The Sibylline Oracles J. L. Lightfoot, 2007-12-13 In this book J L Lightfoot throws a bridge between two mutually ignorant areas pagan oracles and Judaeo Christian studies The Sibyl was a legendary figure in Greco Roman antiquity who was credited with verse prophecies often of an apocalyptic character Lightfoot describes how she was taken over by Jews in the Hellenistic period and later by Christians as a vehicle for their own understandings of prophecy She explores what those understandings were and describes how the message was then clothed in the very distinctive and mannered pagan idiom that was the hallmark of Sibylline prophecy The volume contains an edition translation and commentary on the undeservedly neglected first and second books of extant oracles The commentary illustrates some of the ways in which biblical scriptures were represented and recast in an

oracular idiom and pays particular attention to the oracle's most noteworthy feature its extraordinarily rich description of the Day of Judgement

Something Coming Gail E. Husch, 2000 This major contribution to the study of antebellum religious art offers a detailed case study of American postmillennialism and its many visual expressions Treating paintings as intersections of cultural expression Gail E. Husch begins with a single painting to spin out an interpretation in many directions from the specific aesthetic and social concerns of artist and patron to the wider political and cultural concerns of Americans in the mid 19th century Arguing that genuine apocalyptic faith was fundamental to American Protestants Husch shows how artists patrons and ordinary citizens actively engaged contemporary questions of peace and war freedom and slavery and the equality of human beings before God in their visual arts Part of an emerging revaluation of the role of the religious in American art Husch asks us to read ideas as they function in works rather than see images merely as passive illustrations of ideas Weaving images drawn from high and low culture politics and religion she develops a complex cultural narrative of the times thus showing the truth of one picture being worth a thousand words

In the Whirlwind Robert A. Burt, 2012-05-16 In recounting the rich narratives of key biblical figures from Adam and Eve to Noah Cain Abraham Moses Job and Jesus In the Whirlwind paints a surprising picture of the ambivalent mutually dependent relationship between God and his peoples Taking the Hebrew and Christian Bibles as a unified whole Burt traces God's relationship with humanity as it evolves from complete harmony at the outset to continual struggle In almost every case God insists on unconditional obedience while humanity withholds submission and holds God accountable for his promises

Things Merely Are Simon Critchley, 2005-02-18 This book is an invitation to read poetry Simon Critchley argues that poetry enlarges life with a range of observation power of expression and attention to language that eclipses any other medium In a rich engagement with the poetry of Wallace Stevens Critchley reveals that poetry also contains deep and important philosophical insight Above all he argues for a poetic epistemology that enables us to think afresh the philosophical problem of the relation between mind and world and ultimately to cast the problem away Drawing astutely on Kant the German and English Romantics and Heidegger Critchley argues that through its descriptions of particular things and their stubborn plainness whether water guitars trees or cats poetry evokes the mereness of things It is this experience he shows that provokes the mood of calm and releases the imaginative insight we need to press back against the pressure of reality Critchley also argues that this calm defines the cinematic eye of Terrence Malick whose work is discussed at the end of the book

Functions of the Derrida Archive Richard J. Lane, 2003 This dissertation examines the early philosophical receptions to the work of Jacques Derrida structuring the receptions in the form of an archive The monograph is composed of three main sections The Non Locus of the Archive The Derrida Archive and Conclusion The Margins of Philosophy The Non Locus of the Archive examines three ways of conceptualizing the archive the archaeological or Foucauldian concept as a reaction to the traditional history of ideas the

traditional archive model Foucault attempts to replace and a deconstructive model which is the first stage in critiquing this traditional archaeological binary opposition The Functions of the Derrida Archive are briefly introduced and the whole issue of the philosophical receptions is related to Derrida's comments on Colleges and Philosophy and the essay The Principle of Reason The Derrida Archive is divided into Critical and Supporting Receptions This is an analysis of the Functions that the monograph finds working

Inconsistency in the Torah Joshua Berman, 2017 Rather than viewing inconsistencies in the Torah as signs of revision this book identifies precursors for these phenomena in ancient Near Eastern writings It claims that Enlightenment and German historicist influences corrupted critical study of the Bible and calls for a return to the more modest agenda set out by Spinoza
