

WHAT IS **FASCISM**?

Fascism is a political ideology characterized by dictatorial power, extreme nationalism, and suppression of individual freedoms.

Fascism promotes a strong centralized government led by a single leader, often emphasizing the nation's collective identity and a sense of superiority.

Fascist regimes rely on *propaganda, censorship, and control over institutions* to maintain control. They often exhibit militaristic tendencies, fostering aggressive foreign policies.

Reappraisals Of Fascism

Paul R. Bartrop, Samuel Totten

Reappraisals Of Fascism:

Reappraisals of Fascism Henry Ashby Turner, 1975 **The Routledge Companion to Fascism and the Far Right** Peter Davies, Derek Lynch, 2005-08-16 The Routledge Companion to Fascism and the Far Right is an engaging and accessible guide to the origins of fascism the main facets of the ideology and the reality of fascist government around the world In a clear and simple manner this book illustrates the main features of the subject using chronologies maps glossaries and biographies of key individuals As well as the key examples of Hitler s Germany and Mussolini s Italy this book also draws on extreme right wing movements in Latin America Eastern Europe and the Far East In a series of original essays the authors explain the complex topics including the roots of fascism fascist ideology fascism in government and opposition nation and race in fascism fascism and society fascism and economics fascism and diplomacy **Yeats, Eliot, Pound and the Politics of Poetry** Cairns Craig, 2015-12-22 It has long been recognised that there is an apparently paradoxical relationship between the revolutionary poetic style developed by Yeats Eliot and Pound in the period during and after the First World War and the reactionary politics with which they were associated in the 1920s and 1930s Concentrating on their writings in the period up to the 1930s this study first published in 1982 helps to resolve the paradox and also provides a much needed reappraisal of the factors influencing their poetic and political development The work of these poets has usually been seen as deriving from the tradition of continental symbolist poetics Yeats Eliot Pound and the Politics of Poetry will be of interest to students of literature **Fascism in Europe, 1919-1945** Philip Morgan, 2003-09-02 Fascism in Europe 1919 1945 surveys the phenomenon which is still the object of interest and debate over fifty years after its defeat in the Second World War It introduces the recent scholarship and continuing debates on the nature of fascism as well as the often contentious contributions by foreign historians and political scientists From the pre First World War intellectual origins of Fascism to its demise in 1945 this book examines the two waves of fascism in the immediate post war period and in the late 1920s and early 1930s whether the European crisis created by the Treaty of Versailles allowed fascism to take root why fascism came to power in Italy and Germany but not anywhere else in Europe fascism s own claim to be an international and internationalist movement the idea of totalitarianism as the most useful and appropriate way of analyzing the fascist regimes **Fascists and Conservatives** Martin Blinkhorn, 2012-11-12 First published in 1990 During the last twenty years prodigious scholarly effort has gone into the study of fascism and the right in twentieth century Europe Quite apart from the study of particular fascist and national socialist movements and of individual right wing regimes Fascist Italy the Third Reich Franco s Spain etc scholars have striven to locate the essential nature of fascism to determine what is distinctive about its ideas programmes policies and support to identify what if anything differentiates it from other forms of rightism and to decide whether a satisfactory definition of fascism can be arrived at This volume is intended to assist the further consideration of these and related problems **Shōwa Japan: 1926-1941** Stephen S. Large, 1998 *Germany - Great Britain - France* Herbert A.

Strauss,2011-09-06 No detailed description available for Germany Great Britain France **Population Politics in Twentieth Century Europe** Maria-Sophia Quine,2013-04-15 Maria Sophia Quine demystifies the population policies of fascist regimes by looking at them in the wider context of how societies in general reacted to the profound economic changes brought by industrialization Population Politics in Twentieth Century Europe provides an original comparative treatment of European population policies gives the historical background to twentieth century population policies considers topics such as racism and sexism in Nazi ideology Eugenics in England family allowance schemes in France and sterilization synthesizes the latest research in different fields and countries *Nationalism and the State* John Breuilly,1994-02 Since its publication this important study has become established as a central work on the vast and contested subject of modern nationalism Placing historical evidence within a general theoretical framework John Breuilly argues that nationalism should be understood as a form of politics that arises in opposition to the modern state In this updated and revised edition he extends his analysis to the most recent developments in central Europe and the former Soviet Union He also addresses the current debates over the meaning of nationalism and their implications for his position Breuilly challenges the conventional view that nationalism emerges from a sense of cultural identity Rather he shows how elites social groups and foreign governments use nationalist appeals to mobilize popular support against the state Nationalism then is a means of creating a sense of identity This provocative argument is supported with a wide ranging analysis of pertinent examples national opposition in early modern Europe the unification movement in Germany Italy and Poland separatism under the Hapsburg and Ottoman empires fascism in Germany Italy and Romania post war anti colonialism and the nationalist resurgence following the breakdown of Soviet power Still the most comprehensive and systematic historical comparison of nationalist politics *Nationalism and the State* is an indispensable book for anyone seeking to understand modern politics **Encyclopedia of Political Thought** Garrett Ward Sheldon,2001 Presents articles on concepts issues and notable persons related to politics and political science throughout history *Dictionary of Genocide* Paul R. Bartrop,Samuel Totten,2007-11-30 Over 600 terms identify and explain the history and suffering of ethnic and religious groups experiencing genocide throughout the world The people places governments agencies documents legal terms and all other aspects of genocide are defined for new students and scholars alike **Hostages of Modernization** Herbert Arthur Strauss,1993 The series was designed in response to the research experiences accumulated by the Center for Research on Antisemitism of Berlin Technical University since 1982 The first two volumes presented normative thinking on the social and psychological mechanisms effective in antisemitism The present volume The Inter-War Crisis Richard Overy,2016-07-15 The Inter War Crisis is a concise yet analytical overview of the rapidly changing world between 1918 and 1939 covering the political economic and social instability that resulted from the First World War and the eventual descent towards the fresh upheaval of the Second World War Revised throughout and containing a new range of illustrations this third edition covers topics such as the Russian Revolution the Wall Street Crash

