The Threatening Storm Kenneth Pollack, 2003-03-25 In *The Threatening Storm* Kenneth M Pollack one of the world s leading experts on Iraq provides a masterly insider s perspective on the crucial issues facing the United States as it moves toward a new confrontation with Saddam Hussein For the past fifteen years as an analyst on Iraq for the Central Intelligence Agency and the National Security Council Kenneth Pollack has studied Saddam as closely as anyone else in the United States In 1990 he was one of only three CIA analysts to predict the Iraqi invasion of Kuwait As the principal author of the CIA s history of Iraqi military strategy and operations during the Gulf War Pollack gained rare insight into the methods and workings of what he believes to be the most brutal regime since Stalinist Russia Examining all sides of the debate and bringing a keen eye to the military and geopolitical forces at work Pollack ultimately comes to this controversial conclusion through our own mistakes the perfidy of others and Saddam s cunning the United States is left with few good policy options regarding Iraq Increasingly the option that makes the most sense is for the United States to launch a full scale invasion eradicate Saddam s weapons of mass destruction and rebuild Iraq as a prosperous and stable society for the good of the United States the Iraqi people and the entire region Pollack believed for many years that the United States could prevent Saddam from threatening the stability of the Persian Gulf and the world through containment a combination of sanctions and limited military operations Here Pollack explains why containment is no longer effective and why other policies intended to deter Saddam ultimately pose a greater risk than confronting him now before he gains possession of nuclear weapons and returns to his stated goal of dominating the Gulf region It is often said that war should be employed only in the last resort Pollack writes I reluctantly believe that in the case of the threat from Iraq we have come to the last resort Offering a view of the region that has the authority and force of an intelligence report Pollack outlines what the leaders of neighboring Arab countries are thinking what is necessary to gain their support for an invasion how a successful U S operation would be mounted what the likely costs would be and how Saddam might react He examines the state of Iraq today its economy its armed forces its political system the status of its weapons of mass destruction as best we understand them and the terrifying security apparatus that keeps Saddam in power

Pollack also analyzes the last twenty years of relations between the United States and Iraq to explain how the two countries reached the unhappy standoff that currently prevails. Commanding in its insights and full of detailed information about how leaders on both sides will make their decisions, *The Threatening Storm* is an essential guide to understanding what may be the crucial foreign policy challenge of our time. — *Militancy and Political Violence in Shiism* Assaf Moghadam, 2011-11-28

This book is the first systematic assessment of current trends and patterns of militancy in Shii communities in the Middle East and South Asia specifically in Iran Iraq but also in Lebanon Saudi Arabia Pakistan Afghanistan Kuwait and Bahrain. More than thirty years after the Islamic Revolution in Iran there are signs of a growing assertiveness on the part of Shii actors at times erupting into political violence. The book addresses two key questions: What trends emerge in the types of militancy Shii actors employ both inside and outside of the Shii heartland? And what are the main drivers of militancy in the Shii community? The editor concludes that although at present Shii assertiveness does not take on a predominantly militant form, a subculture of violence does exist among most Shii communities examined here and suggests five key drivers of political violence among Shiis: the impact of Iran nationalism and anti imperialism; Shii self protection and communal advancement; mahdism and organizational dynamics. This book will be of great interest to students and researchers of terrorism studies and political violence, war and conflict studies, and IR Security Studies in general. — **War, Exile and the Music of Afghanistan** John Baily, 2016-09-01

In the 1970s John Baily conducted extensive ethnomusicological research in Afghanistan principally in the city of Herat but also in Kabul. Then with Taraki's coup in 1978 came conflict, war, and the dispersal of many musicians to locations far and wide. This new publication is the culmination of Baily's further research on Afghan music over the 35 years that followed. This took him to Afghanistan, Pakistan, Iran, the USA, Australia, and parts of Europe: London, Hamburg, and Dublin. Arranged chronologically, the narrative traces the sequence of political events from 1978 through the Soviet invasion to the coming of the Taliban and finally the aftermath of the US-led invasion in 2001. He examines the effects of the ever-changing situation on the lives and works of Afghan musicians, following individual musicians in fascinating detail. At the heart of his analysis are privileged vignettes of ten musical personalities, some of friends and some newly discovered. The result is a remarkable personal memoir by an eminent ethnomusicologist known for his deep commitment to Afghanistan, Afghan musicians, and Afghan musical culture. John Baily is also an ethnographic filmmaker. Four of his films relating to his research are included on the downloadable resources that accompanies the text. — **A Brief History of Helmand**, [Conflict, Crime, and the State in Postcommunist Eurasia](#) Svante Cornell, Michael Jonsson, 2014-02-11

