Reality Revolution Return To The Way:

Beyond Racial Divides Lena Dominelli, Walter Lorenz, 2017-03-02 Written by leading authorities in the field this challenging book addresses complex issues of ethnicity and racial discrimination in ways that encourage further debate and analysis Its main theme is that social work has been and remains deeply implicated in racist policies and practices that have been locality specific but that racism is also recognizable across borders as a phenomenon that appears everywhere At the same time the book focuses on innovative theories and practice which seek to promote an emancipatory social work which sets itself the goal of eradicating social injustice particularly that applying to race The contributors come from a wide range of countries and describe their experiences in tackling racism in social work at the levels of both theory and practice This provides an impressive range of perspectives which cover models of social work created by people who have had to live with racism and find ways of overcoming it as well as those who have struggled to become able to express their own ethnicity without oppressing others The concluding message of the book is a positive one people can create a world that goes beyond racial divides by accepting validating and celebrating diversity while at the same time recognizing that people share many commonalities with others which can be used to establish egalitarian relationships realize social justice and communicate effectively with each other

Mentoring the Mentor Paulo Freire, 1997 *Mentoring the Mentor* recreates a Freirian dialogue in a printed format In this volume sixteen distinguished scholars engage in a critical and thoughtful exchange with Paulo Freire

While some contributors voice appreciation for Freire's ideas and for what it means to reinvent Freire in a North American context others offer sharp critiques of Freire's philosophy and of equal importance of the various interpretations of his work. A variety of chapters describe specific uses which have been made of Freire's ideas in diverse educational contexts from the New York City public schools to the revolutions in Guinea Bissau and Eritrea. Finally Paulo Freire himself responds to the major issues which are raised in the volume and invites readers to share in a continuing lively dialogue about the meaning of democratic and revolutionary education. The fundamental task of the mentor is a liberatory task. It is not to encourage the mentor's goals and aspirations and dreams to be reproduced in the mentees the students but to give rise to the possibility that the students become the owners of their own history. This is how I understand the need that teachers have to transcend their merely instructive task and to assume the ethical posture of a mentor who truly believes in the total autonomy, freedom and development of those he or she mentors. From Chapter Sixteen: A Response by Paulo Freire

Returning to Reality Paul Tyson, 2014-07-29. Could it be that we have lost touch with some basic human realities in our day of high tech efficiency, frenetic competition and ceaseless consumption? Have we turned from the moral, the spiritual and even the physical realities that make our lives meaningful? These are metaphysical questions, questions about the nature of reality, but they are not abstract questions. These are very down to earth questions that concern power and the collective frameworks of belief and action governing our daily lives. This book is an introduction to the history, theory and application of Christian metaphysics. Yet this book is not just an introduction; it is also a passionately argued call for a profound change in the contemporary Christian mind. Paul Tyson argues that as Western culture's Christian Platonist understanding of reality was replaced by modern pragmatic realism, we turned not just from one outlook on reality to another but away from reality itself. This book seeks to show that if we can recover this ancient Christian outlook on reality reframed for our day, then we will be able to recover a way of life that is in harmony with human and divine truth.

Reality in Movement Maarten van Delden, 2021-03-15. In the last couple of decades there has been a surge of interest in Octavio Paz's life and work and a number of important books have been published on Paz. However, most of these books are of a biographical nature or they examine Paz's role in the various intellectual initiatives he headed in Mexico, specifically the journals he founded. *Reality in Movement* looks at a wide range of topics of interest in Paz's career, including his engagement with the subversive adversary strain in Western culture, his meditations on questions of cultural identity and intercultural contact, his dialogue with both leftist and conservative ideological traditions, his interest in feminism and psychoanalysis and his theory of poetry. It concludes with a chapter on Octavio Paz as a literary character, a kind of reception study. Offering a complex and nuanced portrait of Paz as a writer and thinker, as well as an understanding of the era in which he lived, *Reality in Movement* will appeal to students of Octavio Paz and of Mexican literature more generally and to readers with an interest in the many significant literary, cultural, political and historical topics Paz wrote about over the course of his long career.

Return to Reality Stanley George Evans, 1954

Theology of George MacDonald John R. de Jong, 2021-01-01 George MacDonald 1824 1905 was writing at a time of Evangelical unease In a society ravaged by Asiatic cholera numbed by levels of infant mortality and fearful of revolution and the toxicity of industry to name but a few of the many challenges the gospel proclaiming eternal damnation for unbelievers was hardly good news rather Christianity was increasingly viewed as the source of bad news and a tool of state oppression MacDonald agreed in his view the church had become a vampire sucking the blood of her children instead of offering them Eucharistic life In contrast like Christ MacDonald offers us a child Although at first sight a familiar Romantic incarnation in MacDonald s theology the child becomes an unlikely icon challenging the vampire s kingdom and confronting the foundations of much of Western theology John R de Jong s meticulously researched study of MacDonald s work especially his realist and fantasy novels in its Victorian context is of more than historical interest In light of the growth of fundamentalist expressions of Christianity we are encouraged to consider embracing MacDonald s radical solution to religious vampirism becoming children