of 1929 the concepts of the end of civilization and the decline of the West cultural and scientific responses to an age of anxiety and fear and the ways in which dictatorship came to replace democracy across so much of Europe Global in focus it offers thematic discussions close analysis of a range of case studies and a clear over arching narrative structure that guides the reader from the close of one war to the beginning of the next Also including a selection of over thirty primary source documents maps a chronology of events a glossary of key terms a Who s Who of important figures and an extensive and updated guide to further reading this book is an essential introduction for students of the inter war period **The**

Modernization of the Western World John McGrath,Kathleen Callanan Martin,2017-11-06 The Modernization of the Western World presents an overview of the history of Western civilization and provides readers with the intellectual tools they need to comprehend how societies function and change Covering Western history from ancient history to the current era of globalization it draws on the tradition of historical sociology to describe the forces of social change and what they have meant to the lives of the people caught in the midst of them This second edition is revised throughout to bring the content up to date with recent developments and discusses key themes such as terrorism refugees the European Union and multinational corporations It also includes a new chapter on the Ancient World covering this era from the advent of urbanization and agriculture in the Middle East to the fall of Rome and emergence of Christianity providing valuable historical context Clear and concise this book succinctly illustrates the essential turning points in the history of Western society and identifies the economic social political and cultural forces that are transforming the wider world to this day Illustrated with maps and images and containing a glossary and new boxed features explaining key concepts this is the perfect introductory book for students of the development of Western civilization **The Dawn of Political Nihilism**

Professor David Ohana,2008-12-04 In the turbulent period between 1870 and 1930 the contours on modernity were taking shape especially the connections between technology politics and aesthetics The trilogy The Nihilist Order traces the genealogy of the nihilist totalitarian syndrome Until now nihilism and totalitarianism were considered opposites one an orderless state of affairs the other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts that dominated the history of the first half of the twentieth century Starting with Nietzsche s philosophy this book traces the development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian Futurists led by Filippo Tommaso Marinetti and Ernst J nger were all well known intellectual and cultural figures Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological

camps Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism a revolt against the rationalistic and universalistic pretensions of the Enlightenment an affirmation of the dynamism of modern life and the replacement of the traditional Judeo Christian values of good and evil by other dualities such as authenticity and decadence Concurrently there took place affirmation of the technological era the creation of a new man and a violent order and the birth of a new political style in place of traditional world views When channelled into the political sphere these aesthetic nihilist ideas paved the way for the rise of totalitarianism

Modernism Peter Gay, 2013-05-06 Rich learned briskly written maddening yet necessary study Lee Siegel New York Times Book Review Peter Gay explores the shocking modernist rebellion that beginning in the 1840s transformed art literature music and film Modernism presents a thrilling pageant of heretics that includes Oscar Wilde Pablo Picasso D W Griffiths James Joyce Virginia Woolf T S Eliot Walter Gropius Arnold Schoenberg and of course Andy Warhol

Postcolonial Theory and the Making of Hindu Nationalism Meera Nanda, 2025-06-06 This book tells the story of two strange bedfellows the Postcolonial Left and the Hindu Right It argues that the Postcolonial Left's relentless attacks on the epistemic violence of Western norms of rationality and modernity are providing the conceptual vocabulary for the Hindu Right's project of decolonizing the Hindu mind The postcolonial project of provincializing Europe is widely shared by the Hindu Right and harks back to the Hindu revivalist movements of the nineteenth century This book argues that postcolonial thought in India bears a strong family resemblance in context and content with the conservative revolution that brought down the Weimar Republic in Germany before the Nazi takeover Both an intellectual history of India through the last half century and a critical engagement with postcolonial theory this book will be of interest to scholars of South Asia and the humanities and social sciences at large

Western Europe in 1977 United States. Congress. House. Committee on International Relations. Subcommittee on Europe and the Middle East, 1977

A Companion to Nazi Germany Shelley Baranowski, Armin Nolzen, Claus-Christian W. Szejnmann, 2018-04-03 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich's rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party's emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era's lasting legacy this book offers an in depth examination of modern history's most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research

and home life amidst the Third Reich's ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today's political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world **The Thanks of the Fatherland** James M. Diehl, 2000-11-09 An account of the problems facing German veterans after WWII and the ways in which they were addressed in the decade following Germany's defeat The primary focus is on the major pieces of veterans legislation passed in the early years of the German Federal Republic Historical context is provided by the first two chapters and the conclusion which compares and contrasts the fate of veterans and their sociopolitical impact on German society following the two world wars Originally published in 1993 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Unveiling the Energy of Verbal Artistry: An Mental Sojourn through **Reappraisals Of Fascism**

In some sort of inundated with displays and the cacophony of quick interaction, the profound power and emotional resonance of verbal art often diminish into obscurity, eclipsed by the continuous assault of noise and distractions.
