicts and political radicals

But in the following decades many of these downcast figures would become the architects of new social movements activists in revolt against institutions the state and social constraint As queer theory gained prominence as a subfield of the humanities in the late 1980s it seemed to inherit these radical activist impulses challenging not only gender and sexual norms but also the nature of society itself With *Underdogs* Heather Love shows that queer theorists inherited as much from sociologists as they did from activists Through theoretical and archival work Love traces the connection between midcentury studies of deviance and the antinormative antiessentialist field of queer theory While sociologists saw deviance as an inevitable fact of social life queer theorists embraced it as a rallying cry A robust interdisciplinary history of the field *Underdogs* stages a reencounter with the practices and communities that underwrite radical queer thought "The Eyes of Your Heart" Alison Searle, 2009-04-01 This book develops a theory of imagining biblically that explores the contributions scripture can make to a new way of thinking about creativity reading interpretation and criticism The methodology employed in order to demonstrate this thesis consists of a theoretical exploration of current theological understandings of the imagination and their implications within the fields of literary studies The biblical texts locates the function generally defined as imagination in the heart the eyes of your heart Ephesians 1:18 This book assesses what the biblical text as a literary and religious document contributes to the concept of imagination Due to the eclectic nature of the individual books that comprise the scriptural canon the text is considered primarily in terms of its overarching metanarrative language genres and theological propositions Tracing the various trajectories the biblical text opens up and the ways in which they intersect with and modify post Romantic assumptions about the imagination reconfigures traditional definitions of this concept A Calvinistic evangelical hermeneutic is deployed to establish a theoretical concept of what it means to imagine biblically This is further substantiated by a comparative study of authors ranging from the seventeenth to the twentieth centuries John Bunyan Samuel Rutherford Jane Austen Charlotte Bronte and C S Lewis Each author's chapter incorporates a close reading of a key text which concretely examines various trajectories of imagining biblically including creativity faith morals narrative Romanticism and eschatology The conclusion returns to the biblical text and draws these elements together with a definition of the concept of imagining biblically and its implications for literary studies