Conflict, Crime, and the State in Postcommunist Eurasia examines the emergence and evolution of a crime-conflict nexus and the relationship between ideologically motivated insurgents and profit-motivated criminal organizations in the region. — **Great Muslim Leaders** Melanie C. Doomed in Afghanistan Phillip Corwin, 2003 In April 1992 Phillip Corwin was in Afghanistan as part of a United Nations team whose mission was to help ensure the transfer of power from the Soviet

installed communist regime of President Najibullah to an interim authority that would prepare for elections. Some years after the Soviet Union withdrew from Afghanistan, Najibullah's regime crumbled and he was convinced to resign with the understanding that he would be evacuated to a neutral country, India. Due to a series of miscalculations and machinations, the UN's diplomatic mission failed. Kabul fell to groups of mujahadin before Najibullah could be evacuated and before an interim authority could be installed. The inability of the various mujahadin factions to unite led to their eventual defeat by the Taliban, who four years later routed Najibullah from his safe haven at the UN compound and executed him. BOOK JACKET

Recovering the Frontier State Rasul Bux Rais, 2008-01-01 The book explores how legacies of internal strife and foreign invasions have altered the balance of social and political forces that provided some measure of stability to Afghanistan. The country faces structural constraints in the way of reviving itself owing to ethnic fragmentation, Taliban insurgency, and shallow social roots of political power. The central argument is that Afghanistan needs positive international engagement to find a new balance among its fractious social groups and build effective state and nationhood.

Bleeding Afghanistan Sonali Kolhatkar, James Ingalls, 2011-01-04 Through in-depth research and detailed historical context, Sonali Kolhatkar and James Ingalls report on the injustice of U.S. policies in Afghanistan historically and in the post 9/11 era. Drawing from declassified government documents and on-the-ground interviews with Afghan activists, journalists, lawyers, refugees, and students, *Bleeding Afghanistan* examines the connections between the U.S. training and arming of Mujahideen commanders and the subversion of Afghan democracy today. *Bleeding Afghanistan* boldly critiques the exploitation of Afghan women to justify war by both conservatives and liberals, analyzes uncritical media coverage of U.S. policies, and examines the ways in which the U.S. benefits from being in Afghanistan.

Rebuilding Afghanistan in Times of Crisis Adenrele Awotona, 2019-06-11 *Rebuilding Afghanistan in Times of Crisis* provides academics and researchers interested in planning, urbanism, and conflict studies with a multidisciplinary international assessment of the reconstruction and foreign aid efforts in Afghanistan. The book draws together expert contributions from countries across three continents: Asia, Europe, and North America, which have provided external aid to Afghanistan. Using international, regional, and local approaches, it highlights the importance of rebuilding sustainable communities in the midst of ongoing uncertainties. It explores the efficacy of external aid, challenges faced by the response of multilateral international agencies, the role of women in the reconstruction process, and community-based natural disaster risk management strategies. Finally, it looks at the lessons learned in the conflict reconstruction process to better prepare the country for future potential human, economic, infrastructural, and institutional vulnerabilities.

Guide to Islamist Movements Barry M. Rubin, *Sovereignty, State Failure and Human Rights* Neil Englehart, 2017-05-08 This book argues that the effectiveness of the state apparatus is one of the crucial variables determining human rights conditions and that state weakness and failure is responsible for much of the human rights abuses we see today. Weak states are unable to control their own agents or to police abuses by private actors, resulting in less

accountability and more abuse By contrast stronger states have greater capacities to protect human rights even strong authoritarian states tend to have better human rights conditions than weak ones The first two chapters of the book develop the theoretical connections between international law sovereignty states and rights and the consequences of state failure for these relationships The empirical chapters Chapters 3 6 test the validity of these theoretical claims employing a multi method approach that combines quantitative and qualitative methods Englehart uses case studies of Afghanistan Burma Myanmar and the Indian state of Bihar to analyze types and patterns of state failure based on analysis of NGO reports archival research primary and secondary texts and interviews and field research Examining what happens to human rights when states fail the book concludes with implications for scholars and activists concerned with human rights This book will be of great use to scholars of international relations comparative politics human rights law and state sovereignty
